**A Survey of London; Volume 2** 2018-10-08 the city of london vol iv a club no more is the fourth and final volume of david kynaston s epic history of the square mile in the modern era this lively and informative book takes the story from the post war era when the city was hemmed in by bombsites and austere chancellors through to very recent developments such as the big bang deregulation of 1986 this is as much a social history as a financial study with interesting discussions of the changing class and complexion of the city and with fascinating details on the early computerisation of the big companies as with earlier volumes kynaston s style is that of an anecdotal storyteller colourful characters dramatic boardroom struggles and heated exchanges between politicians and bankers dominate the pages

The City Of London Volume 4 2015-02-28 illusions of gold the third volume of david kynaston s magnificent quartet the city of london sweeps us from 1914 to 1945 through years of fluctuating fortunes that began with the city at an all time high and ended with the square mile ravaged by bombs at its lowest ebb ever with unerring

judgement and story telling verve kynaston takes us through the city s vain attempt to recover the glory days before the first world war in the return to the gold standard he follows its tussles with government over control of monetary policy investigates its increasingly important links with british industry and gives a pioneering account of its controversial role in the politics of appeasement kynaston s great strength is his combination of vivid narrative with meticulous scholarship based on an unparalleled variety of unpublished sources the city of london is now hailed as one of the most ambitious and rewarding historical projects of recent times
