Miller Levine Biology Curriculum High School The respected author team of Ken Miller and Joe Levine are back with a new edition of biology books to inspire students to interact with trusted and up to date biology content. The authors' unique storytelling style engages students in biology with a greater focus on written and visual analogies. One program that ensures success for all students is the new Miller Levine Biology developed by two preeminent biologists, Ken Miller and Joe Levine. It immerses students in biological inquiry with a blended print and digital curriculum. Students think, investigate, and talk about biology. They interact with natural phenomena through problem-based learning, research, and lab experiments. Authors Kenneth Miller and Joseph Levine continue to set the standard for clear, accessible writing and up to date content that engages student interest. Prentice Hall Biology utilizes a student-friendly approach that provides a powerful framework for connecting the key concepts a biology student explores. Concepts are explored through engaging narrative, frequent use of analogies, familiar examples, and clear and instructional graphics. Whether using the text alone or in tandem with exceptional ancillaries and technology, teachers can meet the needs of every student at every learning level. A multilingual glossary can help introduce critical academic vocabulary to learners of any age in their native language, opening up a whole new world of understanding. Prentice Hall Biology utilizes a student-friendly approach that provides a powerful framework for connecting the key concepts of biology. New big ideas help all students focus on the most important concepts. Students explore concepts through engaging narrative, frequent use of analogies, familiar examples, and clear and instructional graphics. Now with Success Tracker™ online, teachers can choose from a variety of diagnostic and benchmark tests to gauge student comprehension. Targeted remediation is available too, whether using the text alone or in tandem with exceptional ancillaries and technology. Teachers can meet the needs of every student at every learning level with unparalleled reading support resources to reach every student and a proven research-based approach. Authors Kenneth Miller and Joseph Levine continue to set the standard. Prentice Hall Biology delivers clear, accessible writing, up to date content, a student-friendly approach, a powerful framework for connecting key concepts, the diversity of life, the most respected and accomplished authorship team in high school biology. Ken Miller and Joe Levine are real scientists and educators who have dedicated their lives to scientific literacy. Their experience, knowledge, and insight guided them in creating this Breakaway Biology program, one that continues to set the standard for clear, accessible writing.
