in the last few years there has been a great revival of interest in culture bound psychiatric syndromes a spate of new papers has been published on well known and less familiar syndromes and there have been a number of attempts to put some order into the field of inquiry in a review of the literature on culture bound syndromes up to 1969 yap made certain suggestions for organizing thinking about them which for the most part have not received general acceptance see carr this volume p 199 through the seventies new descriptive and conceptual work was scarce but in the last few years books and papers discussing the field were authored or edited by tseng and mcdermott 1981 ai issa 1982 friedman and faguet 1982 and murphy 1982 in 1983 favazza summarized his understanding of the state of current thinking for the fourth edition of the comprehensive textbook of psychiatry and a symposium on culture bound syndromes was organized by kenny for the eighth international congress of anthropology and ethnology the strong est impression to emerge from all this recent work is that there is no substantive consensus and that the very concept culture bound syndrome could well use some serious reconsideration as the role of culture specific beliefs and practices in all affliction has come to be increasingly recognized it has become less and less clear what sets the culture bound syndromes apart

scholars often accept without question that the indian act 1876 criminalized first nations in this illuminating book shelley gavigan argues that the notion of criminalization captures neither the complexities of aboriginal participation in the criminal courts nor the significance of the indian act as a form of law gavigan draws on court files police and penitentiary records and newspaper accounts and insights from critical criminology to interrogate state formation and criminal law in the saskatchewan region of the north west territories between 1870 and 1905 by focusing on aboriginal people s participation in the courts rather than on narrow categories such as the state and the accused gavigan allows aboriginal defendants witnesses and informants to emerge in vivid detail and tell the story in their own terms their experiences stand as evidence that the criminal law and the indian act operated in complex and contradictory ways that included both the mediation and the enforcement of relations of inequality
