Every digicat book has been carefully reproduced for republishing in a new modern format. The books are available in print as well as ebooks. Digicat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature.

Essays of a Modern Mystic 2011-04

It would not be an exaggeration to say that during the last century, most especially during and since the 1960s, the language of spirituality has become one of the most significant ways in which the sacred has come to be understood and judged in the West and increasingly elsewhere. Whether it is true that spirituality has eclipsed religion in Western settings remains debatable. What is incontestable is that the language of spirituality together with practices most noticeably spiritual, complementary and alternative medicine has become a major feature of the sacred dimensions of contemporary modernity. Equally incontestably, spirituality is a growing force in all those developing countries where its presence is increasingly felt among the cosmopolitan elite and where spiritual forms of traditional complementary and alternative medicine are thriving. This new four-volume major work collection from Routledge provides a coherent compilation of landmark texts which cannot be ignored by those intent on making sense of what is happening to the sacred as spirituality more exactly what is taken to be spirituality develops as an increasingly important lingua franca. Series of practices and as a humanistic ethicality.

originally published under title power of modern spirituality your guide to a life of compassion and personal fulfilment london piatkus 2011

Spirituality in the Modern World 2012

yves congar 1904 1995 a french dominican theologian was a prophet in the church of the mid 20th century persecuted in the 1950s only to become perhaps the single most formative influence on vatican ii this volume provides real insight and fresh hope for those concerned to breathe new life into the church of the 21st century

The Power of the New Spirituality 2012

spirituality can be understood within both a religious and secular context fuelled by the controversy that surrounds different understandings of human identity and notions of progress knowledge and truth in modernist and postmodernist contexts the concept of spirituality is a hotly contested topic of debate as to its relevance within contemporary culture and its meaning within religious traditions this book aims to inform readers on this debate and contextualize it within these different frames of reference it approaches the topic of spirituality with an identification of the major influences on contemporary thinking and presents a coherent framework of understanding that links divergent thinking into a common goal writings range across different thinkers and practitioners within established religious tradition contemporary movements and those who operate within psychological and secular understandings focusing on the question what does it mean to be human this engaging study attempts to overcome the divide between secular and religious understandings of spirituality

replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

English Spirituality 2001

as many as 100 billion neurons make up the human nervous system a system that is incredibly complex and a fundamental part of what makes us who we are but there is far more to human beings than biology many academic disciplines study the human condition and there are many schools of thought within that study we must also appreciate that the study of human nature did not begin in contemporary times history is full of texts that offer detailed explorations of the human condition however no consensus has yet emerged consensus or not those working towards religious and spiritual formation pursue the transformation of their communities this book offers a fuller understanding of some of the common views of human nature and also insights into how we might utilise this knowledge in our ministries ministries that strive towards the spiritual being and becoming of our world

St. Thérèse of Lisieux 2003

in mystical theology and contemporary spiritual practice several leading scholars explore key themes within the christian mystical tradition contemporary and historical the overall aim of the book is to demonstrate the relevance of mystical theology to contemporary spiritual practice attention is given to the works of baron von hugel vladimir lossky margery kempe ludwig wittgenstein thomas merton and francisco de osuna as well as to a wide range of spiritual practices including pilgrimage spiritual direction contemplative prayer and the quotidian spirituality of the new monasticism christian mystical theology is shown to be a living tradition which has vibrant and creative new expressions in contemporary spiritual practice it is argued that mystical theology affirms something both ordinary and extraordinary which is fundamental to the christian experience of prayer
