those who spend time with god and his word and his spirit and who dwell in his presence and commune with him and develop a personal relationship with him become transformed in the process and thus are better informed equipped and empowered to attract steward and exercise influence in the 7 mountains of culture arts entertainment business economy education family government law media and religion that is the basic premise and thesis of this book moreover i assert that such transformation is not only possible for disciples of christ but rather it is imperative and essential to successfully fulfill our divine assignments callings and destinies several places in scripture such as micah 4 1 and isaiah 2 2 mention the

mountain of the lord or the mountain of the house of the lord that is above all the other mountains and is the chief mountain depending on the particular translation used this phrase refers to the place of god s abode or heaven and for our purposes here i refer to it as the 8th mountain mountains in scripture refer to kingdoms authority rule and dominion the 8th mountain is calling your name you ve read about what awaits you and what lies ahead on this trek to the spiritual summit you can think of this book as your mountaineering school curriculum and training manual for the 8th mountain to educate train and prepare you for climbing and reaching the summit of the highest peak in the universe it teaches you survival skills how to thrive and be successful how to work as a team how to ascend and descend how to avoid or minimize danger what gear and supplies to take how to monitor changing weather conditions and how to save your life and protect yourself and those around you in the harsh climate adverse conditions and unforgiving environment of the 7 mountains of culture just as mount everest is the highest point on earth the 8th mountain the mountain of the lord is the highest point in the universe and is heaven itself the old saying it s lonely at the top doesn t apply here there s no reason to be lonely on the 8th mountain and lots of reasons to be fulfilled and satisfied full of joy and peace and love and there s a whole community of fellow climbers for you to meet and get to know some are more experienced than others and are at different levels of skill and knowledge and physical and spiritual conditioning but we re all still learning and growing and are on a journey that will last for a lifetime and an eternity we hope that you will join us and we invite you to do so

my people are destroyed for a lack of knowledge hosea 4:6 the modern church is in grave danger if you pay attention at all this is easy to see one of the reasons we are in grave danger is our lack of knowledge the late dr r c sproul once said everyone is a theologian the danger here lies in that if we do not have a correct understanding of god and his attributes we will create an idol of who we would like god to be scripture tells us to love god with our whole minds a study of church history and of theology will help us accomplish this what you will find within the pages of this study is an emphasis on theology and doctrine as it was forced to become razor sharp due to people making god into the god they idolized as you proceed through these chapters you will be faced with questions that will help you to learn how to think critically you will learn many of the attributes of god you will also learn christology soteriology hermeneutics apologetics polemics and a number of other tools to help guide you into who the biblical god truly is

whilst many assume that conservative evangelical support for trump is motivated by his position on social issues such as abortion and lgbtq rights or a nostalgia for an imagined american golden age this book shows that the reality is much more complex by looking at a more recent and understudied trend of evangelicalism in america damon t berry examines how leaders within the new apostolic reformation nar a charismatically inclined evangelical movement claim their support for trump came from alleged prophetic visions that compelled them to defend trump s candidacy and to continue to defend his presidency re election against demonically inspired marxist deep state enemies in this conspiratorial cosmology spiritual warfare through prayer and political activism is the duty of the faithful so that they might protect trump as god s anointed leader and war against malevolent unpatriotic forces that oppose him the nation and god himself working from primary source materials produced by leading figures among the nar berry argues that this conspiratorial discourse is central to nar support for trump s candidacy presidency and re election effort and that this discourse has come to shape some of the most important debates among american religious conservatives in the 21st century

the last decade has witnessed fundamental shifts in the relationship between religion and politics in this light religious symbols motifs justifications and practices

are increasingly noticeable in political discourses as well as agendas particularly in the global south with pentecostal christians standing out as salient actors performative practices enacted in political contexts such as the anointing of state authorities prophecies warfare prayers etc have drawn the attention of numerous scholars worldwide the four surveys contained in this volume account for these developments in africa asia and latin america and synoptically engage with the following question can any meaningful nexus connecting multiple and apparently isolated nodes of pentecostal engagement in the political sphere around the globe be identified in addition they do the groundwork for drawing parallels on a global level on the basis of which new light can be shed on fundamental changes in pentecostal actorhood and self understanding thus local developments and ethnographic studies are for the first time reflected upon from a global perspective

prayer is an important religious practice that is rarely studied from the perspective of politics and yet it should be though some forms of protestantism teach that prayer should be individual and private this is an exception rather than a rule in many other religions and cultures the regulation of collective and public prayer cannot be separated from the complex world of politics where is prayer allowed and where not who can participate and who can t how should you pray and how shouldn t you prayer is subject to a host of both written and unwritten political rules from the pentecostal religious battle where prayer is both sword and shield against the satanic other to the relations between islam and christianity prayer as spiritual warfare can be found cross culturally and across the world this book

