194 pages and more than 240 illustrations and charts size 8 25 x 10 75 inches in 1945 after the war had ended bsa resumed production of their civilian line of motorcycles however they continued their pre war practice of publishing repair overhaul and technical information in the form of individual service sheets these sheets were dealer only publications and as such the print quality was at times somewhat questionable it was not until the early 1960 s that bsa eventually started publishing model specific workshop manuals that were available to the general public consequently these service sheets were the only publications available for the maintenance and repair of bsa models that were manufactured through the early 1960 s at some point in the 1930 s bsa adopted the practice of identifying their various model types by groups and the models manufactured from 1945 through the mid 1960 s were in groups a b c d and m the service sheets that were associated to a particular group were identified numerically and while there were some exceptions due to overlapping data between models in general terms the numbers relate to a particular model group they are as follows the 200 series of service sheets were applicable to group a models the 300 series to group b the 400 series to group c the 500 series to group d and the 600 series to group m in addition there were a 700 series applicable to mechanical maintenance and an 800 series for electronic service and wiring diagrams both the 700 and 800 series of service sheets contained information that was not model specific but was applicable across multiple model groups unfortunately as these service sheets were issued individually and at random times the numbering sequence within any group is at times illogical and not necessarily consecutive consequently assembling those individual sheets into a publication that serves as a model specific workshop manual is a somewhat difficult task and owners of bsa motorcycles are subjected to considerable confusion surrounding the appropriate selection from the multitude of reprints that have recently flooded the on line marketplace many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling many are nothing more than poor quality comb bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished in addition they are often advertised for the incorrect series and or model years of motorcycles the most complete compilation of the 1945 and onwards service sheets was issued by bsa in the form of a dealer only ring binder that contained all of the individual service sheets totaling to almost 500 pages it is extremely scarce and difficult to find this manual contains 59 service sheets 190 pages extracted from that dealer only publication which cover the 1945 to 1960 pre unit rigid plunger and swing arm b31 b32 b33 and b34 plus gold star and competition models please note that service sheets other than those in the 300 series that are included in this publication may also contain data that is applicable to other model groups as that was the original intention for additional information the reader is directed to the book of the bsa 250cc 350cc 500cc 600cc ohv sv singles 1945 to 1959 isbn 9781588502292 which covers the b31 b32 b33 b34 c10 c11 c11dl m20 m21 m33 models for later models see the book of the bsa ohv singles 350cc 500cc 1955 1967 isbn 9781588501561 which covers the b31 b32 b33 b34 star b40 ss90 this full color book covers every aspect of one of the best loved classic racing machines from its beginnings back in small heath though the brooklands days trials the café racer scene to the classic scene of today lavishly illustrated american motorcyclist magazine the official journal of the american motorcyclist association tells the stories of the people who make motorcycling the sport that it is it s available monthly to ama members become a part of the largest most diverse and most enthusiastic group of riders in the country by visiting our website or calling 800 ama join ÿ in his first book a dockyard apprentice s story robert smith nige to his mates told of his formative years as a young trainee in chatham dockyard where he trained as an engine fitter and turner the technical progressman was set in the 1960s taking up the story from the point where bob transferred to the weapons section as a technical progressman now bob has added a third and final part about his post dockyard adventures working with the royal aircraft establishment rae and in posts with the mod and government agencies and published the whole story in one volume the full story of his career is packed with interesting stories and bob s sense of humour shines through more than 550 illustrations and charts size 8 25x10 75 inches in 1945 after the war had ended bsa resumed production of their civilian line of motorcycles however they continued their pre war practice of publishing repair overhaul and technical information in the form of individual service sheets it should be noted that bsa never intended that these service sheets would be distributed to the general public they were dealer only publications and the print quality was at times somewhat

questionable it was not until the early 1960 s that bsa eventually started publishing model specific workshop manuals that were available to the general public consequently these service sheets were the only publications available for the maintenance and repair of bsa models that were manufactured through the mid 1960 s the most complete compilation of the 1945 and onwards service sheets was issued by bsa in the form of a dealer only ringbinder that contained 166 individual service sheets 516 pgs for the entire range of 1945 thru 1967 motorcycles it is extremely difficult to find it is this ring bound publication that was used to create this service sheets master catalogue it includes every service sheet issued updated by bsa from 1945 until the service sheet program was discontinued in the mid 1960 s models covered are as follows a7 a10 1947 62 b31 b32 b33 and b34 1945 60 inc gold star competition models c10 c10l c11 c11g and c12 1945 58 c15 c15t c15s c15ss and b40 1958 67 d1 d3 d5 and d7 bantam 1948 66 m20 m21 and m33 1945 63 dandy 1956 62 at some point in the 1930 s bsa adopted the practice of identifying their various model types by groups and the models manufactured from 1945 through the mid 1960 s were in groups a b c d and m the service sheets that were associated to a particular group were identified numerically and while there were some exceptions due to overlapping data between models in general terms the numbers relate to a particular model group they are as follows the 200 series of service sheets were applicable to group a models the 300 series to group b the 400 series to group c the 500 series to group d and the 600 series to group m in addition there were a 700 series applicable to mechanical maintenance and an 800 series for electronic service and wiring diagrams both the 700 and 800 series of service sheets contained information that was not model specific but was applicable across multiple model groups finally there were a 900 series for the bsa dandy and a 1000 series for the bsa sunbeam and triumph tigress scooter the 1000 series sheets were published under the generic title scooter service sheet these sheets did not display either company logo and they were never intended to be included in the ring bound dealer album unfortunately as these service sheets were issued individually and at random times the numbering sequence within any group is at times illogical and not necessarily consecutive consequently owners of bsa motorcycles are subjected to considerable confusion surrounding the appropriate selection from the multitude of reprints that have recently flooded the online marketplace many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling many are nothing more than poor quality comb bound photocopies that are scanned and printed complete with greasy pages and thumbprints and are deceptively described as pre owned used or even refurbished in addition they are often advertised for the incorrect series and or model years of motorcycles this maintenance handbook is in its complete and unabridged original form extensively illustrated and full of instruction that is as useful and practical today as it was when originally published a must have for anyone with an interest in these classic motorcycles contents include preface handling a b s a all about carburation care of lighting system b s a lubrication general maintenance swinging arm models many of the earliest books particularly those dating back to the 1900s and before are now extremely scarce and increasingly expensive we are republishing these classic works in affordable high quality modern editions using the original text and artwork bsa was once the world s most successful motorcycle company manufacturing more machines than any other in the world by the mid 1950s and yet after winning the queens award to industry for exports in 1967 and 1968 it collapsed into bankruptcy in 1973 this is an epic story of rise and fall even by the precarious standards of the british motorcycle industry with over 170 illustrations this book recalls the founding of the company and its foray into bicycle and then motorcycle production it describes the evolution of the various models of motorcycles including specification tables and discusses the diversification into cars commercial vehicles and guns for spitfires it recounts the successes two maudes trophies and numerous racing victories and documents the fall from grace to bankruptcy and beyond associated motor cycles amc produced some of the most iconic british bikes of the 1940s and 1950s badged as either ajs or matchless the range covered everything from plodding ride to work four stroke singles weekend racers two stroke motocrossers and full blown grand prix contenders illustrated with over 200 photographs this comprehensive account looks at the history and development of the single and twin cylinder ranges the racing bikes technical details of all major models and owning and riding ajs and matchless bikes today an invaluable resource for the amc enthusiast and motorcycle historians superbly illustrated with over 200 colour and black white photographs
