spanish architect and designer antoni gaudí 1852 1926 was an important and influential figure in the history of contemporary spanish art his use of colour application of a range of materials and the introduction of organic forms into his constructions were an innovation in the realm of architecture in his journal gaudí freely expressed his own feelings on art the colours used in architecture have to be intense logical and fertile his completed works the casa batlló 1905 1907 and the casa milà 1905 1910 and his incomplete works the restoration of the poblet monastery and the altarpiece of alella in barcelona illustrate the importance of this philosophy his furniture designs were conceived with the same philosophy as shown for example in his own office 1878 or the lamps in the plaza real in barcelona the sagrada familia 1882 1926 was a monumental project which eventually took over his life it was still incomplete at the time of his death inspired by the natural beauty of his homeland of catalonia antoni gaudi became a celebrated and innovative architect through the unique structures he designed in barcelona having a significant impact on architecture as it was known spanish architect and designer antoni gaudí 1852 1926 was an important and influential figure in the history of contemporary spanish art his use of colour application of a range of materials and the introduction of organic forms into his constructions were an innovation in the realm of architecture in his journal gaudí freely expressed his own feelings on art the colours used in architecture have to be intense logical and fertile his completed works the casa batlló 1905 1907 and the casa milà 1905 1910 and his incomplete works the restoration of the poblet monastery and the altarpiece of alella in barcelona illustrate the importance of this philosophy his furniture designs were conceived with the same philosophy as shown for example in his own office 1878 or the lamps in the plaza real in barcelona the sagrada familia 1882 1926 was a monumental project which eventually took over his life it was still incomplete at the time of his death the spanish civil war 1936 1939 pitted conservative forces including the army the church the falange fascist party landowners and industrial capitalists against the republic installed in 1931 and supported by intellectuals the petite bourgeoisie many campesinos farm laborers and the urban proletariat provoking heated passions on both sides the civil war soon became an international phenomenon that inspired a number of literary works reflecting the impact of the war on foreign and national writers while the literature of the period has been the subject of scholarship women s literary production has not been studied as a body of work in the same way that literature by men has been and its unique features have not been examined addressing this lacuna in literary studies this volume provides fresh perspectives on well known women writers as well as less studied ones whose works take the spanish civil war as a theme the authors represented in this collection reflect a wide range of political positions writers such as maria zambrano mercè rodoreda and josefina aldecoa were clearly aligned with the republic whereas others including mercedes salisachs and liberata masoliver sympathized with the nationalists most however are situated in a more ambiguous political space although the ethics and character portraits that emerge in their works might suggest republican sympathies taken together the essays are an important contribution to scholarship on literature inspired by this pivotal point in spanish history das vollständige werk von antoni gaudí die inspirierenden visionären gebäude des dante der architektur for his discoveries of microscopic life antoni van leeuwenhoek is remembered today as one of the great geniuses of science using microscopes he made himself antoni van leeuwenhoek peered into exciting new worlds that no one knew existed before beginning in the 1670s he discovered tiny single celled living things that he called little animals his curiosity led him to examine lake water moldy bread and even the plaque build up on his own teeth van leeuwenhoek was also the first to see red

