Register of the Commissioned and Warrant Officers of the United States Navy and Marine Corps 1950

government secrecy presents the best that has been thought and written on the subject including history and philosophy theory and practice justification and critique through readings which range from georg simmel on secrecy and max weber on bureaucracy and secret keeping to post 9 11 concerns regarding freedom of information and presidential secrecy it enables readers to explore the issues and questions that surround the government s right to keep necessary secrets or not this collection and the diverse perspectives it represents will engage students and other interested parties in a discussion of the benefits and dangers of government secrecy the collection is designed to generate questions regarding historical accuracy of government information information ethics professional neutrality ownership of information public right to information national security and transparency the essays explore the criteria and conditions for government secret keeping as well as contributing to public and academic discussion of the role of secrets in democracies

Register of Commissioned and Warrant Officers of the United States Navy and Marine Corps and Reserve Officers on Active Duty 1958

in the last decades the united states army has often been involved in missions other than conventional warfare these include low intensity conflicts counterinsurgency operations and nation building efforts although non conventional warfare represents the majority of missions executed in the past sixty years the army still primarily plans organizes and trains to fight conventional ground wars consequently in the last ten years there has been considerable criticism regarding the military s inability to accomplish tasks other than conventional war failed states and the threat they represent cannot be ignored or solved with conventional military might in order to adapt to this new reality the u s army must innovate this text examines the conditions that have allowed or prevented the u s army to innovate for nation building effectively by doing so it shows how military leadership and civil military relations have changed nation building refers to a type of military occupation where the goal is regime change or survival a large number of ground troops are deployed and both military and civilian personnel are used in the political administration of an occupied country with the goals of establishing a productive economy and a stable government such tasks have always been a challenge for the u s military which is not normally equipped or trained to undertake them using military effectiveness as the measurement of innovative success the book analyzes several u s nation building cases including post world war ii germany south korea from 1945 1950 the vietnam war and operation iraqi freedom by doing so it reveals the conditions that enabled military innovation in one unique case germany while explaining what prevented it in the others this variation of effectiveness leads to examine prevailing military innovation theories threat based accounts quality of military organizations and civil military relations this text comes at a critical time as the u s military faces dwindling resources and tough choices about its force structure and mission orientation it will add to the

growing debate about the role of civilians military reformers and institutional factors in military innovation and effectiveness
