Readings for Research Methods in Criminology and Criminal Justice 1999

the papers in this book discuss and illustrate a variety of methodological techniques concepts instruments etc used in criminological and criminal justice research

Introduction to Criminology 2010-12-09

a unique text reader that takes a comprehensive interdisciplinary approach to the study of criminology providing an affordable alternative to the standard textbook this new edition of the authors popular text reader provides instructors and students the best of both worlds authored text with carefully selected accompanying readings now thoroughly updated with new articles new content and new statistics tables and figures this second edition provides an interdisciplinary perspective on crime and criminality that incorporates the latest theories concepts and research from sociology psychology genetics evolutionary biology and the neurosciences the new edition is divided into 15 sections that mirror chapters in a typical criminology textbook new to this edition a new section 11 on mass murder and terrorism makes coverage of these high interest topics even more accessible section 10 now focuses only on murder rape robbery aggravated assault and domestic violence making it easier for students to absorb the material new articles appear in the structural theories section the sections devoted to violent crime and throughout the text reader as needed the authors now more closely link sections on types of crime to sections on theory to give readers a more cohesive understanding of the connections between the two contemporary criminologists favored theories drawn from a survey of 770 criminologists now appear in a table to give readers insight into the professional opinion today on criminological theories features each section has a 15 page introduction a mini chapter that contains vignettes photos tables and graphs end of chapter questions and exercises followed by three to four supporting readings theory section introductions contain a unique table that compares and contrasts the theories presented while theory concluding sub sections focus on policy and crime prevention a how to read a research article guide which appears prior to the first reading illustrates key aspects of a research article the book's readings are drawn from carefully selected edited journal articles appropriate for an undergraduate audience

Methods of Research in Criminology and Criminal Justice 1983

research methods for criminology and criminal justice a primer second edition provides students of criminology and criminal justice with a clear and simple approach to understanding social science research completely updated and redesigned this text is written to engage students and make the complex subject of research methods easy for the would be criminal justice practitioner to comprehend in addition to covering current topics such as community policing alternative sentencing for nonviolent offenders and gang violence each chapter starts with a case study demonstrating how research methods are used in practical applications within the field later these issues are also addressed in exercises and questions found at the end of the chapter this indispensable resource is accessible understandable and user friendly and is a must read for students in any research methods course each chapter of this text begins with a case study illustrating how research methods requirements and processes are used in real life applications research methods for criminology and criminal justice a primer uses important contemporary issues such as gangs drugs teen alcohol abuse and alternative sentencing options for non violent offenders to illustrate role of research in developing policies and procedures these illustrations are also addressed at the end of each chapter in exercises and review questions research methods for criminology and criminal justice a primer makes learning research methods easy understandable and applicable to the criminal justice topics students are most interested in research methods for criminology and criminal justice a primer will be available with instructor's resources including an instructor's manual including lecture outlines and review question solutions microsoft powerpoint™ presentations and a test bank

Research Methods for Criminology and Criminal Justice 2006

the wide ranging scope of the handbook of life course criminology covers genetics and environment child offenders and late

bloomers the impact of school and peers lifelong and time limited criminal careers and qualitative and quantitative methodologies this unique handbook is further set apart by its dual coverage of the leading edge of current research and innovative directions for future work in the field pathways to crime have been a central concept of criminology from its inception accordingly a lifespan approach to the field has replaced earlier biological and sociological perspectives with a more nuanced understanding of offender behavior and a wider lens of study the contributions to this handbook break down issues of criminal and antisocial behavior from early childhood to late adulthood examining developmentally targeted prevention and intervention strategies and reviewing emerging trends in research among the topics childhood including physical aggression in childhood pre and peri natal development and environment adolescence the impact of schooling unstructured time with peers gang membership and peer networks adulthood adult onset crime unemployment in emerging adulthood crime and adult outcomes prevention and intervention community programs lifetime intervention strategies re entry this volume will be a valuable piece for researchers in criminology and criminal justice as well as related disciplines such as sociology developmental psychology and social policy it will serve as an important reference for the current state of research as well as a roadmap for future scholars this impressive handbook provides comprehensive coverage of key developmental and life course issues in criminology from birth to adulthood including biology genetics gangs schools neighborhoods adult onset desistance and interventions the research recommendations in each chapter are especially important and they should stimulate advances in knowledge for many years to come this handbook should be required reading for all criminologists david p farrington professor of psychological criminology cambridge university cambridge uk in just a few decades developmental criminology has become the dominant intellectual force in criminology this volume demonstrates why it provides incisive reviews of important themes in developmental criminology more importantly it lays out rich agendas for future research that should inspire the next generation of developmental criminologists daniel s nagin teresa and h john heinz iii university professor of public policy and statistics carnegie melon university pittsburgh pa usa

