An End to Poverty? 2008-02

in the 1790s for the first time reformers proposed bringing poverty to an end inspired by scientific progress the promise of an international economy and the revolutions in france and the united states political thinkers such as thomas paine and antoine nicolas condorcet argued that all citizens could be protected against the hazards of economic insecurity in an end to poverty gareth stedman jones revisits this founding moment in the history of social democracy and examines how it was derailed by conservative as well as leftist thinkers by tracing the historical evolution of debates concerning poverty stedman jones revives an important but forgotten strain of progressive thought he also demonstrates that current discussions about economic issues downsizing globalization and financial regulation were shaped by the ideological conflicts of the late eighteenth and early nineteenth centuries paine and condorcet believed that republicanism combined with universal pensions grants to support education and other social programs could alleviate poverty in tracing the inspiration for their beliefs stedman jones locates an unlikely

source adam smith paine and condorcet believed that smith s vision of a dynamic commercial society laid the groundwork for creating economic security and a more equal society but these early visions of social democracy were deemed too threatening to a europe still reeling from the traumatic aftermath of the french revolution and increasingly anxious about a changing global economy paine and condorcet were demonized by christian and conservative thinkers such as burke and malthus who used smith s ideas to support a harsher vision of society based on individualism and laissez faire economics meanwhile as the nineteenth century wore on thinkers on the left developed more firmly anticapitalist views and criticized paine and condorcet for being too bourgeois in their thinking stedman jones however argues that contemporary social democracy should take up the mantle of these earlier thinkers and he suggests that the elimination of poverty need not be a utopian dream but may once again be profitably made the subject of practical political and social policy debates

AMER DEBATE 2016-08-24

examine new trends in the writing of new history and what they mean to information science history has been devalued causing a lack of career prospects for historians a decrease in vocations to the history profession and historical discontinuity between generations history under debate international reflection on the discipline is a recap of the crucial second international historia a debate conference held on july 17 1999 in santiago de compostela this book details the comparative critical perspectives on history historians their audiences and the coming trends that will inevitably impact information science the in depth examination provides innovative approaches to historians as they redefine their discipline in relation to the global society of the new millennium while presenting invaluable insights for librarians social scientists and political scientists history under debate international reflection on the discipline examines how the writing of history in the twenty first century is revitalized by international comparative historiography thanks to new technologies and the multinational integration processes in economy politics culture and academics the first section discusses the historia a debate had forum and movement detailing the need for change to restore history as a vital global subject in modern times the remainder of the book consists of reflective and comparative views on the study of history and historiography as well as history in and about spain and its relation to the rest of the world the book explores new ways for moving the discipline beyond sources and source criticism alone to a different concept of the historical profession as a science with a human subject that discovers the past as people construct it included in this book is the english translation of the had manifesto a proposal designed to unify historians of the twenty first century and ensure a new dawn for history its writings and its teachings history under debate international reflection on the discipline includes vital discussions on linguistic turn postmodernism and deconstruction gender studies and social history objectivity and subjectivity in historical interpretation multiple views of history from differing times and places history as criticism literature and reconstruction history under debate international reflection on the discipline is an essential resource that teaches historians librarians social scientists and humanists how to use cross border development and new global historiographic networks to bring hope for a future in history

THEORY & PRAC OF ARGUMENTATION 2016-08-27

this volume which gathers contributions presented at the annual conferences of l association pour le développement de l histoire culturelle adhc questions the subjects and boundaries of cultural history in france with regard to neighboring approaches such as cultural studies media studies and gender studies to elaborate a social history of representations historians philosophers and sociologists address a large variety of topics and methodological proposals definitions objects and actors memories and cultural transfers this book depicts the major questions that underlie the historical debate at the beginning of the 21st century

Cultural History in France 2019-06-27

the expression son of man used in the gospels almost exclusively by Jesus has been the object of intensive study since the Protestant Reformation yet scholars have come to no agreement on its origin or meaning research in this area has been described as a veritable mine field and a can of worms because of the scope and complexity of the literature no comprehensive survey of the subject has been written in the twentieth century Delbert Burkett's book fills this need it provides a comprehensive historical overview of the debate from the patristic period to 1996 and gives an evaluation of that research and a summation of the present state of the question Burkett concludes that despite nineteen centuries of son of man study there is no consensus concerning the meaning or origin of the expression the debate is therefore a prime example of the limits of New Testament scholarship

Debate Index 2016-05-16

in the last decades there has been an intense debate on the relationship between literature and historiography often linked to the debate between empiricists and postmodernists the aim of this collective work is to address this debate and to search for new ways of thinking and encountering the past the key note for the book comes from hayden white one of the leading academic figures whose role in launching the contemporary history literature debate has been crucial it is followed by three critical readings of his work all suggesting new ways to apply or challenge his views in other chapters of the book history literature question is then addressed from three points of view narrativity history as literature and literature as history tropes for the past is an ideal introduction to the literature historiography debate and hayden white s role in it it will be of use for all students and scholars in the philosophy of history and in historically oriented literary cultural and social studies

Tropes for the Past 2006

a historiographical examination of treatments of the civil war from those that were engaged in it to those of the 1990s the author argues for the centrality of racial assumptions both in the actual conflict and in conflicting interpretations he traces how the historians attitudes and assumptions were partly dictated by time and place and points to an overarching theme of the suppression of the centrality of race in the period following the end of reconstruction in 1877 and before the emergence of the civil rights movement of the 1950s distributed by st martin s press annotation copyrighted by book news inc portland or

The American Debater 2015-12-05

this book deals with the various types of revolutionary history and the numerous schools of historical thought concerned with the french revolution by the time of the bicentenary celebrations in 1989 the historiographical field had been opened up so much that it was impossible to speak with certainty about any kind of new orthodoxy at all the fact that the decade and a half following the bicentenary offered up its own hotchpotch of theorising merely confirmed this the survey of writings presents a cross section of historians of the revolution from the early nineteenth century right up to the present day from liberals to conservatives and from marxists to revisionists it focuses on those individuals who are generally perceived to be the major or pre eminent figures within revolutionary historiography a history of the histories this book will be an ideal starting point for those students seeking to better understand the french revolution and its history
