redefine the way you connect with the world around you every day we evaluate the people around us it s one of the most important things we ever do making sense of people provides the scientific frameworks and tools we need to improve our intuition and assess people more consciously systematically and effectively leading neuroscientist samuel h barondes explains the research behind each standard personality category extraversion agreeableness conscientiousness neuroticism and openness he shows readers how to use these traits and assessments to do a better job of deciding who they ll enjoy spending time with whom to trust and whom to keep at a distance barondes explains what neuroscience and psychological research can tell us about how personality types develop and cohere the intertwined roles of genes nurture and education in personality development how to recognize troublesome personality patterns such as narcissism sociopathy and paranoia how much a child s behavior predicts their adult personality and how personality stabilizes in young adulthood how

to assess integrity fairness wisdom and other traits related to morality what genetic testing may or may not teach us about personality in the future general strategies for getting along with people with specific tactics for special circumstances kirkus reviews a succinct look at personality psychology as a psychiatrist and neuroscientist at the university of california barondes molecules and mental illness 2007 etc has spent years studying human behavior and this book reflects his systematic scientific approach for personality assessment the average person isn't likely to have time to research a difficult boss or potential love interest but the author supplements intuition with a useful cornerstone for gauging human behavior a table of the big five personality traits among them extraversion vs introversion and agreeableness vs antagonism to learn how to apply the big five barondes supplies a link for a professional online personality test in addition to a basic introduction of troubling personality patterns e.g. narcissism and compulsiveness while genetics may play a heavy hand in influencing personality barondes writes it's awareness of a person's background character and life story that is paramount in unearthing reasons for adult behavior readers might like to see the author weave more everyday examples into the text his exercise in fostering compassion by imagining an adult as a 10 year old child is a gem but there is plenty here to ponder those looking for traditional self help advice won't find it here but this book clearly lays the groundwork for deeper human interaction and better life relationships have you ever wished that you could read minds have you ever struggled with reading people have you run into communication breakdowns that seem unresolvable well here it is your very own personality decoder this book will show you how to read people like open books say good bye to personality conflicts and communication issues say hello to easy relations with anyone and everyone by being able to read people's personalities you can achieve peace and harmony in all of your interpersonal relationships doesn't that sound like heaven all people are unique but people can be broken down into categories of different traits knowing what these traits are and how to recognize them in people is how you can decode who people are at heart quite easily you can read someone's personality based off of their behavior and stated preferences from there you can determine how to talk to someone how to seduce someone how to befriend someone even how to work better with someone you can also gain a better understanding of yourself this book will take you on a fascinating journey of self exploration as it shows you how to read your own difficult to think out of the box why different people perceive the same things differently how people get disillusioned into believing any nonsense when repeated often why it forms an illusion of reality in their mind decoding human psyche aims to answer many such questions related to human psychology it aims to help you understand why people believe what they believe and behave the way they behave to master the art of understanding people and relations and making sense of the world around us and make better choices the book also looks at how this psychological crisis delusional tendency is at the core of causation of all the crises like climate change that humanity is facing the best of behavioral psychology and how to use it on a daily basis people are not that complex once you know how they function at their most basic levels of motivation this book is how you become a veritable mind reader tons of science backed methods of decoding people s behaviors and words the science of reading people isn t a book that tells you about crossed arms eye contact and eyerolls that type of information is so basic it can be hidden no this book is about deep behavioral psychology and how it affects all of our actions and behaviors is it possible to understand someone from observing them yes if you know what you are looking at and what you are looking for learn the telltale signs of a person s emotions even if they want to hide them patrick king is an internationally bestselling author and social skills coach his writing draws of a variety of sources from scientific research academic experience coaching and real life experience how to know what people want even if they don t 10 factors that prevent us from perceiving someone and how to prevent them actionable exercises for taking people s perspectives and stepping outside of your own head four personality types and how to categorize people in quick and easy ways understanding the four functions of behavior and how to spot them listening for specific word and linguistic choices the science of reading people has never been more usable in your everyday life have your talks ever been passed over without any attention have you ever wished to possess the gift of the gab have you not desired to mesmerize your audience with your powerful words here is the book that that you have been searching for detailing eleven skills that will help you stand out as an effective and entrancing communicator from day to day conversations to professional meetings from candid talks to consequential discussions the book explains the nitty gritty of impactful communication how to make the best of this book go in the chronological order comprehending each chapter in depth and participating in the exercises make a note of important points of reference practice and rehearse the skills that you learnt once you complete all the chapters following the same method re visit previous chapters if required involve in the activities suggested and have a real life experience on showcasing the skills that you learn what motivates people why do they do what they do what is the foundation of human nature decoding human nature now includes 163 diagrams 11 chapter summaries 56 key insights and quotes penetrating incisive and filled with examples decoding human nature offers readers a step by step manual for decoding human behavior with ease and accuracy a must read for business professionals leaders and the politically minded decoding human nature reveals 197 little known human desires some basic many unexpected based upon reams of compelling evidence understanding what people want is the key to decoding the mysteries of the world the mysteries of politics history culture leadership business and personal success why do some political candidates win while others fall short why is america viciously divided why do people vote for who they vote for why do some policies succeed while others fail why do some mass movements go the distance while others barely make a dent why do some believe justice fairness and morality mean one thing while others believe the exact opposite why do some businesses rapidly explode in revenue while others only experience a slow trickle why do some companies make the leap to greatness while others languish in mediocrity why do less qualified people get hired and promoted over more qualified ones why do some professionals move forward in leaps and bounds while others have to claw through resistance at every step why do people willingly follow some leaders but openly resent others why do some command instant respect from everyone in the room while others appear helplessly incompetent why do people like who they like listen to who they listen to trust who they trust love who they love respect who they respect befriend who they befriend ignore who they ignore human desires reveal these answers and more and those who don t understand the secrets of human nature remain blind to the truth of the past present and future those who don t understand others stumble through life always surprised at what goes on around them and always unprepared to deal with it they struggle to lead succeed and carve out a place for themselves in the world they get half as much done with twice as much effort decoding human nature offers a manual to human nature allowing you to compel influence and persuade experience deep empathy for those around you read others with a penetrating eye understanding their wants and aversions clear the confusion from the past the obscurity from the present and the fog from the future lead

with impact influence and inspiration not power and coercion understand the buried truths of your own personality and subconscious mind master the art of motivating others to take enthusiastic action