Research Methods in Criminology and Criminal Justice 1981-01-01

the authors are proud sponsors of the 2020 sage keith roberts teaching innovations award enabling graduate students and early career faculty to attend the annual asa pre conference teaching and learning workshop very practical approach to teaching research methods and very student friendly this text breathes life into the research process sherill morris francis mississippi valley state university the practice of research in criminology and criminal justice seventh edition demonstrates the vital role research plays in criminology and criminal justice by integrating in depth real world case studies with a comprehensive discussion of research methods by pairing research techniques with practical examples from the field ronet d bachman and russell k schutt equip students to critically evaluate and confidently conduct research the seventh edition of this best selling text retains the strengths of previous editions while breaking ground with emergent research methods enhanced tools for learning in the text and online and contemporary fascinating research findings this edition incorporates new topics like intelligence led policing social network analysis sna the evolution of cybercrime and more students engage with the wide realm of research methods available to them delve deeper into topics relevant to their field of study and benefit from the wide variety of new exercises to help them practice as they learn give your students the sage edge sage edge offers a robust online environment featuring an impressive array of free tools and resources for review study and further exploration keeping both instructors and students on the cutting edge of teaching and learning

Handbook of Life-Course Criminology 2012-11-06

this informative reference volume features the key papers in the growing field of quantitative criminology the papers provide examples of the importation of statistical methods from other fields to criminology the adaptation of such methods to special criminological problems through introspection and the development of new innovative statistical approaches the volume illustrates the growing sophistication and maturation of quantitative methods in this field divided into five parts research design sampling issues in measurement descriptive analysis and causal analysis it will be of interest to anyone concerned with criminology and criminal justice as well as those with specialized interests in quantitative methods

The Practice of Research in Criminology and Criminal Justice 2019-01-08

this book introduces the important words and themes which students need to know in order to succeed at criminology it doesn't aim to be a dictionary rather it brings together a comprehensive list of those essential words that students need it has the advantage of being able to offer longer definitions of terms as well as suggesting terms which are new to the subject area and which are helping change the discipline eg green criminology the book is a proactive intervention in the development of criminology and includes cross referencing throughout relevant sources cited annotated guide to further reading and an overview of critiques of each concept

Quantitative Methods in Criminology 2017-07-05

snapshots of research readings in criminology and criminal justice is a comprehensive cutting edge text that provides an introductory overview of the main research methods used in the fields of criminology and criminal justice this text reader offers a wide range of modern research examples as well as several classic articles including a broad range of readings from the four major branches of the criminal justice system policing courts law juvenile justice and corrections that are relevant to career paths students may be interested in pursuing

Key Perspectives In Criminology 2009-05-01

this accessibly written book is truly innovative in combining an introduction to key perspectives and topics in criminology with a very student friendly study guide to the problems of researching and writing in the discipline professor kevin stenson middlesex university this book offers a timely introduction both to the discipline of criminology and to the practice of studying it as an undergraduate subject it takes the reader from first principles in criminology through to some quite complex ideas and debates it also offers useful advice on how to grapple with the practical realities of studying this subject it does both of these in a manner which is always accessible and readable dr tony kearon keele university this is a superb text for the undergraduate audience intended the writing is clear difficult concepts are explained well criticality is encouraged the signposting is adequate and exercises are provided to embed learning an excellent book overall and one that deserves wide readership peter hamerton criminology is part of an exciting new series from sage developed as accessible reference tools sage course companions offer an introduction to the subject and encourage students to extend their understanding of key concepts issues and debates criminology is designed to give those new to the study of criminology criminal justice and the sociology of deviance a comprehensive overview of the subject matter it can be used as an introduction to the subject and referred to throughout the degree for tips and revision guidance criminology is designed to complement rather than replace existing textbooks for the course and will provide helpful summaries of the course curriculum to aid exam revision and essay planning key summaries of the approach taken by the main textbooks on the course guidance on the essential study skills required to pass the course help with developing critical thinking route maps to aid the development of wider learning above and beyond the textbook pointers to success in course exams and written assessment exercises a tutor's eye view of what course examiners are looking for an insider's view of what key course concepts are really all about sage course companions are much more than revision guides for undergraduate they are an essential tool to success in undergraduate courses enriching the learning experience and developing students understanding