blood cells and bacteria includes pictures includes gaudi s quotes about his life and work includes online resources and a bibliography for further reading those who look for the laws of nature as a support for their new works collaborate with the creator antoni gaudi halfway into the 19th century spain s catalonia underwent a sweeping transformation when it was thrust into not one but 2 golden eras the renaixen a and the industrial revolution it was during this explosive period of creativity thriving prosperity and invigorated patriotism that a steadfastly nonconforming and fascinatingly eccentric icon was born one that was about to take catalonia by storm with his brilliant eye for unorthodox art and his legendary or as some would say notoriously out of the box ideas salvador dal the celebrated surrealist was one of many who would find a fount of inspiration in him even once raving about the sagrada familia the highlight of this icon s career those who have not heard about the chromatic and shining essence of its color the astonishing polyphony of its towers as organ pipes and shocked by its mutant naturalism are traitors this icon in question of course is none other than what many now consider to be the patriarch of the catalan modernism movement antoni gaud antoni gaud the life and legacy of the architect of catalan modernism examines his life and career highlights how his religiosity and love for nature shaped his art and how a dangerous obsession eventually led to a genius tragic end along with pictures depicting important people places and events you will learn about gaudi like never before in antoni van leeuwenhoek master of the minuscule the life and discoveries of antoni van leeuwenhoek father of microbiology are described in the context of the historical events of the dutch golden age and discoveries of his contemporaries a novel of survival and finding love where you least expect it take a trip through a wormhole to another world then mix a shoot em up western with victorian steampunk add a dash of mystery a fast paced sci fi novel of adventure and romance on an alien planet after a sniper cripples their father sisters bethany jeanne and iris struggle to survive and hang on to their ranch and mine bethany marries a mercenary gunfighter to shield her family from a predatory neighbor to her surprise the marriage of convenience turns into a love match but bethany and alec must learn to trust as well as love each other iris chooses an arranged marriage with a beloved old friend but did carlos marry her for love or to please her father jeanne and samuel fall in love but samuel is the son of her family s greatest enemy to be together they run away to a distant city but discover you can t escape who you are will their love be strong enough to survive when samuel s father demands he return to the clan reality check poetry of life is the first collection of poems by an up and coming poet by the name of antoni chuck reality check poetry of life is divided into four different sections the first section is love and loss the second section is poverty and greed the third section is revolution and the final section is reality check the first section love and loss deals with relationship issues such as falling in love breaking up cheating lust and sex with poems such as endless tale best foot forward and happily ever after the second section poverty and greed deals with issues faced by the average person with poems such as land of b s and z goodbye misery and society the third section is revolution and it deals with political issues such as standing up for your rights letting your voice be heard and letting you know change starts with you the final section reality check deals with real life situations such as death success failure jealousy trust and finding one s self with such poems as crazy world reality check and on my two feet the remarkable story of how an artist and a scientist in seventeenth century holland transformed the way we see the world on a summer day in 1674 in the small dutch city of delft antoni van leeuwenhoek a cloth salesman local bureaucrat and self taught natural philosopher gazed through a tiny lens set into a brass holder and discovered a never before imagined world of microscopic life at the same time in a nearby attic the painter johannes vermeer was using another optical device a camera obscura to experiment with light and create the most luminous pictures ever beheld see for yourself was the clarion call of the 1600s scientists peered at nature through microscopes and telescopes making the discoveries in astronomy physics chemistry and anatomy that ignited the scientific revolution artists investigated nature with lenses mirrors and camera

