biological conservation is a leading international journal in the discipline of conservation science the journal publishes articles spanning a diverse range of fields that contribute to the biological sociological ethical and economic dimensions of conservation its ground breaking research articles essays and reviews develop new theory and methods define key problems and propose solutions exploring the social ecological and philosophical dimensions of the conservation of biological diversity humanity will soon define a new era for nature one that seeks to transform decades of underwhelming responses to the global biodiversity crisis area based conservation efforts which include conservation science and practice focuses on publishing papers related to the science policy planning and practical aspects of conserving biological diversity our journal covers a range of topics from practical experiences to theoretical advancements the journal for nature conservation addresses concepts methods and techniques for nature conservation this international and interdisciplinary journal encourages collaboration between scientists and practitioners including the integration of biodiversity issues with social and economic concepts therefore conceptual technical and we have shown that across a full suite of conservation actions and intervention types multiple levels and metrics of biodiversity and over a century of action conservation has improved the state of biodiversity or at least slowed its decline compared with no conservation action conservation letters is an online scientific journal that publishes empirical and theoretical research with immediate implications for the conservation of biological diversity worldwide the journal s concise papers are renowned for their originality timeliness and influence on policy debates and management solutions global ecology and conservation gecco is an open access international scientific journal in the disciplines of ecology and conservation biology the journal publishes articles spanning a diverse range of fields that contribute to ecology and conservation of terrestrial marine or freshwater organisms and ecosystems founded in 1992 biodiversity and conservation is an international journal that publishes articles on all aspects of biological diversity its conservation and sustainable use conservation biology is the leading global journal in the field of conservation publishing groundbreaking papers contributing to the conservation of biological diversity conservation biology articles from across nature portfolio conservation biology is the study of attempts to protect and preserve biodiversity it focuses on both the biological and social this multidisciplinary journal explores ecology biology and social sciences to advance conservation and management it advances the knowledge required to meet or surpass global biodiversity and c conservation science and practice publishes papers that address the policy planning and practice of conserving biological diversity the journal publishes papers that expand conservation knowledge ranging from practical experience to advances in theory conservation is an international peer reviewed open access journal on the biological environmental sociological ethical and economic and other transdisciplinary dimensions of conservation published quarterly online by mdpi to date conservation international has published more than 1 300 peer reviewed articles many in leading journals including science nature and the proceedings of the national academy of sciences here is an archive of our most recent research article authors our study provides a sobering analysis of who carries the conservation burden to meet global biodiversity protection goals and illustrates the need for fair diverse and equitable representation and inclusion in marine conservation decisions zafra calvo et al 2019 studies in conservation is the premier international peer reviewed journal for the conservation of historic and artistic works the intended readership includes the conservation professional in the broadest sense of the term practising conservators of all types of object conservation heritage and museum scientists collection or conservation the journal publishes papers across all disciplines interested in basic and applied conservation ecology and nature conservation in general at various spatial temporal and evolutionary scales from populations to ecosystems and from microorganisms and fungi to higher plants and animals authoritative chapters are written by top names in conservation biology important topics such as balancing conversion and human needs climate change conservation planning designing and analyzing conservation research ecosystem services endangered species management extinctions fire habitat loss and invasive species are covered top sequence logo of the conservation of the rna target dna and donor dna captured in several stages of the recombination reaction is copublished with this paper 22 together our two

biological conservation journal sciencedirect com by elsevier *May 28 2024*

biological conservation is a leading international journal in the discipline of conservation science the journal publishes articles spanning a diverse range of fields that contribute to the biological sociological ethical and economic dimensions of conservation

the society for conservation biology *Apr 27 2024*

its ground breaking research articles essays and reviews develop new theory and methods define key problems and propose solutions exploring the social ecological and philosophical dimensions of the conservation of biological diversity

area based conservation in the twenty first century nature* *Mar 26 2024

humanity will soon define a new era for nature one that seeks to transform decades of underwhelming responses to the global biodiversity crisis area based conservation efforts which include

the society for conservation biology *Feb 25 2024*

conservation science and practice focuses on publishing papers related to the science policy planning and practical aspects of conserving biological diversity our journal covers a range of topics from practical experiences to theoretical advancements

journal for nature conservation sciencedirect com by elsevier *Jan 24 2024*

the journal for nature conservation addresses concepts methods and techniques for nature conservation this international and interdisciplinary journal encourages collaboration between scientists and practitioners including the integration of biodiversity issues with social and economic concepts therefore conceptual technical and

the positive impact of conservation action science *Dec 23 2023*

we have shown that across a full suite of conservation actions and intervention types multiple levels and metrics of biodiversity and over a century of action conservation has improved the state of biodiversity or at least slowed its decline compared with no conservation action

society for conservation biology conservation letters Nov 22 2023

conservation letters is an online scientific journal that publishes empirical and theoretical research with immediate implications for the conservation of biological diversity worldwide the journal s concise papers are renowned for their originality timeliness and influence on policy debates and management solutions

global ecology and conservation journal sciencedirect Oct 21 2023

global ecology and conservation gecco is an open access international scientific journal in the disciplines of ecology and conservation biology the journal publishes articles spanning a diverse range of fields that contribute to ecology and conservation of terrestrial marine or freshwater organisms and ecosystems

home biodiversity and conservation springer Sep 20 2023

founded in 1992 biodiversity and conservation is an international journal that publishes articles on all aspects of biological diversity its conservation and sustainable use

the society for conservation biology Aug 19 2023

conservation biology is the leading global journal in the field of conservation publishing groundbreaking papers contributing to the conservation of biological diversity

conservation biology latest research and news nature Jul 18 2023

conservation biology articles from across nature portfolio conservation biology is the study of attempts to protect and preserve biodiversity it focuses on both the biological and social

frontiers in conservation science Jun 17 2023

this multidisciplinary journal explores ecology biology and social sciences to advance conservation and management it advances the knowledge required to meet or surpass global biodiversity and c

society for conservation biology conservation science May 16 2023

conservation science and practice publishes papers that address the policy planning and practice of conserving biological diversity the journal publishes papers that expand conservation knowledge

ranging from practical experience to advances in theory

conservation an open access journal from mdpi *Apr 15 2023*

conservation is an international peer reviewed open access journal on the biological environmental sociological ethical and economic and other transdisciplinary dimensions of conservation published quarterly online by mdpi

peer reviewed journal articles conservation international *Mar 14 2023*

to date conservation international has published more than 1 300 peer reviewed articles many in leading journals including science nature and the proceedings of the national academy of sciences here is an archive of our most recent research article authors

the society for conservation biology *Feb 13 2023*

our study provides a sobering analysis of who carries the conservation burden to meet global biodiversity protection goals and illustrates the need for fair diverse and equitable representation and inclusion in marine conservation decisions zafra calvo et al 2019

studies in conservation taylor francis online *Jan 12 2023*

studies in conservation is the premier international peer reviewed journal for the conservation of historic and artistic works the intended readership includes the conservation professional in the broadest sense of the term practising conservators of all types of object conservation heritage and museum scientists collection or conservation

nature conservation *Dec 11 2022*

the journal publishes papers across all disciplines interested in basic and applied conservation ecology and nature conservation in general at various spatial temporal and evolutionary scales from populations to ecosystems and from microorganisms and fungi to higher plants and animals
