appendices to the various volumes bound separately monty and the canadian army details the lasting influence of general b l montgomery whose military competence shaped the canadian army in the second world war pgw uncle john s taking the plunge into the great white north raincoast hey canada uncle john salutes you for 25 years uncle john s bathroom reader has been wildly popular in canada so we decided to dedicate an entire edition to our friends in the great white north even though much of the continental u s is north of canada s southernmost point that misconception and a whole lot more is revealed in this loving ode to a friendly nation with a colorful history and some of the most beautiful scenery in the world whether you re a true canuck or just always wanted to be one yukon count on us to deliver great bathroom reading read about stealing the stanley cup literally the origins of tim hortons and kraft dinners jellied moose nose and other canadian delicacies move over napa the story of canadian ice wine the government s secret official ufo division canada s homegrown rock n roll bands all about those dam beavers the answer to canada s most burning question does santa claus really have his own postal code and much much more in the dark early days of the second world war the allies desperately tried to slow down the axis tide of conquest with victory slipping away the allies turned to special operations forces such as the first special service force or devil s brigade to carry the fight to the enemy an account of the development of canadian industry myers lays bare the corruption swindling land deals bribery that are the basis of canadian history the heros of other history books come out looking quite different the canadian pacific railway hudson s bay company lord selkirk john a macdonald laurier all fall under myers s scrutiny and the facts he records about them are startling contents include the quest of trade and new sources of wealth the ecclesiastical and feudal lords the hudson s bay company wars of the fur traders and companies the landed and mercantile oligarchy the landed proprietors revolt against feudalism sovereignty of the hudson s bay company passing of the hudson s bay company s sovereignty inception of the railroad power first period of railway promoters contest for the pacific railway era of railway magnates progress of the railway lords extension of railway possessions appropriation of coal timber and other lands and distribution of railway subsidies gustavus myers 1872 1942 was an american historian who worked on a number of newspapers and magazines in new york city joined the populist party and the social reform club and was a member 1907 12 of the socialist party such books as the history of tammany hall 1901 history of the great american fortunes 1910 and history of the supreme court of the united states 1912 were detailed realistic exposes through which myers made his reputation in the muckraking era of american literature a wide ranging look at the history of the canadian navy from its beginnings in 18th century exploration and trade to its astonishing expansion during the second world war through to its current roles in operations with united nations and nato forces a sweeping historical survey covering all aspects of the black experience in canada from 1628 through the 1960s investigates the french and english periods of slavery the abolitionist movement in canada and the role played by canadians in the broader antislavery crusade as well as canadian adaptations to 19th and 20th century racial mores first published in 1971 by yale university press this second edition includes a new introduction outlining changes that have occurred since the book s first appearance and discussing the state of african canadian studies today cited in bcl3 annotation copyrighted by book news inc portland or recreation and sport are an integral part of canadian culture this is nowhere more evident than in the muskoka district of ontario beginning in the 1860s people from more populated areas of southern ontario and the north eastern united states flocked to muskoka to enjoy nature s bounty they came to fish hunt canoe sail swim hike and explore many vacationed at one of the ever expanding selection of muskoka resorts others built their own recreational retreats or cottages also beginning in the 1860s free land grant recipients ventured to the area to take land and attempt to farm it they became the permanent population base and set about developing their own recreations and sporting organizations this book surveys the attempts of all of muskoka s residents and visitors to enjoy the recreational opportunities the region provided the main focus of this local history is on how people in the past used recreation and sport to enhance their lives in other words what they did for exercise and fun this book is about how to make a chair simply and with tools you can easily obtain or construct for yourself in 1985 when mike abott started running courses using the traditional tools and techniques of the victorian chair bodgers many people said it was about time he moved into the 20th century following the success of his first two books green woodwork and living wood mike s third book shows that he has now moved happily and unashamedly straight into the 21st century with the help of over 600 colour photographs he guides you step by step through the tools and techniques needed for cleaving shaping and assembling a chair constructing a few simply homemade devices to aid the process making 3 stools and 3 chairs each with its own unique character going with the grain is not written for cabinet makers although they are welcome to read it too the techniques described in this book have as much in common with cabinet making as does a jacket potato with haute cuisine it is written for anyone who shares mike s passion for trees and wood and is interested in getting to know them better through the fulfilling process of turning a tree into their very own chair this new second edition has been revised based on feedback from readers and students in mike s courses sections on drilling and steam bending have been updated and all measurements are now given in inches as well as in metric units the major changes are in the large chapter on seat weaving which now includes detailed instructions for three different patterns in danish cord and fiber rush there are also illustrations of over 20 variations in these and in other materials many of which have never been published before female doctors in canada is an accessible collection of articles by experienced physicians and researchers exploring how systems practices and individuals must change as medicine becomes an increasingly female

