The Constitution of Markets 2001

economists typically treat government as something outside the business realm a sort of lord of the manor richard wagner argues that this is the wrong approach and can ultimately be destructive to capitalism and to society modern governments are a peculiar form of business enterprise they face the same problems as regular businesses such as ascertaining demand and organizing production and act within the system in a way that can lead to a parasitical relationship with the market largely rooted in political economy this book develops new theoretical ideas and formulations to explain why democracy is a difficult form of government to maintain the author explores how and why limited governments can morph into a system of destructive politics and looks at ways to escape this process this dynamic book will be useful for public choice scholars economists political scientists and lawyers who are interested in political economy in its various guises

Global Political Economy in the Information Age 2007

world financial orders challenges the predominance of neo liberalism as a mode of knowledge about contemporary world finance and claims that it neglects the social and political bases as well as the malign consequences of change he looks to the field of international political economy ipe to construct an alternative mode one that critically restores society and politics an historical approach to ipe is advanced that accounts for modern world finance since the seventeenth century as a succession of structurally distinct hierarchical social orders this book will be of interest to those working in the field of ipe and to those scholars researchers and students from across the social sciences who seek to challenge the common sense neo liberal explanation of contemporary world finance