obscuras creating extraordinarily detailed paintings of flowers and insects and scenes filled with realistic effects of light shadow and color by extending the reach of sight the new optical instruments prompted the realization that there is more than meets the eye but they also raised questions about how we see and what it means to see in answering these questions scientists and artists in delft changed how we perceive the world in eye of the beholder laura j snyder transports us to the streets inns and guildhalls of seventeenth century holland where artists and scientists gathered and to their studios and laboratories where they mixed paints and prepared canvases ground and polished lenses examined and dissected insects and other animals and invented the modern notion of seeing with charm and narrative flair snyder brings vermeer and van leeuwenhoek and the men and women around them vividly to life the story of these two geniuses and the transformation they engendered shows us why we see the world and our place within it as we do today eye of the beholder was named a best art book of the year by christie s and a best read of the year by new scientist in 2015 this volume the 14th of a series of 19 contains 21 letters written between august 1701 and march 1704 at least half of these letters were addressed to fellows of the royal society in london every volume in the series contains the texts in the original dutch and an english translation the great range of subjects studied by van leeuwenhoek is reflected in these letters instruments to measure water pulmonary diseases experiments relating to the solution of gold and silver salt crystals and grains of sand botanical work such as duckweed and germination of orange pips descriptions on protozoa blood spermatozoa and health and hygiene for example and harmfulness of tea and coffee and the benefits of cleaning teeth volumes one to 13 are available at a reduced price from swets and zeitlinger this volume the 14th of a series of 19 contains 21 letters written between august 1701 and march 1704 at least half of these letters were addressed to fellows of the royal society in london every volume in the series contains the texts in the original dutch and an english translation the great range of subjects studied by van leeuwenhoek is reflected in these letters instruments to measure water pulmonary diseases experiments relating to the solution of gold and silver salt crystals and grains of sand botanical work such as duckweed and germination of orange pips descriptions on protozoa blood spermatozoa and health and hygiene for example and harmfulness of tea and coffee and the benefits of cleaning teeth volumes one to 13 are available at a reduced price from swets and zeitlinger the fascination that the work of gaudí arouses is due in large part to the enigmatic symbolism of its forms full of mystical and philosophical significance that is sometimes difficult for observers to perceive but which becomes clearer when analysed in the light of certain very influential currents of ideas in the art of the nineteenth and early twentieth centuries based on the study of casa bellesguard and the temple of the sagrada família this book opens up new avenues for interpreting gaudí s symbolism discovering the ties existing between the work of the catalan architect and that of the german painter peter lenz which at the same time is rooted in the early romantic period aimed at both specialists and the general public antoni gaudí casa bellesguard as the key to his symbolism not only broadens the knowledge and the documentation of gaudí s creative universe but also contributes to enriching our perception of his work in volume xvi of the collected letters of antoni van leeuwenhoek 25 letters of van leeuwenhoek have been included all of them written from july 1707 to june 1712 the letters were written to six distinct addressees the larger part was addressed to the royal society in london in general sixteen letters and to three of its fellows in particular john chamberlayne 280 and 281 who translated the letters of van leeuwenhoek for the royal society hans sloane 297 and james petiver 287 five letters were addressed to anthonie heinsius grand pensionary of holland who was interested in van leeuwenhoek s work until his death in 1720 the correspondence collected in this volume shows the lasting interest evinced by the royal society in van leeuwenhoek s work this would change in later years none of the letters printed here were published in leeuwenhoek s own time either in dutch or in latin fifteen letters to the royal society were more or less completely published in an english translation in the society s philosophical transactions this was also done with two letters to

chamberlayne 280 and 281 and the letter to petiver 287 the letters to heinsius sloane and letter 285 have not been published earlier of all letters published here the dutch texts are now for the first time available in a printed edition every volume in the series contains the texts in the original dutch and an english translation the great range of subjects studied by van leeuwenhoek is reflected in these letters instruments to measure water pulmonary diseases experiments relating to the solution of gold and silver salt crystals and grains of sand botanical work such as duckweed and germination of orange pips descriptions on protozoa blood spermatozoa and health and hygiene for example and harmfulness of tea and coffee and the benefits of cleaning teeth this critical edition and translation of the *relaçam do equebar rey dos mogores* 1582 and the *commentarius mongolicae legationis* 1591 the first detailed european accounts on mughal india written by antoni de montserrat offers an updated and renewed reappraisal of the first jesuit mission to the mughal court 1580 1583 it also includes a reassessment of montserrat s career highlighting his role both as a missionary and a diplomatic agent at the mughal court the contents of the letters published here again show the great range of subjects that occupied van leeuwenhoek from sugar candy the shape and crystal structure of diamonds the dissolution of silver crystals in aqua fortis to gold dust from guinea dissolved in aqua regia and the dissolution and separation of gold silver and copper every volume in the series contains the texts in the original dutch and an english translation the great range of subjects studied by van leeuwenhoek is reflected in these letters instruments to measure water pulmonary diseases experiments relating to the solution of gold and silver salt crystals and grains of sand botanical work such as duckweed and germination of orange pips description on protozoa blood spermatozoa and health and hygiene for example and harmfulness of tea and coffee and the benefits of cleaning teeth an accessible account of the contradictory life and work of the modernist catalan architect the celebrated art nouveau architect antoni gaudí was a contradictory figure a deeply religious politically right wing man who nevertheless built revolutionary buildings this book explores gaudí s life work and influences from catalan nationalism to the industrial revolution michael eaude expertly guides readers through gaudí s dozen great works including the *sagrada família* that attracts millions of tourists each year gaudí s life is also chronicled from his provincial upbringing in reus to his time in barcelona he later suffered a nervous breakdown became obsessively religious and fused gothic baroque and orientalist architecture into his unique style this brief biography offers an accessible introduction to this perplexing and fascinating life stress coping and depression is the latest volume based on the annual stress and coping conference held at the university of miami in this timely collection leading researchers offer a variety of new perspectives on depression they review the social biological and psychological processes that put adults and their children at risk and discuss innovative treatments grounded in empirical studies research findings are integrated across domains to construct more effective models of etiology and intervention the contributors thought provoking ideas will provide inspiration for the ongoing efforts addressing the problems associated with this devastating disorder content highlights include novel information processing approaches to depression an overview of the neural pathways guiding moods empirical approaches for the treatment of bipolar disorders integrated models of biological and environmental influences on the transmission of depression to children and new perspectives on the relationship between personality and stress the body sexuality and gender continue to be subjects of much debate in contemporary culture and academia this collection of activist academic essays scrutinises varied questions relating to the way we understand and re present ourselves and others and at its core represents hope and determination that a different world is possible conflicting models for the origin of life conflicting models for the origin of life provides a forum to compare and contrast the many hypotheses that have been put forward to explain the origin of life there is a revolution brewing in the field of origin of life in the process of trying to figure out how life started many researchers believe there is an impending second creation of life not necessarily biological up to date understanding is needed to prepare us for the technological and societal

