Community/Public Health Nursing - E-Book 2022-10-01

an elite community in india neither anglicized nor traditional shaped instead by diaspora and capitalist enterprise is the subject of anne hardgrove s research

Community and Public Culture 2004-01-01

a practical introduction to participatory program evaluation evaluating public and community health programs provides a comprehensive introduction to the theory and practice of evaluation with a participatory model that brings stakeholders together for the good of the program linking community assessment program implementation and program evaluation this book emphasizes practical ongoing evaluation strategies that connect theory with application this updated second edition includes new discussion on planning policy change programs using logic models and theory of change plus expanded coverage of processes outcomes data collection and more each chapter includes classroom activities and group discussion prompts and the companion website provides worksheets lecture slides and a test bank for instructors mini cases help illustrate the real world applications

of the methods described and expanded case studies allow students to dig deeper into practice and apply what they've learned. Accurate and effective evaluation is the key to a successful program. This book provides a thorough introduction to all aspects of this critical function with a wealth of opportunities to apply new concepts, learn evaluation strategies that involve all program stakeholders, link theory to practice with new mini cases and examples, understand the uses, processes, and approaches to evaluation, discover how ongoing evaluation increases program effectiveness. Public and community health programs are a vital part of our social infrastructure, and the more effective they are, the more people they can serve. Proper planning is important, but continued evaluation is what keeps a program on track for the long term. Evaluating public and community health programs provides clear instruction and insightful discussion on the many facets of evaluation with a central focus on real-world service.
