an orwellian dystopia in the guise of a fast paced thriller this is a coolly satirical novel laced with humour suspense and intrigue welcome to brighton a city ruled by a combination of patronage and armed force the departments have kept their old names but now transport imposes order and exacts tolls welfare processes the undesirables audit collects information about everybody and parks and libraries is supposed to stop the flow of contraband after years of civil conflict gated communities separate government workers from the scoomers cruising the streets in their battered fiats but in a secure area four couples from the town s elite keep up a tenuous version of middle class life they attend each others dinner parties and drink and gossip margaret and alan think things are getting better jack and denise work long hours and hardly talk to each other louise thinks tim is plotting something while siobhan cannot tell her friends the truth about the husband they all think is

harmless outside beyond their security gates the rival council militias keep an uneasy truce while an underclass forages for survival or waits eagerly for the end of the world meanwhile a faction within the council is planning to make the changes that will give them absolute power and then driving home from a party jack and denise witness a fatal car crash involving one of the councillors as the inevitable by election approaches they and the people they know are increasingly enmeshed in the town s political manoeuvring and the violence of the streets outside begins to touch even their lives through conversations between the characters leaked tapes of official meetings transcribed phone calls fly posters for prayer meetings and provocative articles in an illegal newspaper this haunting vision of corruption and surveillance in a city on the brink of chaos is at once deeply unsettling and frighteningly familiar

Robert Love's Warnings 2014-02-18

in colonial america the system of warning out was distinctive to new england a way for a community to regulate those to whom it would extend welfare robert love s warnings animates this nearly forgotten aspect of colonial life richly detailing the moral and legal basis of the practice and the religious and humanistic vision of those who enforced it historians cornelia h dayton and sharon v salinger follow one otherwise obscure town clerk robert love as he walked through boston s streets to tell sojourners in his majesty s name that they were warned to depart the town in fourteen days this declaration meant not that newcomers literally had to leave but that they could not claim legal settlement or rely on town poor relief

warned youths and adults could reside work marry or buy a house in the city if they became needy their relief was paid for by the province treasurer warning thus functioned as a registration system encouraging the flow of labor and protecting town coffers between 1765 and 1774 robert love warned four thousand itinerants including youthful migrant workers demobilized british soldiers recently exiled acadians and women following the redcoats who occupied boston in 1768 appointed warner at age sixty eight owing to his unusual capacity for remembering faces love kept meticulous records of the sojourners he spoke to including where they lodged and whether they were lame ragged drunk impudent homeless or begging through these documents dayton and salinger reconstruct the biographies of travelers exploring why so many people were on the move throughout the british atlantic and why they came to boston with a fresh interpretation of the role that warning played in boston s civic structure and street life robert love s warnings reveals the complex legal social and political landscape of new england in the decade before the revolution

who are we where is the boundary between us and everything else are we all multiple personalities and how can we control who we

become from distinguished psychologist robert levine comes this provocative and entertaining scientific exploration of the most personal and important of all landscapes the physical and psychological entity we call our self using a combination of case studies and cutting edge research in psychology biology neuroscience virtual reality and many other fields levine challenges cherished beliefs about the unity and stability of the self but also suggests that we are more capable of change than we know transformation levine shows is the human condition at virtually every level physically our cells are unrecognizable from one moment to the next cognitively our self perceptions are equally changeable a single glitch can make us lose track of a body part or our entire body or to confuse our very self with that of another person psychologically we switch back and forth like quicksilver between incongruent sometimes adversarial sub selves socially we appear to be little more than an ever changing troupe of actors and culturally the boundaries of the self vary wildly around the world from the confines of one s body to an entire village the self in short is a fiction vague arbitrary and utterly intangible but it is also interminably fluid and this unleashes a world of potential engaging informative and ultimately liberating stranger in the mirror will

change forever how you think about your self and what you might become

The Comfort of Strangers *2002*

in the company of strangers shows how a reconception of family and kinship underlies the revolutionary experiments of the modernist novel while stories of marriage and long lost relatives were a mainstay of classic victorian fiction barry mccrea suggests that rival countercurrents within these family plots set the stage for the formal innovations of joyce and proust tracing the challenges to the family plot mounted by figures such as fagin sherlock holmes leopold bloom and charles swann mccrea tells the story of how bonds generated by chance encounters between strangers come to take over the role of organizing narrative time and give shape to fictional worlds a task and power that was once the preserve of the genealogical family by investigating how the question of family is a hidden key to modernist structure and style in the company of strangers explores the formal narrative potential of queerness and in doing so rewrites the history of the modern novel

for mcnamara we are never entirely strangers and never complete beings ever journeying out and back for images to fill the holes we

can never patch mcnamara's poems are about how we experience
those recurrent moments how we recognize ourselves as avatars
of the permanent what that feels like the prosody and measure of it
its sixes and sevens how we marshal our experience our desire for
perfection and then launch into the rain knowing it's all temporary

we live in an incredibly divided world the problem with these divisions that seems so natural however is that they cause us to separate ourselves from people who don t think believe act the way we do many books have been written about judaism christianity and islam from broad academic overviews to critiques of one against the others in general these books can feel impractical and overly academic to normal people this is not that sort of book of strangers enemies sheds light on what we can actually do in our daily lives to break down such divisions the reader will encounter history and scripture personal stories and