changes it would bring schrodinger s 1944 what is life included the insight of an information carrier which inspired the discovery of the structure of dna in conflicting models of the origin of life a selection of the world s experts are brought together to cover different aspects of the research from progress towards synthetic life artificial cells and sub cellular components to new definitions of life and the unexpected places life could have emerge d chapters also cover fundamental questions of how memory could emerge from memoryless processes and how we can tell if a molecule may have emerged from life similarly cutting edge research discusses plausible reactions for the emergence of life both on earth and on exoplanets additional perspectives from geologists philosophers and even roboticists thinking about the origin of life round out this volume the text is a state of the art snapshot of the latest developments on the emergence of life to be used both in graduate classes and by citizen scientists audience researchers in any area of astrobiology as well as others interested in the origins of life will find a modern and current review of the field and the current debates and obstacles this book will clearly illustrate the current state of the art and engage the imagination and creativity of experts across many disciplines the food guru and breakout star of the netflix smash hit queer eye unveils the stylishly accessible healthy recipes fans have been waiting for gaudi s bizarre and romantic buildings interiors and exteriors mosiacs and public spaces have imbued barcelona with unique character and ensured his place in the pantheon of great architects the work of the brilliant architect with locations maps through the pages of this work we invite you to discover the captivating and enchanting universe of one of the most innovative and i conic architects antoni gaudí a seminal figure in catalan modernism has left an indelible mark on barcelona s architectural landscape with creations that transcend the boundaries of time and space this guide is intended to lead you through the mazes of his creative genius reveal the secrets of his most famous works and immerse you in the visionary spirit that animated this master of architecture each chapter will lead you to discover a different facet of gaudí s work from his early steps in architecture to his most celebrated achievements we will explore the sagrada família a true symbol of his devotion to sacred art the park güell where the harmony between nature and architecture reaches its peak and many other projects that testify to his boundless creativity this guide is not limited to a simple exploration of buildings we will also delve into the innovative techniques and deep inspirations that shaped gaudí s work from the complex symbolism of the sagrada família to the bold organic forms of his creations you will discover the elements that made him an avant garde architect whether you are an art enthusiast a curious traveler or an architecture student this work has been designed to offer you an immersive experience in the fascinating universe of antoni gaudí in may 1956 aged just 24 colin wilson achieved success and overnight fame with his philosophical study of alienation and transcendence in modern literature and thought the outsider fifty four years on and never out of print in english the book is still widely read and discussed having been translated into over thirty languages in a remarkably prolific career wilson a true polymath has since written over 170 titles novels plays and non fiction on a variety of subjects this volume brings together twenty essays by scholars of colin wilson s work worldwide and is published in his honour to mark the author s 80th birthday each contributor has provided an essay on their favourite wilson book or the one they consider to be the most significant the result is a varied and stimulating assessment of wilson s writings on philosophy psychology literature criminology and the occult with critical appraisals of four of his most thought provoking novels altogether a fitting tribute to a writer life strictly forbidden is the memoirs of the well known polish writer antoni marianowicz told partly through interviews with journalist hanna baltyn and partly through personal recollections of his family before the war and during the occupation the honest in depth conversations with baltyn create a unique picture of the formative life of this influential author and the reality of living in europe under hitler the marianowicz family was wealthy bourgeoisie but at the age of 16 antoni was forced to live in the warsaw ghetto after 18 months he fled from the ghetto and managed to survive for three years 1942 45 hiding out in a small provincial town