dominated profession as the ratio of practicing physicians shifts from predominately male to predominately female issues such as work hours caregiving and doctor patient relationships will all be affected canada s medical education is based on a system that has always been designed by and for men this is also true of our healthcare systems influencing how women practice what type of medicine they choose to practice and how they wish to balance their personal lives with their work with the intent to open a larger conversation female doctors in canada reconsiders medical education health systems and expectations in light of the changing face of medicine highlighting the particular experience of women working in the medical profession the editors trace the history of female practitioners while also providing a perspective on the contemporary struggles women face as they navigate a system that was tailored to the male experience and is yet to be modified in 1974 india shocked the world by detonating a nuclear device in the diplomatic controversy that ensued the canadian government expressed outrage that india had extracted plutonium from a canadian reactor donated only for peaceful purposes in the aftermath relations between the two nations cooled considerably as conflicting visions reveals canada and india s relationship was turbulent long before the first bomb blast canada s expectations of how the former british colony would behave following its independence in 1947 led to a series of misperceptions and miscommunications that strained bilateral relations for decades this comprehensive handbook reviews the major theoretical methodological and instructional advances that have occurred in the field of learning disabilities with contributions from leading researchers the volume synthesizes a vast body of knowledge on the nature of learning disabilities their relationship to basic psychological and brain processes and how students with these difficulties can best be identified and treated findings are reviewed on ways to support student performance in specific skill areas including language arts math science and social studies as well as general principles of effective instruction that cut across academic domains authoritative and up to date the book also examines the concepts and methods that guide learning disability research and identifies promising directions for future investigation published in 1998 ladies in the laboratory provided a systematic survey and comparison of the work of 19th century american and british women in scientific research a companion volume published in 2004 focused on women scientists from western europe in this third volume author mary r s creese expands her scope to include the contributions of 19th and early 20th century women of south africa australia new zealand and canada the women whose lives and work are discussed here range from natural history collectors and scientific illustrators of the early and mid years of the 19th century to the first generation of graduates of the new colonial colleges and universities rarely acknowledged in publications of the british and european specialists the contributions of these women nonetheless formed a significant part of the natural history information about extensive previously unknown regions and their products rather than a biographical dictionary or a collection of self contained essays on individuals from many time periods ladies in the laboratory iii is a connected narrative tied into the wider framework of 19th century science and education a well organized blend of individual life stories and quantitative information this volume is for everyone interested in the story of women s participation in 19th century science the stories of these women make for fascinating reading and serve as a valuable source for the student of women s and colonial history this book provides in depth discussions of the political and social contexts surrounding key cases in forensic mental health social policy and practice in canada a history traces the history of social policy in canada from the period of first nations control to the present day exploring the various ways in which residents of the area known today as canada have organized themselves to deal with or to ignore the needs of the ill the poor the elderly and the young this book is the first synthesis on social policy in canada to provide a critical perspective on the evolution of social policy in the country while earlier work has treated each new social program as a major advance and reacted with shock to neoliberalism s attack on social programs alvin finkel demonstrates that right wing and left wing forces have always battled to shape social policy in canada he argues that the notion of a welfare state consensus in the period after 1945 is misleading and that the social programs developed before the neoliberal counteroffensive were far less radical than they are sometimes depicted social policy and practice in canada a history begins by exploring the non state mechanisms employed by first nations to insure the well being of their members it then deals with the role of the church in new france and of voluntary organizations in british north america in helping the unfortunate after examining why voluntary organizations gradually gave way to state controlled programs the book assesses the evolution of social policy in canada in a variety of areas including health care treatment of the elderly child care housing and poverty in australian battalion commanders in the second world war garth pratten explores for the first time the background role and conduct of the commanding officers of australian infantry battalions in world war ii despite their vital role as the lynchpins of the battlefield uniting the senior officers with the soldiers who fought the battalion commanders have previously received scant attention in contemporary military history this book redresses the balance providing a gripping meticulously researched and insightful account that charts the development of australia s infantry commanding officers from part time ill prepared amateurs to seasoned veterans who although still not professional soldiers deserved the title of professional men of war drawing on extensive and original archival material pratten recreates battle scenes and brings to light many diverse personalities it is a story of men confronting the timeless challenges of military leadership mastering their own fear and discomfort in order to motivate and inspire their troops to endure the maelstrom of war an unparalleled portrait of the conservative party and each of its nineteen leaders blue thunder rollicks through 141 years of canadian conservative leadership a sprawling page turning exposé blue thunder draws upon a wealth of public and private material that plamondon has enriched with fresh insights make no mistake blue thunder is no hagiography this is awarts and all portrait that examines in compelling and revealing detail the lows as well as the highs along the way myths are exposed blame is assessed and heroes are chosen more analytically plamondon boldly sifts from the record what today s conservatives need to learn from the past to be successful

in the future a captivating entertaining and definitive look at the accomplishments and failures of canadian conservative leadership blue thunder is a must read for anyone who follows canadian politics today and an invaluable reference source for decades
