ramanujan s method

Nov 10 2022

ramanujan s method during his short life 1887 1920 ramanujan independently compiled nearly 3900 results mostly identities and equations nearly all his claims have now been proven correct although a small number of these results were actually false and some were already known

2406 19339 rational empirical interpolation methods with

Oct 09 2022

we present a rational empirical interpolation method for interpolating a family of parametrized functions to rational polynomials with invariant poles leading to efficient numerical algorithms for space fractional differential equations parameter robust preconditioning and evaluation of matrix functions compared to classical rational approximation algorithms the proposed method is more
