twenty one years ago the term electronic publishing promised all manner of potential that the and network technologies could bring to scholarly communication scientific research and technical innovation over the last two decades tremendous developments have indeed taken place across all of these domains one of the most important of these has been open science perhaps the most widely discussed topic in research communications today this book presents the proceedings of elpub 2017 the 21st edition of the international conference on electronic publishing held in limassol cyprus in june 2017 continuing the tradition of bringing together academics publishers lecturers librarians developers entrepreneurs users and all other stakeholders interested in the issues surrounding electronic publishing this edition of the conference focuses on open science and the 27 research and practitioner papers and 1 poster included here reflect the results and ideas of researchers and practitioners with diverse backgrounds from all around the world with regard to this important subject intended to generate discussion and debate on the potential and limitations of openness the book addresses the current challenges and opportunities in the ecosystem of open science and explores how to move forward in developing an inclusive system that will work for a much broader range of participants it will be of interest to all those concerned with electronic publishing and open science in particular this book presents papers from the international conference on integrating engineering education and humanities for global intercultural perspectives ieehgp 2020 held on 25 27 march 2020 the conference brought together researchers and practitioners from various disciplines within engineering and humanities to offer a range of perspectives focusing on but not limited to content and language integrated learning clil in russian education the book will appeal to a wide academic audience seeking ways to initiate positive changes in education the technological revolution has reached around the world with important consequences for business government and the labor market computer aided design telecommunications and other developments are allowing small players to compete with traditional giants in manufacturing and other fields in this volume 16 engineering and industrial experts representing eight countries discuss the growth of technological advances and their impact on specific industries and regions of the world from various perspectives these distinguished commentators describe the practical aspects of technology s reach into business and trade this book gathers selected papers from the 29th eurasia business and economics society ebes conference held in lisbon portugal while the theoretical and empirical papers presented cover diverse areas of economics and finance in various geographic regions the main focus is on the latest research concerning accounting audits banking the economics of innovation and empirical studies on emerging economies and international trade studies on labor economics and public economics as well as regional studies round out the coverage this book gathers selected theoretical and empirical papers from the 29th eurasia business and economics society ebes conference held in lisbon portugal covering diverse areas of business and management in various geographic regions it highlights the latest research on human resources management and marketing among other topics it also includes related studies that address marketing and management relevant aspects such as the impact of supervisor support on employee performance through work engagement the standardization of global logistics business operations elements to support long term b2b communication and omni channel strategies in the marketing 4 0 paradigm this volume includes the full proceedings from the 2010 cultural perspectives in marketing conference held in lille france with the theme cultural perspectives in a global marketplace this volume presents papers on various topics including marketing management marketing strategy and consumer behavior founded in 1971 the academy of marketing science is an international organization dedicated to promoting timely explorations of phenomena related to the science of marketing in theory research and practice among its services to members and the community at large the academy offers conferences congresses and symposia that attract delegates from around the world presentations from these events are published in this proceedings series which offers a comprehensive archive of volumes reflecting the evolution of the field volumes deliver cutting edge research and insights complimenting the academy s flagship journals the journal of the academy of marketing science jams and ams review volumes are edited by leading scholars and practitioners across a wide range of subject areas in marketing science this book gathers selected papers from the 28th eurasia business and economics society ebes conference held in coventry united kingdom while the theoretical and empirical papers presented cover diverse areas of economics and finance in various geographic regions the main focus is on the latest research concerning the economics of innovation finance and macroeconomics the book also includes regional studies this book gathers selected theoretical and empirical papers from the 28th eurasia business and economics society ebes conference held in coventry united kingdom covering diverse areas of business and management in various geographic regions it highlights the latest research on human resources management and marketing among other topics it also includes related studies that address management and marketing aspects such as telecommuting versus the traditional work environment the effect of value congruence promoting product characteristics using social media perception of terrorism risks and personal