this book considers the implications consequences opportunities and constraints faced when mission and development endeavours coincide this is explored from various perspectives including that of history theology and those involved in mission work and missionary organizations despite eighty per cent of the world s population professing religious belief religion has been largely excluded from consideration of those seeking to achieve development in poorer countries moreover the work of missionaries has often involved the provision of basic

welfare services that in many parts of the world predate the interventions undertaken by professional secular aid workers are missionaries doing development work or is development a critical aspect of mission

the missionary work of the seventh day adventist church started in southern malawi in 1902 and histories of churches are usually told from that starting point this book uses a different approach it tells the story of lunjika mission earlier called mombera mission which begins in 1932 showing how the sda church met a new culture that of the strongly patrilineal ngoni and their neighbours to the north and how it dealt with other churches that had started missionary work in that broad area up to two generations before

the crisis in adventist eschatology is due to its reliance on millerism s faulty methodology and falsified prophetic predictions ellen white taught that father miller s sole authority was scripture and a concordance that his interpretations were literal commonsense and most importantly that god had originated his date setting conclusions by repeated angelic guidance she announced that miller was typological of john the baptist that miller was a forerunner to christ s second advent as the baptist was to his first this book will document that these three misconceptions are falsified by primary sources from roughly 1835 to 1851 miller was highly dependent on disconfirmed centuries old historicist speculations his interpretations were allegorical and arbitrary not literal his falsified proofs obviously not of angelic origin for example miller initially predicted the parousia and fall of the ottoman empire for 1839 white also endorsed snow joseph turner and crozier whom she said god had given true light post disappointment these men continued using miller s allegorical typological historicist methods and ellen harmon was taught by these men about two centuries after the midnight cry and the end times signs of 1755

1780 and 1833 the sda church s tenacious reliance on millerite proofs makes its eschatology increasingly implausible

in recent years political parties and national legislatures in more than one hundred countries have adopted quotas for the selection of female candidates to political office despite the rapid international diffusion of these measures most research has focused on single countries or at most the presence of quotas within one world region consequently explanations for the adoption and impact of gender quotas derived from one study often contradict with findings from other cases quotas for women in politics is the first book to address quotas as a global phenomenon to explain their spread and impact in diverse contexts around the world it is organized around two sets of questions first why are quotas adopted which actors are involved in quota campaigns and why do they support or oppose quota measures second what effects do quotas have on existing patterns of political representation are these provisions sufficient for bringing more women into politics or does their impact depend on other features of the broader political context synthesizing literature on quota policies this book develops a framework for analyzing the spread of quota provisions and the reasons for variations in their effects it then applies this framework to examine and compare campaigns for reserved seats in pakistan and india party quotas in sweden and the united kingdom and legislative quotas in argentina and france

this is the story the daily press didn t give us it may be the definitive book about what happened at mt carmel near waco texas examined from both sides the bureau of alcohol and tobacco and firearms atf and the fbi on one hand and david koresh and his followers on the other dick j reavis contends that the government had little reason to investigate koresh and even less to raid the compound at mt carmel the

government lied to the public about most of what happened about who fired the first shots about drug allegations about child abuse the fbi was duplicitous and negligent in gassing mt carmel and that alone could have started the fire that killed seventy six people drawing on interviews with survivors of koresh s movement which dates back to 1935 as well as from esoteric religious tracts and audiotapes and previously undisclosed government documents reavis uncovers the real story of the burning at waco including the trial that followed the author quotes from koresh himself to create an extraordinary portrait of a movement an assault and an avoidable tragedy

written by the leading expert in uk petroleum economics this study provides a new unique in depth analysis of the development of british policies towards the north sea oil and gas industry from the early 1960s to the early 1980s drawing on full access to the uk government s relevant archives alex kemp examines the thinking behind the initial legislation in 1964 the early licensing arrangements and the events leading up to the boundary delimitation agreements with norway and other adjacent north sea countries he explains the debate in the later 1960s about the appropriate role of the state in the exploitation of the gas and oil resources the prolonged negotiations resulting in the early long term gas contracts and the continuing debate on the role of the state following the large oil discoveries in the first half of the 1970s resulting in the formation of bnoc british national oil corporation the debate leading up to the introduction of and subsequent increase in the petroleum revenue tax is fully explained as is the introduction of supplementary petroleum duty the author also outlines the debates around interventionist depletion policies and on how the oil revenues should best be utilised the official history of north sea oil and gas will be of much interest to students of north sea oil and gas energy economics business history and british politics as well as to petroleum professionals and policymakers