near warsaw where paradoxically he and other jewish refugees hid in a glass factory that belonged to the waffen ss few publications have changed the landscape of contemporary psychology more than richard lazarus and susan folkman s landmark work stress appraisal and coping its publication in 1984 set the course for years of research on the dynamic processes of psychological stress and coping in human beings now more than a quarter century later the oxford handbook of stress health and coping pushes the field even further with a comprehensive overview of the newest and best work in this dynamic subject edited by susan folkman and comprising chapters by the field s leading scientists this new volume details the expanded knowledge base that has emerged from extensive research on stress and coping processes over the last several decades featuring 22 topic based chapters including two by folkman this volume offers unprecedented coverage of the two primary research topics related to stress and coping mitigating stress related harms and sustaining well being in the face of stress both topics are addressed within their relevant contexts including chronic illness calamity bereavement and social hardship the oxford handbook of stress health and coping is an essential reference work for students practitioners and researchers across the fields of health psychology medicine and palliative care each volume of the dictionary of world biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history this is not a who s who instead each entry provides an in depth essay on the life and career of the individual concerned essays commence with a quick reference section that provides basic facts on the individual s life and achievements the extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual s place in history all entries conclude with a fully annotated bibliography

Antoni Gaudí 2012-05-08 spanish architect and designer antoni gaudí 1852 1926 was an important and influential figure in the history of contemporary spanish art his use of colour application of a range of materials and the introduction of organic forms into his constructions were an innovation in the realm of architecture in his journal gaudí freely expressed his own feelings on art the colours used in architecture have to be intense logical and fertile his completed works the casa batlló 1905 1907 and the casa milà 1905 1910 and his incomplete works the restoration of the poblet monastery and the altarpiece of alella in barcelona illustrate the importance of this philosophy his furniture designs were conceived with the same philosophy as shown for example in his own office 1878 or the lamps in the plaza real in barcelona the sagrada familia 1882 1926 was a monumental project which eventually took over his life it was still incomplete at the time of his death

Building on Nature 2009-09 inspired by the natural beauty of his homeland of catalonia antoni gaudi became a celebrated and innovative architect through the unique structures he designed in barcelona having a significant impact on architecture as it was known

Antoni Gaudí and artworks 2022-12-06 spanish architect and designer antoni gaudí 1852 1926 was an important and influential figure in the history of contemporary spanish art his use of colour application of a range of materials and the introduction of organic forms into his constructions were an innovation in the realm of architecture in his journal gaudí freely expressed his own feelings on art the colours used in architecture have to be intense logical and fertile his completed works the casa batlló 1905 1907 and the casa milà 1905 1910 and his incomplete works the restoration of the poblet monastery and the altarpiece of alella in barcelona illustrate the importance of this philosophy his furniture designs were conceived with the same philosophy as shown for example in his own office 1878 or the lamps in the plaza real in barcelona the sagrada familia 1882 1926 was a monumental project which eventually took over his life it was still incomplete at the time of his death