innovativeness and employability ebes conferences have been intellectual hub for academic discussion in economics finance and business fields and provide network opportunities for participants to make long lasting academic cooperation this is the 21st issue of the eurAsian studies in business and economics ebes s official proceeding series which includes selected papers from the 34rd ebes conference athens due to the covid 19 the conference presentation mode has been switched to online virtual presentation only in the conference 148 papers by 296 colleagues from 40 countries were presented both theoretical and empirical papers in this volume cover diverse areas of business economics and finance from many different regions therefore it provides a great opportunity to colleagues professionals and students to catch up with the most recent studies in different fields and empirical findings on many countries and regions this book constitutes the proceedings of the 15th international conference on perspectives in business informatics research bir 2016 held in prague czech republic in september 2016 overall 61 submissions from 16 countries were rigorously reviewed by 42 members of the program committee representing 21 countries the selected 21 full papers and 3 short papers are included in this volume together with 2 abstracts of invited talks this year again the papers presented at the conference cover many important aspects of the development use and application of management information systems the papers have been organized in topical sections on business processes and enterprise modeling information systems development information systems management learning and capability and data analysis this book contains the refereed proceedings of the cybernetics perspectives in systems session of the 11th computer science on line conference 2022 csoc 2022 which was held in april 2022 online papers on modern cybernetics and informatics in the context of networks and systems are an important component of current research issues this volume contains an overview of recent method algorithms and designs human language technology is the study of the methods by which computer programs or electronic devices can analyze produce modify or respond to human

texts and speech it consists of natural language processing and computational linguistics on the one hand and speech technology on the other this book presents the proceedings of the 9th international conference human language technologies the baltic perspective baltic hlt 2020 organised in kaunas lithuania on 22 and 23 september 2020 this biennial conference offers researchers a platform to share knowledge on recent advances in human language processing for the baltic languages as well as promoting interdisciplinary and international cooperation in human language technology research within and beyond the baltic states in addition to the traditional topics of natural language processing and language technologies this year s conference featured a special session on resource and tool development for teaching and learning the less resourced baltic languages this year 42 submissions were received each of which was evaluated by two reviewers resulting in a total of 34 papers being accepted for presentation and publication the book is divided into four sections speech and text analysis 9 papers machine translation and natural understanding 6 papers tools and resources 14 papers and language learning resources 5 papers providing a fascinating overview of current research in the field from a primarily baltic perspective the book will be of interest to all those whose work involves human language technology this volume presents selected papers on recent management research from the 20th eurasia business and economics society ebes conference which was held in vienna in 2016 its primary goal is to showcase advances in the fields of accounting auditing marketing and human resources in emerging economies this volume is unique in its special focus on empirical research perspectives from countries such as lithuania russia and the visegrád group the czech republic hungary poland and slovakia among others proceedings of the fourth trans disciplinary symposium on philosophy and medicine held at galveston texas may 16 18 1976 the international student conference in tourism research iscontour offers students a unique platform to present their research and establish a mutual knowledge transfer forum for attendees from academia industry government and other organisations the annual conference which is jointly organized by the imc university of applied sciences krems and the management center innsbruck takes place alternatively at the locations krems and innsbruck the conference research chairs are prof fh mag christian maurer university of applied sciences krems and prof fh mag hubert siller management center innsbruck the target audience include international bachelor master and phd students graduates lecturers and professors from the field of tourism and leisure management as well as businesses and anyone interested in cutting edge research of the conference topic areas the conference topics include marketing and management tourism product development and sustainability information and communication technologies finance and budgeting and human resource management this novel book introduces cellular automata from a rigorous nonlinear dynamics perspective it supplies the missing link between nonlinear differential and difference equations to discrete symbolic analysis the book provides a scientifically sound and original analysis and classifications of the empirical results presented in wolfram s monumental new kind of science this volume includes the full proceedings from the 1999 world marketing congress held in qawra malta with the theme global perspectives in marketing for the 21st century the focus of the conference and the enclosed papers is on