*The Word Made Flesh* 1989 calling attention to the visual materiality of the text this book attempts to halt linear reading trapping the eye in a field of letters which make a complex object on the page the writing refers continually to the visceral character of language literalizing metaphors of tongue breath and flesh the work both embodies and discusses language as a physical form one whose properties cannot be ignored by arriving at a disembodied content the format of this work invokes a reference to the carmina figurata of the renaissance works in which a sacred image was picked out in red letters against a field of black type so that a holy figure could be seen and meditated on in the process of reading the technique is reversed here with the red field of small type serving as a background in which large black letters are arranged like figures on the red ground this is a facsimile reprint of an original letterpress edition issued in 1989

*The Word Made Flesh Made Word* 1995 edward taylor s dilemma as puritan preacher and poet was to discover a way in human language to express the ineffable divine this first book length study of edward taylor s prose suggests that taylor s use of language illustrates the very theological truths he struggled with as a minister and a writer taylor s poetic metaphors have long been noted for their vitality and linguistic absurdity this penetrating study of taylor s christographia sermons concludes that taylor intentionally forces his types and metaphors into failure to illustrate how necessary it is for the incarnate christ to redeem both the medium and the messenger the author places taylor in historical theological and stylistic contexts and then looks at how both types and metaphors used by taylor tend to follow the pattern of establishment failure and redemption by focusing on the typological images of moses david and the jewish religious ceremonies for example taylor shows how such images both point toward christ and obscure the truth of christ by using metaphorical images of light plants and living buildings taylor attempts to paint a portrait of christ for his congregation all the while insisting that human language can never illustrate the divine

Word Made Flesh - Course 2012 most theologians believe that in the human life of jesus of nazareth we encounter god yet how the divine and human come together in the life of jesus still remains a question needing exploring the council of chalcedon sought to answer the question by

speaking of one and the same son our lord jesus christ the same perfect in divinity and also perfect in humanity the same truly god and truly a human being but ever since chalcedon the theological conversation on christology has implicitly put christs divinity and humanity in competition while ancient and not so ancient christologies from above focus on christs divinity at the expense of his humanity modern christologies from below subsume his divinity into his humanity what is needed says ian a mcfarland is a chalcedonianism without reserve which not only affirms the humanity and divinity of christ but also treats them as equal in theological significance to do so he draws on the ancient christological language that points to christs nature on the one hand and his hypostasis or personhood on the other and with this mcfarland begins one of the most creative and groundbreaking theological explorations into the mystery of the incarnation undertaken in recent memory

**John: The Word Made Flesh** 2020-08-08 endorsements robert stamps offers us a compelling case for the significance of the theology of thomas torrance to current discussions about trinitarian doctrine and worship he shows that torrance's christology and eucharistic thought validates the reformed confession of a profound real spiritual presence in the eucharist this book serves as a helpful introduction to torrance especially his framing of revelation moreover it invigorates our understanding of the theological meaning of sacramental devotion its readers will be stimulated provoked and dare i say inspired by its insights into and critiques of one of the most important and recent reformed thinkers in sum this is a timely and exciting book it will well serve pastors theologians and thoughtful christians of many theological perspectives mark valeri e t thompson professor of church history union theological seminary virginia one of the values of this work is that it has deliberately sought not so much to discuss a particular problem or a collection of issues as to identify torrance as an example of an archetypal reformed theology of the eucharist to say that dr stamps has been industrious is patently an understatement the truth is that he has been indefatigable in his search for the least morsel that torrance offers yet it is not so much as a study of torrance that this book is to be commended its great value is that it offers a contextualization of torrance's thinking on the eucharist in ecclesiology the more general dimension of an incarnational theology as well as his understanding of cosmology and epistemology i hope that dr stamps book will not only find grateful readers but will be repaid by profound reflection on this symbol of the heart of faith john heywood thomas emeritus professor of theology university of nottingham

The Sacrament of the Word Made Flesh 2013-08-01 words made flesh draws together a number of elaine graham's shorter writings and essays and thereby maps out the work of a pioneer theological thinker and the development of pastoral and practical theology in the last twenty years

elaine graham considers the theological significance of topics as diverse as nativity plays science fiction gender consumerism cyberspace and urban regeneration they all share a concern with the way the sources and norms of the christian tradition can enter into a creative and critical conversation with contemporary experience in order to generate the practical wisdom by which the life of the church can be directed they reflect elaine graham s fundamental conviction that theology as talk about god in the world is always practical and public and that it begins and ends in the complexities of the human condition where words become flesh

**Words Made Flesh** 2017-03-22 scholars have long described modernism as heretical or iconoclastic in its assaults on secular traditions of form

genre and decorum yet critics have paid surprisingly little attention to the related category of blasphemy the rhetoric of religious offense and to the specific ways this rhetoric operates in and as literary modernism united by a shared commitment to the word made flesh writers such as james joyce mina loy richard bruce nugent and djuna barnes made blasphemy a key component of their modernist practice profaning the very scriptures and sacraments that fueled their art in doing so they belied t s eliot s verdict that the forces of secularization had rendered blasphemy obsolete in an increasingly godless century a world in which blasphemy is impossible their poems and fictions reveal how forcefully religion endured as a cultural force after the death of god more their transgressions spotlight a politics of religion that has seldom engaged the attention of modernist studies blasphemy respects no division of church and state and neither do the writers who wield it to profane all manner of coercive dogmas including ecclesiastical as well as more worldly ideologies of race class nation empire gender and sexuality the late century example of salman rushdie s the satanic verses affords finally a demonstration of how modernism persists in postwar anglophone literature and of the critical role blasphemy plays in that persistence blasphemous modernism thus resonates with the broader cultural and ideological concerns that in recent years have enriched the scope of modernist scholarship