Snapshots of Research 2010-10-20

david nelken is the 2013 laureate of the association for law and society international prize the increasingly important topic of comparative criminal justice is examined from an original and insightful perspective by david nelken one of the top scholars in the field the author looks at why we should study crime and criminal justice in a comparative and international context and the difficulties we encounter when we do drawing on experience of teaching and research in a variety of countries the author offers multiple illustrations of striking differences in the roles of criminal justice actors and ways of handling crime problems the book includes in depth discussions of such key issues as how we can learn from other jurisdictions compare like with like and balance explanation with understanding for example in making sense of national differences in prison rates careful attention is given to the question of how far globalisation challenges traditional ways of comparing units the book also offers a number of helpful tips on

methodology showing why method and substance cannot and should not be separated when it comes to understanding other people's systems of justice students and academics in criminology and criminal justice will find this book an invaluable resource compact criminology is an exciting series that invigorates and challenges the international field of criminology books in the series are short authoritative innovative assessments of emerging issues in criminology and criminal justice offering critical accessible introductions to important topics they take a global rather than a narrowly national approach eminently readable and first rate in quality each book is written by a leading specialist compact criminology provides a new type of tool for teaching learning and research one that is flexible and light on its feet the series addresses fundamental needs in the growing and increasingly differentiated field of criminology

Criminology 2006-03-10

the anthropocene signals a new age in earth's history a human age where we are revealed as a powerful force shaping planetary systems what might criminology be in the anthropocene what does the anthropocene suggest for future theory and practice of criminology this book seeks to contribute to this research agenda by examining contrasting and interrogating different vantage points aspects and thinking within criminology bringing together a range of multidisciplinary chapters at the cutting edge of thinking and environmental rethinking in criminology this book explores a mix of key intractable problems of the anthropocene including climate change and overexploitation of natural resources that cause environmental insecurities crime and corruption related human insecurity and fortress spaces and the rise of new risks and social harms of interest to scholars in the fields of criminology sociology and environmental studies this book provides readers with a basis for analysing the challenges of and possible approaches to the anthropocene at all levels local national regional and international and discusses the future of criminology for improving social policies and practices

Advancing Quantitative Methods in Criminology and Criminal Justice 2013

this introductory textbook takes a building block approach that emphasizes the application and interpretation of statistics in research in crime and justice this text is meant for both students and professionals who want to gain a basic understanding of common statistical methods used in criminology and criminal justice before advancing to more complex statistical analyses in future volumes this book emphasizes comprehension and interpretation as the statistical methods discussed become more complex and demanding to compute it integrates statistical software it provides readers with an accessible understanding of popular statistical programs used to examine real life crime and justice problems including spss stata and r in addition the book includes supplemental resources such as a glossary of key terms practice questions and sample data basic statistics in criminology and criminal justice aims to give students and researchers a core understanding of statistical concepts and methods that will leave them with the confidence and tools to tackle the statistical problems in their own research work

Exploring Crime 1987

this brief examines the influence and prestige of scholars and works in the field of criminology and criminal justice as well as changes in influence and prestige over a period of 25 years based on citation analysis methods of measuring scholarly influence can be highly controversial but the authors of this work clearly outline their methodology developed over years of experience working with this area of study through their expertise in criminology and criminal justice they are able to solve problems that affect or confound many traditional forms of citation analysis such as irregularly cited references or self citations it includes 25 years of data 1986 through 2010 on the most cited scholars and works in major american and international criminology and criminal justice journals and provides an objective measure of influence and prestige through an analysis of the data the authors also document the intellectual development of criminology and criminal justice as a field of study since 1986 they highlight the development of research trends and indicate areas for future research this book is designed for use by scholars and academics in the fields of criminology and criminal justice and the methodology will be of interest to researchers in related disciplines including sociology and social psychology cohn farrington and iratzoqui provide an invaluable service in unpacking the criminological enterprise using systematic citational analysis they illuminate the core patterns of scholarly influence that have shaped the field's development this volume is an essential resource for all those wishing to understand which scholars and writings have done most

within and across time periods to affect thinking about crime and justice francis t cullen distinguished research professor university of cincinnati citation analyses have become one of the most significant measures of scholarly influence they are especially useful for revealing major trends over time regarding authors and the topics of interest to the wider field cohn farrington and iratzoqui s most cited scholars in criminology and criminal justice 1986 2010 provides the most up to date comprehensive and longitudinal investigation of scholarly influence in criminology criminal justice this resource is a most interesting read one that supplies not a mere counting of citations but clear ideas about where the field has been centered and where it is trending into the future alex r piquero ashbel smith professor of criminology university of texas at dallas

Comparative Criminal Justice 2010-04-22

commemorating the fiftieth anniversary of the american society of criminology this volume contains previously published articles by the society s past presidents many of whom are the leading thinkers in the field