Conspiracies and Conspiracy Theories in American History [2 volumes] 1998-04-01

this book started out as an intense personal study by the author to evaluate and confirm his beliefs about god and salvation in regard to the teaching of the seventh day adventist church why is it that so many seventh day adventists do not have the assurance of salvation what criteria in the bible and what specifically in ellen g white s writings might lead someone to believe they were not fit for heaven that they did not qualify to be there that god would not forgive them and there was more required than just relying on jesus s sacrifice to cover their sins if they did not meet a strict set of rules would god cast them aside in the end in this book you will find out just who are the saved who are the lost and what happens to them in the end and what end times will look like according to ellen g white and the sda church the author estimates he has spent well in excess of ten thousand hours and has read over fifteen thousand pages of material over a seven year period in the preparation of this book it is the author s hope and prayer that this book will make the reader question not their belief in the saving grace of god and the loving sacrifice of jesus but rather question anything that might have come between them and that grace

what were the beliefs of the branch davidians this is the first full scholarly account of their history kenneth g c newport argues that far from being an act of unfathomable religious insanity the calamitous fire at waco in 1993 was the culmination of a long theological and historical tradition that goes back many decades the branch davidians under david koresh were an eschatologically confident community that had long expected that the american government whom they identified as the lamb like beast of the book of revelation would one day arrive to seek to destroy god s remnant people the end result the fire must be seen in this context

this collection of essays arose from a conference held to mark the silver anniversary of the Australian Sex Discrimination Act 1984. The collection has two aims: first to honour the contributions of both the spirited individuals who valiantly fought for the enactment of the legislation against the odds and those who championed the new law once it was passed; secondly to present a stock take of the act within the changed socio-political environment of the 21st century. The contributors present clear-eyed appraisals of the legislation in addition to considering new forms of legal regulation such as equality act and the significance of a human rights act. The introduction of a proactive model which would impose positive duties on organisations is explored as an alternative to the existing individual complaint based model of legislation. The contributors also pay attention to the international human rights framework particularly the convention on the elimination of all forms of discrimination against women and the UN declaration on the rights of indigenous people. The essays are illuminated by recourse to a rich vein of historical and contemporary literature. regard is also paid to the comparative experience of other jurisdictions particularly the UK and Canada.

this study is the first serious scholarly presentation of adventism. The author discusses the world wide adventist denomination from its origin in Miller's spectacular apocalyptic revival in the 1840s. The main concern in the work is devoted to the talented visionary Ellen G. White. Her development and importance is analysed also in psychological terms. The book is based on an impressive share of formerly not consulted primary material. The author is sympathetic towards the SDA church but aims hard at an unprejudiced presentation.

The End 2006

a scarlet thread runs throughout the Bible. It is the concept of redemptive blood. Jesus' beautiful and terrible death on the cross is central to the story of that scarlet thread. But there is more to the story. To understand the scarlet thread fully we must look at the sanctuary, the holy ground that offers a glimpse of God's character and His plan of redemption. Mysterious and often misunderstood, the sanctuary is at the very heart of biblical theology. Where God and I meet will help you achieve greater understanding of the heavenly sanctuary, the Israelite sanctuary, the pre-advent judgment and Christ's sacrifice and high priestly ministry. You'll come to grasp how the sanctuary interconnects with salvation, prophecy and mission. But most important, you will see how the precious scarlet thread weaves a message of hope and redemption throughout every page of the Bible.
