**Art and Industry** 1892 don t send your kids off to college without this book especially if they will be engaged in the sciences or philosophy the design of science evolution the environment and redemption will clarify the differences scientific basis and logical foundation for the two most dominating and competing worldviews we have adopted in western society nowadays namely science and religion after reading this book you will be able to better understand articulate and defend what you believe and why as a society in general we need to understand the basis of our morality and culture and how science and religion each have a role to play just a few of the types of questions answered are is there really competition and conflict between science and religion what is the technological and philosophical scope of science how does our worldview affect the development of morality and virtue both individually and collectively do we really need to be concerned about global environmental changes which type of worldview does the best job of providing answers to the tough questions on origin purpose environmental issues morality government and eternity is a belief in god and the bible part of the evolutionary process written by a mechanical engineer with

more than thirty years of design and r d experience the design of science evolution the environment and redemption lays out in a clear concise easy to read and entertaining manner much of the science logic and data used by academia and the media to answer life s toughest questions as compared to the biblical judeo christian tradition this book explores how we can measure the truthfulness accuracy and scope of these worldviews and how they can affect us personally spiritually and culturally the answers are logically spiritually and technically robust as well as just plain surprising in many ways
