science and our readers share the future is going to be better and science and technology are the driving forces that will help make it better popular mechanics inspires instructs and influences readers to help them master the modern world whether it s practical diy home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science pm is the ultimate guide to our high tech lifestyle popular mechanics inspires instructs and influences readers to help them master the modern world whether it s practical diy home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science pm is the ultimate guide to our high tech lifestyle only 100 years ago the main means of transportation in iran was by quadraped transportation technology in iran 1800 1940 by renowned iraninan studies scholar willem floor is an in depth illustrated four part study of the subject until the 1920s iran had no more than 700 kilometers of roads suitable for motor vehicles which situation greatly impeded iran s economic development caravans traveled 40 km day though travelers in a hurry could cover 150 km day when using the courier system chapar which is the subject of part 1 wheeled transportation in part 2 of the books was rare and limited to only a few parts of country due to the lack of roads this situation underwent change when carriages became popular in urban areas and on the few modern roads after 1890 motorized transportation grew in importance after 1921 and really took off in the 1930s with the construction of a new road network as a result newer more powerful trucks

reduced the cost of transportation significantly thus lowering the cost of retail goods the increase of motorized transport also meant that car dealers import rules mechanics garages supply of spare parts and gasoline distribution as well as traffic regulations had to be created ex nihilo all these processes are detailed in the book like cars bicycles and motorcycles also were increasingly used as of the 1920s thus increasing choice in people's mobility more road traffic also implied that travelers needed places to spend the night and eat the change from caravanserais to guest houses and hotels is discussed in part 3 these changes in transportation methods did not come alone for other modern tools of change such as the sewing machine and the typewriter also made their appearance and had a major impact on people's availability and use of time finally the piano made its entry onto the iranian musical scene and although not perfectly in tune with the traditional iranian musical system it is now as much part of music making in iran as the tar and santur part 4 of the book all these changes and new technologies did not happen overnight or without problems and slow adoption initially was limited to the upper class however with falling prices and changing needs and policies these new technologies eventually reached a larger public and the idea that they once were exotic and out of reach is now inconceivable to iranians the studies in this book provide a new vantage point and understanding of the transfer of modern technology for scholars of the social economic and cultural history of the middle east
