and religious choices from the prophets to the initiates and magicians all ages have drawn from a common source of ultra terrestrial and magical knowledge passed down for millennia this text reveals the identity of the unknown superiors secret chiefs and invisible masters who have guided freemasonry the illuminati and others zagami speaks of the existence of multidimensional doors used by the various illuminati to let other beings into our world while alluding to the latest discoveries of quantum physics for support this shocking text will be embraced by those willing to look beyond the everyday to analyze our world s most puzzling circumstances

after his master thesis of the secret societies network as outlined in volume i the confessions of an illuminati narrative of leo lyon zagami is projected to the reality of today including the occult maneuvers behind the new world order we need to wake up beyond our current belief systems because the controllers of the new world order are moving fast using the prophecies to their advantage to implement their evil plan by 2020 when world war iii will finally break loose the author demonstrates that the hierarchy of power emanating from rome and jerusalem with the jesuits and the zionist s united by a secret pact since the second vatican council are in cahoots working towards the creation of a world government there is also china playing a new role in the nwo with the far reaching tentacles of chinese freemasonry manipulating economic hit men and disinformation artists while russia is building their christian orthodox alliance to apparently oppose the western antichrist in this unprecedented scenario we also have the involvement of the big media moguls like ted turner and silvio berlusconi and their role in manipulating perceptions the author discusses further aspects of the satanic infiltration of freemasonry pointing out on the generational aspect the many ways of defending yourself psychically against black magicians but also against the many sects operating in the illuminati network
