The Russian Century 2008 the russian century is the most comprehensive and accessible collection of readings devoted to russian culture and civilization the fascinating first person accounts paint a vivid picture of the russian people through the turbulent years of the collapse of the soviet union this book allows readers to see russia through the private lives of people who come from diverse backgrounds various educational and socio economic experiences and a broad geographic spectrum diary entries personal sketches memoirs and letters tell these stories in an intimate and authentic voice of immediate experience rather than the distant general flow of history translated into english for the first time personal matters as well as the larger social and political context are revealed in a manner that provides significant insight into a powerful distinctive and influential culture all too often the russian experience has been presented as either horrific or heroic this volume goes beyond that approach and deals with areas which have received little or no attention to existing studies of russian history and culture love sexuality courtship marriage family life work education and religion book jacket

English-Russian Grammar 1883 this book analyzes the evolution of russian military thought and how russia s current thinking about war is reflected in recent crises while other books describe current russian practice oscar jonsson provides the long view to show how russian military strategic thinking has developed from the bolshevik revolution to the present he closely examines russian primary sources including security doctrines and the writings and statements of russian military theorists and political elites what jonsson reveals is that russia s conception of the very nature of war is now changing as russian elites see information warfare and political subversion as the most important ways to conduct contemporary war since information warfare and political subversion are below the traditional threshold of armed violence this has blurred the boundaries between war and peace jonsson also finds that russian leaders have particularly since 2011 12 considered themselves to be at war with the united states and its allies albeit with non violent means this book provides much needed context and analysis to be able to understand recent russian interventions in crimea and eastern ukraine how to deter russia on the eastern borders of nato and how the west must also learn to avoid inadvertent escalation

The Russian Understanding of War 2019-11-01 well argued and balanced leichtova provides an alternative and more constructive understanding of what drives russian foreign policy the book is based on the concepts of constructivism and orientalism in international relations to analyse the policies of the russian federation this book highlights that russian foreign policy is a complex phenomenon constructed from internal as well as external developments perceptions and

expectations at the same time it also highlights that western states are the most significant other in construction of the russian foreign policy and even russian identity and at the same time actively create an image of russia in international politics which is widely based on their own western assumptions about the country the author introduces the reader to an alternate portrayal of relations between russia and the west which all analysts should take into consideration before drawing conclusions

Vladimir Nabokov 1990 in january 1914 i visited petersburg and moscow for a couple of weeks in september 1920 i was asked to repeat this visit by mr kameney of the russian trade delegation in london i snatched at this suggestion and went to russia at the end of september with my son who speaks a little russian we spent a fortnight and a day in russia passing most of our time in petersburg where we went about freely by ourselves and were shown nearly everything we asked to see we visited moscow and i had a long conversation with mr lenin which i shall relate in petersburg i did not stay at the hotel international to which foreign visitors are usually sent but with my old friend maxim gorky the guide and interpreter assigned to assist us was a lady i had met in russia in 1914 the niece of a former russian ambassador to london she was educated at newnham she has been imprisoned five times by the bolshevist government she is not allowed to leave petersburg because of an attempt to cross the frontier to her children in esthonia and she was therefore the last person likely to lend herself to any attempt to hoodwink me i mention this because on every hand at home and in russia i had been told that the most elaborate camouflage of realities would go on and that i should be kept in blinkers throughout my visit as a matter of fact the harsh and terrible realities of the situation in russia cannot be camouflaged in the case of special delegations perhaps a certain distracting tumult of receptions bands and speeches may be possible and may be attempted but it is hardly possible to dress up two large cities for the benefit of two stray visitors wandering observantly often in different directions naturally when one demands to see a school or a prison one is not shown the worst any country would in the circumstances show the best it had and soviet russia is no exception one can allow for that our dominant impression of things russian is an impression of a vast irreparable breakdown the great monarchy that was here in 1914 and the administrative social financial and commercial systems connected with it have under the strains of six years of incessant war fallen down and smashed utterly never in all history has there been so great a débâcle before the fact of the revolution is to our minds altogether dwarfed by the fact of this downfall by its own inherent rottenness and by the thrusts and strains of aggressive imperialism the russian part of the old 4civilised world that existed before 1914 fell and is now gone the peasant who was the base of the old pyramid remains upon the land living very much as he has always lived everything else is broken down or is breaking down

Russia in the Shadows 2021-04-25 globalization proceeds apace taking on new forms that impact global economic financial and social processes interdependence is not simply strengthening the range of possibilities for national economies to participate in and advantage of these developments but expanding the opportunities that are available to them the question is how do states take advantage of these global developments russia is no exception although it actively participates in the globalization process it is however confronting greater economic technological structural and institutional problems than other countries at the same time there is dwindling hope for favourable conditions to continue in global energy markets which are crucial to the russian economy these problems exist alongside the risk that the widening gap between russia and other economies in terms of economic performance and technological development and growth will continue russia now stands at the crossroads of either overcoming or exacerbating these current challenges this choice dictates the current realities of pax economica moscow must in the very near future make meaningful if not fundamental decisions aimed at further opening its economy improving its institutions and strengthening its international ties this task is made more difficult by russia's weakening competitiveness and by its ambiguous position on the international division of labour the old model of russian development has been exhausted and a new one must be chosen russia's choice at this juncture will determine the future of its economic development for many years to come