Spanish Women Writers and Spain's Civil War 2016-12-01 the spanish civil war 1936 1939 pitted conservative forces including the army the church the falange fascist party landowners and industrial capitalists against the republic installed in 1931 and supported by intellectuals the petite bourgeoisie many campesinos farm laborers and the urban proletariat provoking heated passions on both sides the civil war soon became an international phenomenon that inspired a number of literary works reflecting the impact of the war on foreign and national writers while the literature of the period has been the subject of scholarship women s literary production has not been studied as a body of work in the same way that literature by men has been and its unique features have not been examined addressing this lacuna in literary studies this volume provides fresh perspectives on well known women writers as well as less studied ones whose works take the spanish civil war as a theme the authors represented in this collection reflect a wide range of political positions writers such as maria zambrano mercè rodoreda and josefina aldecoa were clearly aligned with the republic whereas others including mercedes salisachs and liberata masoliver sympathized with the nationalists most however are situated in a more ambiguous political space although the ethics and character portraits that emerge in their works might suggest republican sympathies taken together the essays are an important contribution to scholarship on literature inspired by this pivotal point in spanish history

Antoni van Leeuwenhoek 2016-05-09 a novel of survival and finding love where you least expect it take a trip through a wormhole to another world then mix a shoot em up western with victorian steampunk add a dash of mystery a fast paced sci fi novel of adventure and romance on an alien planet after a sniper cripples their father sisters bethany jeanne and iris struggle to survive and hang on to their ranch and mine bethany marries a mercenary gunfighter to shield her family from a predatory neighbor to her surprise the marriage of convenience turns into a love match but bethany and alec must learn to trust as well as love each other iris chooses an arranged marriage with a beloved old friend but did carlos marry her for love or to please her father jeanne and samuel fall in love but samuel is the son of her family s greatest enemy to be together they run away to a distant city but discover you can t escape who you are will their love be strong enough to survive when samuel s father demands he return to the clan

Warriors of St. Antoni 1917-09-15 reality check poetry of life is the first collection of poems by an up and coming poet by the name of antoni chuck reality check poetry of life is divided into four different sections the first section is love and loss the second section is poverty and greed the third section is revolution and the final section is reality check the first section love and loss deals with relationship issues such as falling in love breaking up cheating lust and sex with poems such as endless tale best foot forward and happily ever after the second section poverty and greed deals with issues faced by the average person with poems such as land of b s and z goodbye misery and society the third section is revolution and it deals with political issues such as standing up for your rights letting your voice be heard and letting you know change starts with you the final section reality check deals with real life situations such as death success failure jealousy trust and finding one s self with such poems as crazy world reality check and on my two feet

Gaudi 1852-1926 1985 the remarkable story of how an artist and a scientist in seventeenth century holland transformed the way we see the world on a summer day in 1674 in the small dutch city of delft antoni van leeuwenhoek a cloth salesman local bureaucrat and self taught natural philosopher gazed through a tiny lens set into a brass holder and

discovered a never before imagined world of microscopic life at the same time in a nearby attic the painter johannes vermeer was using another optical device a camera obscura to experiment with light and create the most luminous pictures ever beheld see for yourself was the clarion call of the 1600s scientists peered at nature through microscopes and telescopes making the discoveries in astronomy physics chemistry and anatomy that ignited the scientific revolution artists investigated nature with lenses mirrors and camera obscuras creating extraordinarily detailed paintings of flowers and insects and scenes filled with realistic effects of light shadow and color by extending the reach of sight the new optical instruments prompted the realization that there is more than meets the eye but they also raised questions about how we see and what it means to see in answering these questions scientists and artists in delft changed how we perceive the world in eye of the beholder laura j snyder transports us to the streets inns and guildhalls of seventeenth century holland where artists and scientists gathered and to their studios and laboratories where they mixed paints and prepared canvases ground and polished lenses examined and dissected insects and other animals and invented the modern notion of seeing with charm and narrative flair snyder brings vermeer and van leeuwenhoek and the men and women around them vividly to life the story of these two geniuses and the transformation they engendered shows us why we see the world and our place within it as we do today eye of the beholder was named a best art book of the year by christie s and a best read of the year by new scientist in 2015

