the recent rise of antisemitism in the united states has been well documented and linked to groups and ideologies associated with the far right in from occupation to occupy sina arnold argues that antisemitism can also be found as an invisible prejudice on the left based on participation in left wing events and demonstrations interviews with activists and analysis of left wing social movement literature arnold argues that a pattern for enabling antisemitism exists although open antisemitism on the left is very rare there are recurring instances of antisemitic trivialization in which antisemitism is not perceived as a relevant issue in its own right leading to a lack of empathy for jewish concerns and grievances arnold s research also reveals a pervasive defensiveness against accusations of antisemitism in left wing politics with activists fiercely dismissing the possibility of prejudice against jews within their movements and invariably shifting discussions to critiques of israel or other forms of racism from occupation to occupy offers potential remedies for this situation and suggests that a progressive political movement that takes antisemitism seriously can be a powerful force for change in the united states

the middle ages saw a flourishing of mysticism that was astonishing for its richness and distinctiveness the medieval period was unlike any other period of christianity in producing people who frequently claimed visions of christ and mary uttered prophecies gave voice to ecstatic experiences recited poems and songs said to emanate directly from god and changed their ways of life as a result of these special revelations many recipients of these alleged divine gifts were women yet the female contribution to western europe s intellectual and religious development is still not well understood popular or lay religion has been overshadowed by academic theology which was predominantly the theology of men this timely book rectifies the neglect by examining a number of women whose lives exemplify traditions which were central to medieval theology but whose contributions have tended to be dismissed as merely spiritual by today s scholars in their different ways visionaries like richeldis de faverches founder of the holy house at walsingham or england s nazareth the learned hildegard of bingen hadewijch of brabant exemplary voice of the beguine tradition of love mysticism charismatic traveller and pilgrim margery kempe and anchoress julian of norwich all challenged traditional male scholastic theology designed for the use of undergraduate student and general reader alike this attractive survey provides an introduction to thirteen remarkable women and sets their ideas in context

in john 6 51 59 john describes the eucharist of jesus by modeling dionysus in particular john 6 53 unless you eat the flesh of the son of man and drink his blood you have no life in you is one of the most difficult verses found anywhere in the bible to explain this a new approach is needed when one consistently contemplates why john uses flesh σάρξ instead of body σῶμα and this is my flesh instead of this is my body the dionysiac ritual of eating and tearing raw flesh shows cannibalistic elements unlike other negative descriptions of cannibalism in ancient literature dionysus is described as both an eater and a giver of raw flesh by reevaluating the negative term of cannibalism john positively applies this dionysiac cannibalism to the eucharistic words in 6 51 59 because emphatically and slightly ironically scholars arguments show that john 6 is still a hard teaching of jesus jesus hard saying 6 60 is a consequence of this cannibalistic language and the ambiguous features of dionysus
