including a roman emperor s love letters to another man suspicions of sodomy among medieval monks knights and crusaders and the gender bending visions of christian saints and mystics also included are discussions of boswell s career including his influence among gay and lesbian christians and his role in academic debates between essentialists and social constructionists elegant and thought provoking this collection provides a fitting twenty fifth anniversary tribute to the incalculable influence of christianity social tolerance and homosexuality and its author in some circles there is an attitude that academic research consists of two distinct activities the first of these is the execution of the research activities themselves and the second is writing it up in such a way that it may be presented either for a degree or for publication in a scholarly journal this is an archaic attitude towards conducting academic research in the 21st century the writing up of research is an integral part of the research itself which should begin at the outset of the research activity it is increasingly appreciated that the writing of ideas is a major contributor to their proper understanding leaving the writing until the end does not only lead to an accumulation of tiresome work but actually detracts from the learning available to the researcher through the research experience this book addresses these issues as well as explaining what the requirements are to produce a readily acceptable research dissertation readers of this book have my best wishes in achieving their objectives through their work with academic research responding to the growing popularity of the thesis by publication within doctoral education this book offers practical advice and critical discussion of some of the central choices and challenges that phd students considering dissertation options face drawing on current research and informed by extensive experience of working with and running workshops for phd candidates who write article based dissertations this book gives readers an idea of what writing a thesis by publication entails what its purpose is what the various expectations might be for this emerging genre and what the challenges might be in writing one particular emphasis is put on how to put the individual articles together to create a coherent thesis that clarifies the student s individual original contribution written primarily for students strategies for writing a thesis by publication in the social sciences and humanities covers key topics such as how the genre has developed with an emphasis on the role of the narrative introductory text that accompanies the articles typical rhetorical challenges that writers of such dissertations face strategies for handling the writing process specific challenges of demonstrating doctorateness in the thesis by publication and strategies for addressing them institutional variations that the thesis writer should seek clarification on as early as possible structural elements of the narrative and their main functions the range of choices that can be made throughout the doctoral journey and thesis writing this book is a must read for phd candidates and supervisors new to the genre as well as those involved in directing phd programmes who are interested in the pedagogical implications of the move towards article based dissertations the insider guides to success in academia offers support and practical advice to doctoral students and early career researchers covering the topics that really matter but which often get overlooked this indispensable series provides practical and realistic guidance to address many of the needs and challenges of trying to operate and remain in academia these neat pocket guides fill specific and significant gaps in current literature each book offers insider perspectives on the often implicit rules of the game the things you need to know but usually aren t told by institutional postgraduate support researcher development units or supervisors and will address a practical topic that is key to career progression they are essential reading for doctoral students early career researchers supervisors mentors or anyone looking to launch or maintain their career in academia five hundred years ago martin luther posted his ninety five theses or grievances to the door of the all saints church of wittenberg and condemned the catholic church s teaching of indulgences as nothing but a scheme to raise money for the church it is a supreme irony of history that five hundred years later it is now a subset of the protestant church that is defrauding the faithful the catholic church s teaching of indulgences and the evangelical movement s teaching of tithing to be blessed are

substantially the same and lead to the same result in both cases the church walks away with a bag of money and the christian walks away with a bag full of empty promises this book explains why i am losing faith in the church but finding faith in christ the reason for this is that i began finding answers to some of the most elusive questions about god something is preventing god from doing all the good that he would otherwise want to do but here is the problem how can god have limitations if he has limitations then he must not be divine however there is one thing that could prevent a good all powerful god from doing all the good that he would otherwise want to do that would not detract at all from his omnipotence what this is and how it holds the key to unlocking some of the most perplexing mysteries of god is explained in this book from an embassy in europe to an industrial park in suburban los angeles the petorik thesis and tales of the global west resembles a ledger where the checks and balances agree to disagree in this his second short story collection w jack savage chronicles a beautiful womans quirky obsessions that leave a trail of regretful lovers a writers disappointment at never being as important as what he writes and a unseen witness to a murder comes forward to do the right thing but the witness and the right thing are subjective as even einstein observed there is no darkness only the absence of light by that reasoning a storyteller knows to never underestimate the power of the story or the desire of those in power to believe it for their own purposes the door it opens swings both ways the petorik thesis and tales of the global west is another of savages exercises in unexpected redemption and forgotten kindnesses where a taker of life is as likely to celebrate those who live it as anyone else and people burt harrison knows are getting murdered while eating yellow food in coming forward burt becomes a person of interest how to survive your viva

in some circles there is an attitude that academic research consists of two distinct activities the first of these is the execution of the research activities themselves and the second is writing it up in such a way that it may be presented either for a degree or for publication in a scholarly journal this is an archaic attitude towards conducting academic research in the 21st century the writing up of research is an integral part of the research itself which should begin at the outset of the research activity it is increasingly appreciated that the writing of ideas is a major contributor to their proper understanding leaving the writing until the end does not only lead to an accumulation of tiresome work but actually detracts from the learning available to the researcher through the research experience this book addresses these issues as well as explaining what the requirements are to produce a readily acceptable research dissertation readers of this book have my best wishes in achieving their objectives through their work with academic research

five hundred years ago martin luther posted his ninety five theses or grievances to the door of the all saints church of wittenberg and condemned the catholic church's teaching of indulgences as nothing but a scheme to raise money for the church it is a supreme irony of history that five hundred years later it is now a subset of the protestant church that is defrauding the faithful the catholic church's teaching of indulgences and the evangelical movement's teaching of tithing to be blessed are substantially the same and lead to the same result in both cases the church walks away with a bag of money and the christian walks away with a bag full of empty promises this book explains why i am losing faith in the church but finding faith in christ the reason for this is that i began finding answers to some of the most elusive questions about god something is preventing god from doing all the good that he would otherwise want to do but here is the problem how can god have limitations if he has limitations then he must not be divine however there is one thing that could prevent a good all powerful god from doing all the good that he would otherwise want to do that would not detract at all from his omnipotence what this is and how it holds the key to unlocking some of the most perplexing mysteries of god is explained in this book