brings together case studies of the political salience of prayer in nigeria france india russia and the united states it deals with christian muslim and hindu practices in a world where religious tensions are ever present it reminds us of the intensely political nature of prayer this book was originally published as a special issue of the journal of religious and political practice

when hell invades the churches an expose of redding bethel and the new apostolic reformation reveals how the new age has entered the church just as dave hunt warned in his seminal 1985 book the seduction of christianity mr stunich has courageously exposed how new age temples like bethel church are masquerading as christian churches and how a new breed of american entrepreneur the pastorpreneur is mixing business and faux christianity in order to achieve great worldly success while leading millions of christians dangerously astray and far from the narrow path that leads to salvation and into a new experienced based contra scriptural religion masquerading as christianity readers will be shocked to see how far bethel has strayed from the truth yet still manages to deceive most of the world into believing that it is a christian church if you have any doubt that the great apostasy falling away predicted in 2 thessalonians 2 is well underway this book will dispel any doubts this book peels back the curtain on the new apostolic reformation and lays bare how absurd its claims are that new apostles and prophets now guide the church while the movement spews out countless false prophecies and false claims of new revelations from god but this book should be of equal interest to secular readers and all who wish to preserve

the separation between church and state for this book exposes how a new form of faux christianity seeks dominion over all human endeavors both public and private and in the process is causing both spiritual and temporal harm on a global scale

the white privilege phenomenon arguably began when european countries started to colonize africa the americas asia australia new zealand and the pacific islands white privilege is built on the twin towers of european colonizers exploiting their colonies human resources and stealing their natural resources to build up their ill gotten wealth structured into their system white privilege perpetuates white supremacy horrible examples of white privilege are mentioned to show how white people dehumanized races in their colonies and stole their natural resources white privilege continues today in many parts of the world in various ways white privilege is a heresy because it is anti bible it is blind to the fact that the iniquities of the colonizing fathers live on today in the very structures and systems governing the world it is an apostasy because it clearly denies the doctrine that all humans are created in god s image white privilege in transition is a frank assessment of the damage white privilege has done in a persuasive nonjudgmental way this work invites practitioners of white privilege to accept the fact that competition and survival today take place on a level playing field

bethel church in redding california is one of the most popular and polarizing

churches in america home to the award winning bethel music label its songs are among the most used in churches thousands of people visit the church each year drawn by reports of miraculous healings the manifestation of a glittering glory cloud and other miracles they re convinced that the church is at the forefront of an end time movement that is restoring miraculous power to the church at large and bringing heaven to earth yet others are concerned that bethel has left the boundaries of scripture and brought its followers into a dangerously speculative and experience driven faith they say that in the name of training miracle workers bethel has introduced hazardous perhaps even occultic practices into the church this has resulted in chaos confusion and damaged lives in this book we examine the controversial teachings of the bethel church movement as it is called which has transformed modern christian practice culture and worship we show its place in the broader new apostolic reformation a worldwide movement of apostles and prophets intent on reconstructing the mission and the message of the christian church

for readers of democracy in chains and dark money a revelatory investigation of the religious right's rise to political power for too long the religious right has masqueraded as a social movement preoccupied with a number of cultural issues such as abortion and same sex marriage in her deeply reported investigation katherine stewart reveals a disturbing truth this is a political movement that seeks to gain power and to impose its vision on all of society america's religious nationalists aren't just fighting a culture war they are waging a political war on the norms and institutions of american democracy stewart pulls back the curtain on the inner workings and leading personalities of a movement that has turned religion into a tool for domination she exposes a dense network of think tanks advocacy groups and pastoral organizations embedded in a rapidly expanding community of international alliances and united not by any central command but by a shared anti-democratic vision and a common will to power she follows the money that fuels this movement tracing much of it to a cadre of super-wealthy ultraconservative donors and family foundations she shows that today's christian nationalism is the fruit of a longstanding antidemocratic reactionary strain of american thought that draws on some of the most troubling episodes in america's past it forms common cause with a globe-spanning movement that seeks to destroy liberal democracy and replace it with nationalist theocratic and autocratic forms of government around the world religious nationalism is far more organized and better funded than most people realize it seeks to control all aspects of government and society its successes have been stunning and its influence now

extends to every aspect of american life from the white house to state capitols from our schools to our hospitals the power worshippers is a brilliantly reported book of warning and a wake up call stewart s probing examination demands that christian nationalism be taken seriously as a significant threat to the american republic and our democratic freedoms