England and the North 1994 in january 1914 i visited petersburg and moscow for a couple of weeks in september 1920 i was asked to repeat this visit by mr kameney of the russian trade delegation in london i snatched at this suggestion and went to russia at the end of september with my son who speaks a little russian we spent a fortnight and a day in russia passing most of our time in

petersburg where we went about freely by ourselves and were shown nearly everything we asked to see we visited moscow and i had a long conversation with mr lenin which i shall relate in petersburg i did not stay at the hotel international to which foreign visitors are usually sent but with my old friend maxim gorky the guide and interpreter assigned to assist us was a lady i had met in russia in 1914 the niece of a former russian ambassador to london she was educated at newnham she has been imprisoned five times by the bolshevist government she is not allowed to leave petersburg because of an attempt to cross the frontier to her children in esthonia and she was therefore the last person likely to lend herself to any attempt to hoodwink me i mention this because on every hand at home and in russia i had been told that the most elaborate camouflage of realities would go on and that i should be kept in blinkers throughout my visit as a matter of fact the harsh and terrible realities of the situation in russia cannot be camouflaged in the case of special delegations perhaps a certain distracting tumult of receptions bands and speeches may be possible and may be attempted but it is hardly possible to dress up two large cities for the benefit of two stray visitors wandering observantly often in different directions naturally when one demands to see a school or a prison one is not shown the worst any country would in the circumstances show the best it had and soviet russia is no exception one can allow for that

At a Crossroads 2019-02-28 sergei biziukin is a russian historian journalist and activist he has been working as a journalist in russia for 10 years in november 2016 i started a petition to rename godless street in the russian city ryazan to donald trump street the reason was to try and make russia united states relations better on 14 december 2016 biziukin was announced as the independent candidate for the russian presidential election in 2018 sergei biziukin at that time i hadn t realized that less than 2 years later i had to escape from russia from the very trump street to save my life and the freedom of my family and me in 2016 i was announced as an independent candidate for the russian presidential election the purpose of my nomination was to show that everyone has the right to participate in elections and this right is vested in the constitution of the russian federation unfortunately many politicians were very frightened after potential presidential candidate boris nemtsov was killed in moscow throughout the year i conducted an active election campaign met with voters formed support groups in the regions campaigning took place in conditions of terror in march 2017 an opposition politician state дума deputy denis voronenkov was killed just like me denis voronenkov emphasized the illegality of the occupation of the crimea and in may 2017 i received aggressive messages from neo nazis on the internet during this period death threats began to come to me in december 2017 i stopped the

campaign when it became known about the official nomination of vladimir putin i made a statement that this is a violation of the constitution of russia he does not have any right to be the president for the fourth time so i could not participate in a crime right after the celebration of new year 2018 it was reported that a criminal case against me was being prepared for my political beliefs in connection with my statements that the russian federation has illegally occupied the ukrainian crimea and calls to return the territory of crimea to ukraine and it was just the beginning further interrogation coincided with my journalistic investigation the results of which point to the russian intervention in the internal politics of germany as a result of collusion between vladimir putin and some german businessmen however understanding of the criminal nature of the current regime came to me much earlier and now i m writing a book about its terror murders and wars from 1999 to nowadays because i feel responsible for my generation i was not going to write this book it has become a reaction to events which knocked the bottom out of my life i don t know what will happen in the future that s why i ve hurried up with gathering everything that i know about the dangers of the regime of vladimir putin for citizens of russia and all over the world in one book we have a history of speaking out against governments in my family in 1937 my great grandfather ivan kharitonov was arrested and put to death for anti soviet agitation as much as i admire him for speaking out i do not want to meet the same fate but who knows i hope my book will be one of the signals that will help stop the brutal dictatorship

Russia in the Shadows 2021-03-29 by analyzing the perspectives and values of not just rulers and elites but also workers and peasants mcdaniel shows that throughout the whole modern period there was widespread loyalty to the russian idea in its most basic sense the russian idea is the belief that russia could have forged its own separate path in the modern world through adherence to shared beliefs community and equality these cultural values however mainly reversed the values of western society rather than having provided a real alternative to them the effort of dictatorial states both tsarist and communist alike to rely on the russian idea in their programs of change led almost unavoidably to social breakdown

A Russian Diary 2007 excerpt from the russian pendulum autocracy democracy bolshivism there is some subtle mystery about russia which makes discussion of its affairs passionately bitter we are able to disagree about france or fume without losing our temper but difference of opinion about russia distils a peculiar venom this was very noticeable to me over there disagreements were all passionate and personal i attributed it to nearness to the problems and perhaps to some infectiousness in the excessive partisanship which the russians bring to their political controversies but since i have returned to america i find it just as noticeable here the subject of russia turns dinner table discussions into brawls turns old friendships into feuds perhaps this only points to the vitality and tremendous importance of the revolution we cannot ignore so stupendous an event we must take sides in listening to this very heated discussion i am impressed and surprised to find so many liberal minded persons who are always on the side of democratic progress at home taking up arms for the bolshiviki in russia all those who have devoted their lives to the development of democratic liberties are under the ban they are apparently more

feared and hated certainly more ruthlessly persecuted by the bolshiviki than the supporters of the old regime this sympathy for leninism is partly explained by simple misinformation such as the play on words which translates bolshivism as the rule of the majority some of it is traceable to a naïve belief that bolshevist politicians always mean exactly what it suits their convenience to say about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
