Long-Term Care for Frail Older People 2012-12-06

long term care is an increasingly important issue in many contemporary welfare states around the globe given ageing populations this ground breaking book provides detailed case studies of 11 eu member states welfare regimes within europe to show how welfare states organize structures and deliver long term care and whether there is a social investment perspective in the delivery of long term care this perspective is important because the effect of demographic transitions is often used as an argument for the existence of economic pressure on welfare states and a need for either direct retrenchment or attempts to reduce welfare state spending the book s chapters will look specifically into how different welfare states have focussed on long term care in recent years and what type of changes have taken place with regard to ageing populations and ambitions to curb increases in public sector spending in this area they describe the development in long term care for the elderly after the financial crisis and also discuss the boundaries between state and civil society in the different welfare states approaches to the delivery of care

Long-term Care for the Elderly in Europe 2016-12-01

florida has the largest proportion of elderly in the nation 2 8 million persons are over age 65 representing 17 6 of its total population the dramatic rise in the number of persons age 65 and over in florida over the next 20 years estimated to total 26 3 of total population will further stretch the already limited resources of the state aware of the pressing demand for long term care services well into the 21 century policymakers in florida have begun seriously to review options for improving financing and delivery of long term care for the frail elderly and persons with disabilities federal and state medicaid spending in florida was 2 6 billion in fy2001 and 30 5 of medicaid spending was for long term care in fy2001 75 3 of total medicaid spending was for institutional care slightly less than 25 of medicaid spending was channeled towards home and community based services although institutional care dominated medicaid spending there has been slow but steady expansion of home and community based services funding both through the use of medicaid s waiver programs as well as significant support through state sources among the major issues facing long term care in florida are the fragmentation of long term care services among state and local agencies an imbalance in financing that favors institutional care rather than home and community based care shortage of health care workers and well trained staff throughout the long term care and disparities in availability of services across the

state

Matching People with Services in Long-term Care 1987

there is a looming crisis in our nation s capacity to provide long term care the needs keep increasing while more and more of our aging seniors and large numbers of disabled can no longer gain access to affordable care the markers are serious more than one half of americans age 65 and older are expected to need help with activities of daily living whether in a nursing home assisted living facility or at home u s seniors are projected to outnumber children under 18 by 2035 dementia increases as our population ages expected to involve almost 40 percent of people over age 85 one in four americans has a major disability and there is a growing shortage of caregivers regardless of our age and current circumstances all of us will face the need for long term care for a parent another family member or ourselves down the road

when that time comes it is an open question whether most of us will be able to gain access to personal affordable long term care when we need it this book examines the many issues involved in charting a way toward a system of universal coverage that will fix the challenge of long term care