demonization has increasingly become central to the global religious and political landscape passing orders interrogates this centrality through an analysis of evangelical spiritual warfare demonologies in contemporary america situating spiritual warfare as part of broader frameworks of american exceptionalism ethnonationalism and empire management author s jonathon o donnell exposes the theological foundations of the systems of queer and transphobia anti blackness islamophobia and settler colonialism that justify the dehumanizing practices of the current u s political order o donnell argues that demonologies are not only tools of dehumanization but also ontological and biopolitical systems that create and maintain structures of sovereign power or orthotaxies models of the right ordering of space time and bodies that stratify humanity into hierarchies of being and nonbeing alternative orders are demonized as passing framed as counterfeit transgressive and transient yet these orders refuse to simply pass on instead giving strength to deviant desires that challenge the legitimacy of sovereign violence critically examining this challenge in the demonologies of three figures jezebel the islamic antichrist and leviathan passing orders re imagines demons as a surprising source of political and social resistance reflecting fragile and fractious communities bound by mutual passing and precarity into strategic coalitions of solidarity subversion and survival

meantime is a mother they don t call it mean for nothing meantime is the period of time between directives and destiny promise and fulfillment contract and deliverables for people offended by my title let s just say meantime is transition dr lance wallnau a christian leadership and change agent defines transition as when i m going through hell but i think god is in it wallnau the 7 mountain mandate vol 1 2 3 herein lies the secret of getting through our mean times when you re going through hell you can t help but wonder whether or not god is in it this book is dedicated to the aspiring kings of business and leadership those whose ranks in business or leadership have not quite hit the mark yet those who are not quite sure if their business or leadership goals are ever going to make it to see reality today we ve got kings of comedy kings of culture kings of pop hip hop and so forth these are people who have become widely known over their networks and areas of influence if you re into church you probably hear the term kings priests and prophets often kings as wallnau hillman and other leadership change agents define them are the majority of the body of christ who are not called to work full

time inside the church these are the working class citizens kings in my opinion are the rest of us who are still trying to experience the promised land we are believers in christ who are leaders on our jobs leaders in our businesses or we are aspiring to become leaders we want to realize our dreams have them touch them and watch them grow to become realities in this present world no longer do we want to watch as others pursue their dreams sometimes at our expense we silently wish for experienced leaders as fathers to help us achieve our dreams although we have many teachers we do not have many fathers in the faith 1 corinthians 4 14 16 but god knows and he sees if he can raise up an egyptian pharaoh to father a hebrew boy called moises surely he can raise up great spiritual fathers to this generation do not despair you are still kings in the meantime merle ray author

Faith in Democracy

dileggiata e dichiarata fuori corso dai nuovi despoti la democrazia è oggi la
principale imputata in un processo collettivo in cui è in gioco il futuro dell
occidente magistrato e a lungo protagonista della vita delle istituzioni fervente
studioso della storia e della cultura classica luciano violante analizza alcune
preoccupanti tendenze per fare luce sui rischi reali e smascherare i falsi idoli il

punto di partenza è il grande malinteso che l'autore individua come causa della situazione attuale aver limitato il concetto di democrazia a un elenco di diritti da garantire rimuovendone la naturale contropartita i doveri a cui adempiere attraverso il confronto con contesti politici drammaticamente emergenti in particolare Russia e Ungheria scava in un passato comune per ritrovare l'origine dei tanti mali in primis le presunzioni dell'Occidente dall'esportazione della democrazia all'ingenua equazione tra sviluppo economico e avanzamento dei diritti per fare i conti con il narcisismo di una civiltà che ha preferito lo scaltro Ulisse all'onesto Palamede ripercorre inoltre le tappe della storia italiana recente alla ricerca di quel che resta dello spirito della costituzione per comprendere come si sia arrivati ad attribuire le colpe della politica alla democrazia ridotta a un complesso di regole a mera tecnica di governo alimentando così l'errata convinzione che essa interessi e dipenda solo da chi quelle regole è chiamato a stabilirle e a farle rispettare un pamphlet appassionato e severo che pone l'accento sulle responsabilità di ciascuno per rimettere a fuoco e al centro dei comportamenti parole che ritrovino un significato condiviso diritto e dovere libertà e uguaglianza pace e giustizia e far sorgere una nuova e piena consapevolezza civica

an investigative study of the far right's attack on education and an on the ground look at the parent activist battle on either side of the debate to control the future of public schools for well over a century public schools have been a non partisan gathering place and vital center of civic life in America but something has changed

in school moms journalist laura pappano explores the on the ground story of how public schools across the country have become ground zero in a cultural and political war as the far right have made efforts to seek power over school boards pappano argues that the rise of parent activism is actually the culmination of efforts that began in the 1990s after campaigns to stop sex education largely fizzled recent efforts to make public schools more responsive and inclusive as well as the pandemic have offered openings the far right have been waiting for to organize and sway parents who are frustrated and exhausted by remote learning objections by teachers unions and shifting directives from school leaders groups like moms for liberty and parents defending education are organizing against revised history curricula they have dubbed as crt banning books pressing for don t say gay laws and asserting parental rights to gain control over the review of classroom materials on the other side progressive groups like support our schools and red wine blue are mobilizing parents to counter such moves combining on the ground reporting with research and expert interviews school moms will take a hard look at where these battles are happening what is at stake and why it matters for the future of our schools
