## **Flawed Advice and the Management Trap 2000**

this text shows how and why so much business advice is flawed and how managers and executives can better evaluate advice it reviews an array of business advice from the best thinkers and consultants and concludes that as appealing as their ideas may be most of them are not workable

## **Even Tougher Than Herding Cats 2020-01-08**

there is a phrase associated with managing technical teams that it can be like herding cats with more than 20 years experience in management across different industries ger mulcahy has created a reference to try and reduce the pain associated with the management of individuals teams and groups divided into sections titled know manage be and become the book provides advice to managers at all stages on how to get the best out of themselves and their teams

## ***Management for Cannibals 2003-08***

admittedly this book pushes the picture to the extremes here in the american corporate culture we don t eat each other we don t have shamans our ceos don t eat too much out of the common pie do they if you are a wise person you will find a lot of sound advice on how to be a successful manager then again if you are wise why would you want to be a manager in the first place if you are smart and have a sense of humor you will have fun and the advice in this book will aid your success as well if

you don't have a sense of humor and you are not a manager you will satisfy your grudge against them and if you have no sense of humor and you are a manager well maybe you should not read this book just continue to do whatever you do and let the rest of us have fun watching you disclaimer if you choose to follow this book to build your management career we strongly advise against following it literally

## **Flawed Advice and the Management Trap: How Managers Can Know When They're Getting Good Advice and When They're Not *1999-11-08***

flawed advice and the management trap how managers can know when they're getting good advice and when they're not is the first book to show how and why so much of today's business advice is flawed and how managers and executives can better evaluate advice given to their firms practitioners and scholars agree that businesses in the coming millennium will be managed differently than firms of the 20th century and getting there from here according to today's best advice will require creative change in this pioneering work argyris one of the world's leading organizational thinkers reviews a wide array of business advice from the best and brightest thinkers and consultants and concludes that as appealing as their ideas may be most of them are simply not workable they are too full of abstract claims logical gaps and inconsistencies to be useful and ironically even when their recommendations are implemented correctly the result is often failure why do these gaps in logic exist and how can they be more effectively discovered applying a disciplined critique to numerous