Reality Check 2011-07-11 this volume the 14th of a series of 19 contains 21 letters written between august 1701 and march 1704 at least half of these letters were addressed to fellows of the royal society in london every volume in the series contains the texts in the original dutch and an english translation the great range of subjects studied by van leeuwenhoek is reflected in these letters instruments to measure water pulmonary diseases experiments relating to the solution of gold and silver salt crystals and grains of sand botanical work such as duckweed and germination of orange pips descriptions on protozoa blood spermatozoa and health and hygiene for example and harmfulness of tea and coffee and the benefits of cleaning teeth volumes one to 13 are available at a reduced price from swets and zeitlinger

Eye of the Beholder: Johannes Vermeer, Antoni van Leeuwenhoek, and the Reinvention of Seeing 2015-03-16 this volume the 14th of a series of 19 contains 21 letters written between august 1701 and march 1704 at least half of these letters were addressed to fellows of the royal society in london every volume in the series contains the texts in the original dutch and an english translation the great range of subjects studied by van leeuwenhoek is reflected in these letters instruments to measure water pulmonary diseases experiments relating to the solution of gold and silver salt crystals and grains of sand botanical work such as duckweed and germination of orange pips descriptions on protozoa blood spermatozoa and health and hygiene for example and harmfulness of tea and coffee and the benefits of cleaning teeth volumes one to 13 are available at a reduced price from swets and zeitlinger

The Collected Letters of Antoni Van Leeuwenhoek - 1996-06-01 the fascination that the work of gaudí arouses is due in large part to the enigmatic symbolism of its forms full of mystical and philosophical significance that is sometimes difficult for observers to perceive but which becomes clearer when analysed in the light of certain very influential currents of ideas in the art of the nineteenth and early twentieth centuries based on the study of casa bellesguard and the temple of the sagrada família this book opens up new avenues for interpreting gaudí s symbolism discovering the ties existing between the work of the catalan architect and that of the german painter peter lenz which at the same time is rooted in the early romantic period aimed at both specialists and the general public antoni gaudí casa bellesguard as the key to his symbolism not only broadens the knowledge and the documentation of gaudí s creative universe but also contributes to enriching our perception of his work

Gaudi 1988 in volume xvi of the collected letters of antoni van leeuwenhoek 25 letters of van leeuwenhoek have been included all of them written from july 1707 to june 1712 the letters were written to six distinct addressees the larger part was addressed to the royal society in london in general sixteen letters and to three of its fellows in particular john chamberlayne 280 and 281 who translated the letters of van leeuwenhoek for the royal society hans sloane 297 and james petiver 287 five letters were addressed to anthonie heinsius grand pensionary of holland who was interested in van leeuwenhoek s work until his death in 1720 the correspondence collected in this volume shows the lasting interest evinced by the royal society in van leeuwenhoek s work this would change in later years none of the letters printed here were published in leeuwenhoek s own time either in dutch or in latin fifteen letters to the royal society were more or less completely published in an english translation in the society s philosophical transactions this was also done with two letters to chamberlayne 280 and 281 and the letter to petiver 287 the letters to heinsius sloane and letter 285 have not been published earlier of all letters published here the dutch texts are now for the first time available in a printed edition every volume in the series contains the texts in the original dutch and an english translation the great range of subjects studied by van leeuwenhoek is reflected in these letters instruments to measure water pulmonary diseases experiments relating to the solution of gold and silver salt crystals and grains of sand botanical work such as duckweed and germination of orange pips descriptions on protozoa blood spermatozoa and health and hygiene for example and harmfulness of tea and coffee and the benefits of cleaning teeth
