by the twentieth century north carolina s progressive streak had strengthened thanks in large part to a growing number of women who engaged in and influenced state and national policies and politics these women included gertrude weil who fought tirelessly for the nineteenth amendment which extended suffrage to women and founded the state chapter of the league of women voters once the amendment was ratified in 1920 gladys avery tillett an ardent democrat and supporter of roosevelt s new deal became a major presence in her party at both the state and national levels guion griffis johnson turned to volunteer work in the postwar years becoming one of the state s most prominent female civic leaders through her excellent education keen legal mind and family prominence susie sharp in 1949 became the first woman judge in north carolina and in 1974 the first woman in the nation to be elected and serve as chief justice of a state supreme court throughout her life the reverend dr anna pauline pauli murray charted a religious literary and political path to racial reconciliation on both a national stage and in north carolina this is the second of two volumes that together explore the diverse and changing patterns of north carolina women s lives the essays in this volume cover the period beginning with women born in the late nineteenth and early twentieth centuries but who made their greatest contributions to the social political cultural legal and economic life of the state during the late progressive era through the late twentieth century

## Prevalence and Health Correlates of Alcohol Consumption Among Women in California

2001

the protein myth illustrates how we can avoid the major killer diseases by eliminating animal products from the diet it challenges the healthcare establishment to stop ignoring the scientific evidence that a diet based on animal protein costs millions of lives for example why do the national cancer institute and the american cancer society turn a blind eye to the scientific facts that avoiding animal protein could prevent many women from getting breast cancer by lowering their

oestrogen levels the book links the western diet to major problems facing the world such as 1 animal cruelty on factory farms 2 the pollution of our atmosphere rivers and streams 3 obesity in children 4 the needless vivisection of animals at university laboratories for the purpose of getting billions of tax dollars from the public 5 the manufacture of drugs to treat counterfeit diseases and 6 the creation of poverty in the developing world the protein myth makes a compelling case that the way to a healthier life and a better world is to end our abuse and exploitation of animals

Integrative Gastroenterology

2019-09-27

this is an extraordinary book riveting story concise scholarship experimental ethnography and it is beautifully told greenhalgh makes a cogent and powerful analysis of the sociopolitical sources of pain through feminist cultural and political understandings of the nature of medical science and medical practice in the united states sharon kaufman author of the healer s tale far above a simple telling of an illness greenhalgh takes the experience as a way to view gendered relations in medical care the seduction of science for the physician and the patient and the creation of facts and selves in the treatment of pain she sets a new standard for the practice of autoethnography virginia olesen professor emerita of sociology department of social and behavioral sciences school of nursing university of california san francisco a compellingly told story that advances our understanding of the meaning of chronic illness particularly for women this work adds a new dimension to the genre of illness narratives susan digiacomo series editor theory and practice in medical anthropology and international health a very useful and very well written book it states the issues in the culture of biomedicine field effectively and makes them relevant arthur kleinman author of writing at the margin discourse between anthropology and medicine a deeply troubling meticulous account about the chasm between medical orthodoxy and the subjective experience of chronic illness this courageous book is essential reading for physicians and the public at large margaret lock author of encounters with aging mythologies of menopause in japan and north america
