The Higher National Certificate - 1952

1960

the scottish vocational education council s national certificate has its origins in the scottish education department s decision to rationalize the provision of certification for non advanced further education in scotland under one body this report presents case studies of assessments of students performed by colleges in scotland based on the innovative assessment design associated with the national certificate this paper is the second of two reports that discuss the findings of

the sed s research project on assessment in the national certificate development program focus is on the quality of assessment for summative purposes that is the procedures and instruments that were used to decide whether a student should be credited with having successfully completed a national certificate module topics addressed include the assessment model itself as well as its application to mathematics in a case study of one college stock control in a case study of two colleges communication in a case study of one college and electronics in a case study of two colleges the components of the system that seem most responsible for the quality of assessments include the institutions and procedures that have responsibility for the policy at the national level the process that determines the form and function of module descriptors and the policies and practices within colleges departments classrooms and workplaces where the assessments actually take place twenty three figures and tables are included tjh
