after the fall of the ottoman empire mustafa kemal ataturk s government encouraged substantial american investment in education and aid it was argued that turkey needed the technical skills and wealth offered by american education and so a series of american schools was set up across the country to educate the turkish youth here ali erken in the first study of its kind argues that these organizations had a huge impact on political and economic thought in turkey acting as a form of soft power for us national interests throughout the 20th century robert college originally a missionary school founded by us benefactors has been responsible for educating two turkish prime ministers writers such as orhan pamuk and a huge number of influential economists politicians and journalists the end result of these american philanthropic efforts erken argues was a consensus in the 1970s that the country must westernize this mindset and the opposition viewpoint it engendered has come to define political struggle in modern turkey torn between a capitalist modern west and an islamic ottoman east the book also reveals how and why the rockefeller and ford foundations funneled large amounts of money into turkey post 1945 and undertook activities in support of western candidates in turkey as a bulwark against the soviet union this is an essential contribution to the history of us turkish relations and the influence of the west in turkish political thought

a comprehensive readable history of the republic of turkey that gives equal weight to all periods in the first century of the republic of turkey the republican order of turkey seems not to have changed much since its foundation in 1923 but there were dramatic transformations from atatürk s modernization dictatorship in the 1920s and 1930s over the massive migration into the cities and the military coups in the second half of the twentieth century up to recep taysyip erdoğan s electoral autocracy since the 2010s this book makes us understand turkey s historical trajectory in the nineteenth and twentieth centuries and the fate of its various communities and ethnic groups in particular alevis and kurds and argues that a particular trait of turkish political culture is its constant fluctuation between confidence and contention grandeur and grievance

The Kosovar Turks and Post-Kemalist Turkey 2016-11-30

even before the collapse of the ottoman empire turkic communities living in states newly independent from ottoman rule were protected by the ottomans with the creation of the new turkish republic the notion of outside turks became embedded in a new foreign policy which aimed to unite these communities with whom kemalist turkey claimed to share ethnic origin to the homeland after 1980 and particularly during the

justice and development party rule the country s domestic agenda however was transformed to imagine outside turks along cultural and religious lines rather than in a purely ethnic sense husrev tabak provides a foreign policy analysis to account for this vital shift arguing that four post kemalist norms are responsible ottomania de ethnicized nationhood turkish islam and islamic internationalism by focusing on the case of the kosovar turks the book reveals that the post kemalist move to re imagine outside turkish communities was largely counterproductive in losing turkey as a secure point of reference for their ethnic identity these communities began to fashion a nationalism which gained a reactionary character the kosovar turks now more vehemently embrace kemalist attitudes and discourses and their sense of turkish ethnicity has been sharpened in tracing the impact of norm changes within turkey on ethnic turks beyond turkey the book illustrates the way in which domestic norms can be used as a significant foreign policy analysis tool the kosovar turks and post kemalist turkey will therefore be essential reading for those interested in turkey s foreign policy and post kemalism as well as those researching the ongoing impact of the ottoman empire s multinational multicultural legacy

Taner Akçam is one of the first Turkish academics to acknowledge and discuss openly the Armenian genocide perpetrated by the Ottoman Turkish government in 1915. This book discusses Western political policies towards the region generally and represents the first serious scholarly attempt to understand the genocide from a perpetrator rather than victim perspective and to contextualize those events within Turkey's political history by refusing to acknowledge the fact of genocide. Successive Turkish governments not only perpetuate massive historical injustice but also pose a fundamental obstacle to Turkey's democratization today.

Drawing on a variety of sources ranging from interviews with key figures to unpublished archival material, Saban Halis Çalis traces this ambition back to the 1930s. In doing so, he demonstrates that Turkey's policy has been shaped not just by US and Soviet positions but also by its own desire both to reinforce its Kemalist character and to Westernize. The Cold War therefore can be seen as an opportunity for Turkey to realize its long-held goal and align itself economically and politically with the West. This book will shed new light on the Cold War and Turkey's modern diplomacy and re-orientate existing understandings of modern Turkish identity and its diplomatic history.

first published in 1993 from time to time the outbreak of hostilities in some part of the world or other brings to the notice of the western media peoples of whose very existence they have previously been unaware we may mention two such which have made headlines in 1989 and 1990 the turks of bulgaria and the azerbaijanis of the soviet union and iran too frequently however in interpreting such events observers tend to attribute the conflict to the one factor which happens to be fashionable at the time currently that factor seems to be religion too rarely do they observe other differences which may exist between the parties in conflict and which may in the end prove more potent for instance that the factor most likely to set people apart from each other as they go about their daily business may not be religion at all but language as an example of this too few have pointed out that the azerbaijanis of the soviet union differ from the neighbouring armenians not only in religion but also in language and that this contrasts with the situation over the border where the azerbaijanis of iran differ from neighbouring iranians only in language in speaking turkic for they share with the majority persian population their shi ite muslim faith this volume holds a collection of essays on the turkic people in different countries