Criminology and the Anthropocene 2017-10-16

Fundamentals of Research in Criminology and Criminal Justice 2016-01-28

fundamentals of criminology new dimensions delivers a comprehensive and comprehensible introduction to the discipline of criminology as the title implies it covers the fundamentals of criminology including the major theories of crime causation classic and current empirical tests of those theories the strengths and weaknesses and the policy implications of each it also describes the types of crime and provides current rates trends over time and theoretical explanations for each as well as a discussion of characteristics of offenders and victims what sets this book apart from the many other fine criminology textbooks out there is its inclusion of some new dimensions of criminology the new dimensions in this book include but are not limited to research designs in criminology new theories of crime causation crime in different contexts connections between criminology and criminal justice policy and a number of lingering issues for both disciplines in combination with the fundamentals these new dimensions are designed to provide readers with the richest most complete understanding of what crime is how much of it there is what causes it and what do to about it as well as the ability and desire to pose important questions for the future of both criminology and criminal justice the authors have produced a comprehensive readable and thoroughly interesting text covering the topic of sociological criminology yes there are a plethora of texts in this area but harper and frailing s addition to the field has a number of features moving it ahead of the competition there is in depth coverage of emerging areas in crime including cybercrime and human trafficking as well as an excellent section on how disasters augment the opportunities for crime by hindering capable guardianship the authors arguments for evidence based crime prevention strategies and public policies are compelling fundamentals of criminology is worthy of the closest consideration by instructors teaching undergraduate criminology courses jay corzine professor

Connecting Criminology and Criminal Justice 2023

this book covers research design and methodology from a unique and engaging point of view based on accounts from influential researchers across the field of criminology and criminal justice most books and articles about research in criminology and criminal justice focus on how the research was carried out the data that were used the methods that were applied the results that were achieved while these are all important they do not present a complete picture envisioning criminology researchers on research as a process of discovery aims to fill that gap by providing nuance the back story of why researchers selected particular problems how they approached those problems and how their background training and experience affected the approaches they took as the contributions in this book demonstrate research is not a cut and dried process as all too many methods books imply but a living breathing and in some ways quirky process that is influenced by non scientific factors the path taken by a researcher is important and an appreciation of his or her background experience knowledge and the setbacks and triumphs of performing the research provides a much more complete picture of how research is done the twenty eight chapters in this book describe the back stories of their authors which serve to enlighten readers about the interplay between the personal and the methodological while primarily aimed as a textbook this work will also be of interest to researchers in criminology and criminal justice and related social and behavioral science fields as an account of how seminal researchers in the field developed their key contributions

Fundamentals of Research in Criminology and Criminal Justice + Using SPSS for Social Statistics and Research Methods 2009-05-01

this handbook presents a series of essays that captures not the past of criminology but where theoretical explanation is headed the volume is replete with ideas discussions of substantive topics with salient theoretical implications and reviews of literatures that illuminate avenues along which theory and research evolve

Crime Prevention in the 21st Century 2016-08-27

comprehensive critical and accessible criminology a sociological introduction offers an authoritative overview of the study of criminology from early theoretical perspectives to pressing contemporary issues such as the globalisation of crime crimes against the environment terrorism and cybercrime authored by an internationally renowned and experienced group of authors in the department of sociology at the university of essex this is a truly international criminology text that delves into areas that other texts may only reference it includes substantive chapters on the following topics histories of crime theoretical approaches to crime and the issue of social change victims and victimisation crime emotion and social psychology drugs alcohol health and crime criminal justice and the sociology of punishment green criminology crime and the media terrorism state crime and human rights the new edition fuses global perspectives in criminology from the contexts of post brexit britain and america in the age of trump and from the global south it contains new chapters on cybercrime crimes of the powerful organised crime life course approaches to understanding delinquency and desistance and futures of crime control and criminology each chapter includes a series of critical thinking questions suggestions for further study and a list of useful websites and resources the book also contains a glossary of the criminological terms and concepts used in the book it is the perfect text for students looking for a broad critical and international introduction to criminology and it is essential reading for those looking to expand their criminological imagination

Criminology 2000-07

this is the first book to trace scholarly influence in criminology and criminal justice over a twenty year time period it is based primarily on the analysis of citations in major journals but it also includes studies of publication productivity this book shows that over a twenty year time period the most influential topics in major criminology and criminal justice journals were either concerned with developmental life course or longitudinal criminal career research or were expositions of major theories because of its identification of the most cited scholars the most cited books and articles and the most prolific publishers this book will be of

interest to all scholars and students in criminology and criminal justice and allied fields in addition its conclusions about the most application of multivariate calibration and nir

influential theories and research should be of interest to policy makers practitioners and funding agencies
