The British National Bibliography

1972

containing more than one third of the world s bird species the neotropical region surpasses all other zoogeographic regions in the diversity of its avian fauna though the exploration and cataloging stages of ornithology are now virtually complete new species and undescribed subspecies of birds are still occasionally discovered in this manual emmet r blake has drawn on his experience of forty eight years in the field and laboratory to prepare a comprehensive detailed and authoritative synopsis of the avifauna of tropical america as now known

Manual of Electrical Undertakings

1952

this manual is a unique and comprehensive collection of practical operating instructions and engineering fundamentals of photogrammetry it includes references to all the important applications of the science as currently employed in the united states of primary importance is the fact that the manual provides in one volume for the use of professional workers in photogrammetry the current american practices for construction of maps including large scale engineering type plans standard topographic quadrangles and small scale reconnaissance and planning charts dust jacket

The Cumulative Book Index

1973

where the eastern and western currents of american life merge as smoothly as one river flows into another is a place called nebraska there we find the platte a river that gave sustenance to the countless migrants who once trudged westward along the mormon and oregon trails we find the sandhills a vast region of sandy grassland that represents the largest area of dunes and the grandest and least disturbed region of mixed grass prairies in all the western hemisphere and below it all we find the ogallala aquifer the largest potential source of unpolluted water anywhere ø these ecological treasures are all part of the nature of nebraska with characteristic clarity energy and charm paul a johmsgard guides us through nebraska s incredible biodiversity introducing us to each ecosystem and the flora and fauna it sustains and inviting us to contemplate the purpose and secrets of the natural world as we consider our own roles and responsibilities in our connection with it

Robert D. Fisher Manual of Valuable and Worthless Securities

1975

a complete reference to all the sharks inhabiting north american waters with excellent color illustrations of all the species

Moody's Manual of Investments

1961

popular science gives our readers the information and tools to improve their technology and their world the core belief that popular science and our readers share the future is going to be better and science and technology are the driving forces that will help make it better
