~~Successful Lab Reports 1992-02-28 shows science students how to write a clear  
and to the point laboratory report~~

*Reports from Commissioners* 1875 one hundred years ago abraham flexners report  
on medical education in the united states and canada helped establish the  
modern paradigm of premedical and medical education barr s research finds the  
system of premedical education that evolved to be a poor predictor of  
subsequent clinical competency and professional excellence while  
simultaneously discouraging many students from under represented minority  
groups or economically disadvantaged backgrounds from pursuing a career as a  
physician analyzing more than fiftyyears of research barr shows that many of  
the best prospects are not being admitted to medical schools with long term  
adverse consequences for the u s medical profession book jacket