marketing thought and practices from a global perspective this volume resents papers on various topics including marketing management marketing strategy and consumer behavior founded in 1971 the academy of marketing science is an international organization dedicated to promoting timely explorations of phenomena related to the science of marketing in theory research and practice among its services to members and the community at large the academy offers conferences congresses and symposia that attract delegates from around the world presentations from these events are published in this proceedings series which offers a comprehensive archive of volumes reflecting the evolution of the field volumes deliver cutting edge research and insights complimenting the academy s flagship journals the journal of the academy of marketing science jams and ams review volumes are edited by leading scholars and practitioners across a wide range of subject areas in marketing science ebes conferences have been intellectual hub for academic discussion in economics finance and business fields and provide network opportunities for participants to make long lasting academic cooperation this is the 23rd volume of the eurAsian studies in business and economics ebes s official proceeding series which includes selected papers from the 36th ebes conference istanbul the conference was organized on july 1 3 2021 in hybrid mode with both online and in person presentation in the conference 141 papers by 311 colleagues from 49 countries were presented both theoretical and empirical papers in this volume cover diverse areas of business economics and finance from many different regions therefore it provides a great opportunity to colleagues professionals and students to catch up with the most recent studies in different fields and empirical findings on many countries and regions these proceedings consist of a series of detailed pedagogical lectures on a variety of theoretical and experimental topics together they comprise a comprehensive survey of current approaches to the physics of the standard model the school is slanted to emphasize dynamics recent theoretical advances and new experiments contents an introduction to symmetry breaking in the standard model e farhi physics beyond the standard model j a bagger chiral effective lagrangians h leutwyler towards semi classical string theory j a harvey renormalization of electroweak gauge interactions d c kennedy electroweak experiments at lep a blondel the ckm matrix and cp violation y nir axion searches p sikivie lattice qcd a s kronfeld introduction to perturbative qcd g sterman heavy quark effective field theory h georgi heavy flavor physics on the lattice e eichten two lectures on neutrinos p ramond readership particle physicists keywords collects the papers presented at the centennial symposium of the national geographic society this book presents selected papers from the 31st eurasia business and economics society ebes conference which took place as a virtual conference due to the global covid 19 health crisis the theoretical and empirical papers gathered here cover diverse areas of business economics and finance in various geographic regions including not only topics from hr management finance marketing but also contributions on public economics political economy and regional studies this book contains a selection of papers from the 2020 international conference on software process improvement cimps 20 held between the 21st and 23rd of october in mazatlán sinaloa méxico the cimps 20 is a global forum for researchers and practitioners that present and discuss the most recent innovations trends results experiences and concerns in the several perspectives of software engineering with clear relationship but not limited to software processes security in information and communication technology and big data field the main topics covered are organizational models standards and methodologies software process improvement knowledge management software systems applications and tools information and communication technologies and processes in non software domains mining automotive aerospace business health care manufacturing etc with a demonstrated relationship to software engineering challenges this book presents selected papers from the 23rd eurasia business and economics society ebes conference held in madrid spain while the theoretical and empirical papers presented cover diverse areas of economics and finance in different geographic regions the main focus is on the latest research concerning international trade public economics and regional studies the book also includes studies on the economics of innovation inequality and tourism this volume presents selected papers on recent management research from the 20th eurasia business and economics society ebes conference which was held in vienna in 2016 its primary goal is to showcase advances in the fields of public economics regional studies economic development and inequality and economic policy making reflecting the contemporary political climate many of the articles address the effectiveness relevance and impact of european union policies in addition the volume features empirical research from less researched countries such as kazakhstan the republic of macedonia belarus and lithuania among others xe000 this book presents selected theoretical and empirical papers from the 23rd eurasia business and economics society ebes conference held in madrid spain covering diverse areas of business and management in various geographic regions it focuses on current topics like entrepreneurship the suitability of classical motivation theories

assessment of socio economic efficiency and workplace bullying it also includes related studies that analyze management and marketing aspects such as progressive services from the service provider perspective supply chain governance mechanisms and social media and magazines
