Slovenia: Main report

1999

financial capital whether mediated through the financial market or foreign direct investment has been a key factor in european

economic growth this book examines the interaction between european and global financial integration and analyses the dynamics of the monetary sector and the real economy in europe the key analytical focus is on the theoretical and empirical dynamics of financial markets in europe however it also provides regional case studies of key institutional developments and lessons from foreign direct investment there is a broad range of findings for central eastern and western europe as well as eu partner countries crucially the analysis includes new approaches and options for solving the transatlantic banking crisis and suggests policy innovations for a world with unstable financial markets

Handbook of Research on Climate Change and the Sustainable Financial Sector

2021-06-25

master s thesis from the year 2014 in the subject economics macro economics general grade first grade wollega university college of business and economics course development economics language english abstract this study has examined sectoral analysis of the impact of foreign aid on aggregate and sectoral economic growth in ethiopia over the period 1981 to 2012 using multivariate vector auto regression analysis all the necessary time series tests such as stationary test co integration test weak exogeneity test vector error correction and causality test in vector error correction model and the like are conducted the empirical result from the growth equation shows that aid has a significant positive impact on educational sector gdp in the long run on the other hand foreign aid has positive but insignificant impact on real gdp agriculture gdp and health sector gdp of ethiopia foreign aid is effective in enhancing growth at aggregate level of the economy in general and education sector of the economy of ethiopia in particular the test result of the study result reveals that there is a bi directional causal relationship between educational gdp and educational foreign aid in ethiopia however the agricultural and health sector does not show any bi directional causality with their respective sector aid this implies that all aid allocated for sectors is ineffective all in all in achieving its objectives of economic development therefore aid recipient country like ethiopia has to work how to enhance the domestic revenue raising capacity of the country which is at the heart of the mechanism to meet the capital required for the economy in times of short falls and ineffectiveness of external resources

The Manufacturing Sector in Argentina, Brazil, and Mexico

2019-01-25

how important is financial development for economic development a costly state verification model of financial intermediation is presented to address this question the model is calibrated to match facts about the u s economy such as intermediation spreads and the firm size distribution for the years 1974 and 2004 it is then used to study the international data using cross country interest rate spreads and per capita gdp the analysis suggests that a country like uganda could increase its output by 140 to 180 percent if it could adopt the world s best practice in the financial sector still this amounts to only 34 to 40 percent of the gap between uganda s potential and actual output charts and tables

Reform and Leadership in the Public Sector

2007-01-01

a longtime favorite among teachers and students economics of the public sector returns to the classroom in a fresh edition that has been fully revised to reflect the latest developments in public policy and economic research professor stiglitz builds on the book s classic strengths an integrated approach to public economics a readable and inviting style and careful attention to real world problems and applications

Growth of Urban Informal Sector and Economic Development

1994

master s thesis from the year 2020 in the subject economics economic cycle and growth grade 3 33 ethiopian civil service university language english abstract this paper examined the relationship between banking sector development and economic growth in ethiopia the paper also examines the effect of banking development on economic growth in ethiopia and to establish which theory holds for ethiopia between the demand following and the supply leading theory unlike the majority of previous studies this study uses the newly developed ardl bounds testing approach to examine the relationship the ardl bounds testing approach has numerous advantages over other co integration techniques especially when a short time series dataset is used in order to test the robustness of the empirical results three proxies of bank based financial development have been used namely 1 the domestic credit provided by the banking sector as a ratio of gdp 2 broad money supply as a ratio of gd 3 private credit as percentage of gdp annual time series data between the years 1987 and 2019 were used for the study from the national bank of ethiopia nbe statistical bulletin the structural break unit root test revealed that all the variables are stationary at their first difference the bound test cointegration analysis established the existence of long run relationship among the variables the ardl revealed that domestic credit provided by the banking sector significantly affected economic growth in the long run while private credit statistical significant and negatively affect economic growth in the short run during the period of study the empirical results of this study show that the effect of banking sector development and economic growth in ethiopia is sensitive to the proxy used to measure the banking sector development the policymakers need to make policies that can lead to establishment of banking institutions in the rural areas which have limited access to ban

Macroeconomic Imbalances

2012

this paper develops a model of the process of reallocation of labor from the state sector to the private sector when growth is exogenously determined we show that in the initial stages of transition unemployment will rise over time after a critical stage in the transition process restructuring is accompanied by a decline in unemployment when growth is endogenously determined and human capital is acquired by learning by doing we show that whether restructuring eventually occurs is determined by the level of human capital in the private sector and the rate of unemployment the effects of various shocks and government policies in affecting the costs speed and eventual outcome of restructuring are analyzed

Aggregate Economic Choice

2012-12-06

china has achieved alarming success in accelerating the economic growth rate since it started economic reform about 16 years ago however its state sector is still running severe deficits even though its productivity might be improved since the reform started its financial situation nevertheless has been worsening mainly as a result of increased competition from the rapidly expanding non state sector therefore the reform of this sector has become an urgent problem all the papers collected in this book are closely related to the various issues that the reform of the state sector has to solve among the contributors are professor merton h miller a nobel laureate and expert on firm finance and governance mr ji lin the vice president of the chinese academy of social sciences dr justin y lin the director of center of china s economic research at beijing university professor gang fan the well known chinese economist and vice director of the institute of economic research at the chinese academy of social sciences professor guoqiang tian an expert on mechanism design at texas a m university and many other researchers and professors from china and the north america s research institutes and universities therefore this book will be extremely useful and relevant to those economists as well as government decision makers working in the field of the transitional economy

Critical Risks of Different Economic Sectors

2020
