Days? or Ages? the Genesis Question 2016-03-18 days or ages offers a fresh look at a centuries old debate does the bible say creation was accomplished within one week of time beginning a few thousand years ago or over countless millennia beginning millions or even billions of years in the distant past opinions abound from biblical scholars scientists and laypeople alike and achieving a clear perspective can be difficult at best this work summarizes a thorough examination of genesis 1 including relevant passages from other parts of the bible all in plain straightforward language rather than begin with assumptions as so many opinions do and from there select and interpret scriptures in such a way as to support a given view this work instead first provides a detailed examination of what scripture itself appears to reveal all scripture that bears on the issue and then examines what one might reasonably conclude although written by a layman it draws from a wealth of scholarly works by some of the worlds leading theologians and other learned professionals whatever ones opinion might be this thesis will be informative reading and a significant resource to help clear away some of the clouds of mystery surrounding one of the bibles most challenging subjects
