in this well argued and clear structured work dennis horton highlights the shape and function of the death and resurrection motif by applying william freedman s criteria of a literary motif to the acts narrative by analysing the statements about death and resurrection together with the examples of this messianic pattern within the experiences of major and minor characters the motif becomes clear this primary motif of death and resurrection is then contrasted with a secondary motif of death and decay which functions as a warning to christians thus suffering is ultimately an integral part of the life in christ but one that becomes balanced by renewed and eternal life death and resurrection provides a clear example of a biblical motif and how it develops and functions within the narrative serving as a valuable guide for future studies of biblical motifs the work also supplies a needed balance between the extremes of past and present lukan scholarship by considering the combined effect of suffering and renewed life within a single motif both the statements and actions of the characters reveal the importance of the two elements for lukan theology and soteriology the function of the motif derives from its usage within the narrative and proves insightful for gaining a better understanding of the aesthetic quality of the story while simultaneously showing how the narrator skillfully wields the motif to provide encouragement to the followers of the way to issue a warning to would be persecutors and to deliver an evangelistic message to potential converts such as the god fearers the messianic pattern of death and resurrection becomes a heuristic tool that the narrator carefully applies to create a potent motif with a multifaceted message for a growing and often suffering christian community the resurrected ones a story of an ancient community of saints who crossed the bridge of death twice the account you are about to read is a story of the great providences of god providence is an interesting word according to the oxford university dictionary it means the protective care of god this is a story that concerns aspects of god s divine resources and of his protective care remember god s resources are limitless so anything is possible the scriptures tell us that there were certain saints who were resurrected from their graves following the crucifixion of christ is this strange or what to say the least this is a very unique and unusual event there is nothing else like it anywhere in the scriptures no specific explanations are given the bible says many came forth from their graves and were recognized by their friends when they returned to jerusalem what could be the reason many saints were brought forth from their graves what could be the role and purpose of these special resurrected ones in the kingdom of god after all they have been amongst us now for over 2 000 years there must be a reason why they are here i have thought about this for some time now here is what i have concluded first i believe their role has been that of witnesses ye shall be my witnesses second i believe their role has been to provide providential care hopefully this narrative will expand your concepts of the greatness of the divine resources that our gracious creator uses to bring about his plans and purposes in this man made world of chaos and confusion to say the least i think your imagination will be challenged as you read the adventures of the resurrected ones this volume written by eleven first class scholars brings into focus the resurrection message of the new testament much more than just biblical exposition these essays demonstrate how the resurrection both provides the basis for joyful living now despite the shadow of death and undergirds the christian belief in a future after death this book provides a thorough and accessible guide to belief about the afterlife in the sunni muslim tradition drawing on the qur an traditions creeds and theological commentaries as well as interviews with muslim clerics the authors offer an overview of the islamic eschatological narrative describing the understanding of events beginning with the death of the individual and ending with habitation in the final abodes of recompense does death end life or is it the passage from one stage of life to another in the death of death noted theologian neil gillman offers readers an original and compelling argument that judaism a religion often thought to pay little attention to the afterlife not only presents us with rich ideas on this subject but delivers a deathblow to death itself combining astute scholarship with keen historical theological and liturgical insights gillman outlines the evolution of jewish thought about bodily resurrection and spiritual immortality beginning with the near silence of the bible on the afterlife he traces the development of these two doctrines through jewish history he also describes why today somewhat surprisingly more contemporary jewish scholars including gillman have unabashedly reaffirmed the notion of bodily resurrection in this innovative and personal synthesis gillman creates a strikingly modern statement on resurrection and immortality the death of death gives new and fascinating life to an ancient debate this new work is an intellectual and spiritual milestone final day prior to and after his crucifixion learn what happened day by day as jesus journeys through the week with his disciples and is confronted by the religious and public figures of that time this is a new release of the original 1910 edition what happens after death to jesus and to those who follow him jesus and the demise of death offers a constructive theology that seeks to answer that very question carefully considering both jesus descent into hell and eventual resurrection as integral parts of a robust vision of the christian bodily resurrection taking on the claims of n t wright and richard b hays matthew levering draws strongly upon the work of thomas aquinas to propose a radical reconstruction of christian eschatological theology one that takes seriously the profound ways in which christianity and its beatific vision have been enriched by platonic thought and emphasizes the role of the church community in the passage from life to death in so doing leveraging underscores the hope in eternal life for jesus followers and gives readers firm and fruitful soil upon which to base conversations about the christian s future this ground breaking work offers a unique apologetical argument for the validity of the gospel accounts of jesus death and resurrection dr bergeron s medical expertise allows him to examine the medical aspects of jesus death and as well as the hallucination hypothesis which attempts to discount jesus resurrection christians look with hope to the resurrection of the dead and the restoration of all things but what of those who have already died do they also await these things or have they in some sense already happened for them within the catholic theological community this question has traditionally been answered in terms of the disembodied souls of human beings awaiting bodily resurrection since the 1960s catholic theologians have proposed two alternatives resurrection at death into the last day and the consummation of all things or resurrection in death into an interim state in which the embodied dead await with us the final consummation of all things this book critically examines the scriptural philosophical and theological reasons for these alternatives and on the basis of this analysis offers an account of the traditional schema which makes clear that in spite of these challenges it remains the preferable option death in second century christian thought explores how the meaning of death was conceptualized in this crucial period of the history of the church through an exploration of some key metaphors and other figures of speech that the early church used to talk about this interesting but difficult topic the author argues that the early church selected modified and utilized existing views on the subject of death in order to offer a distinctively christian view of death based on what they believed the word of god taught on the subject particularly in light of the ongoing story of jesus following his death his burial and resurrection in short the book shows how christians interacted with the views of death in late antiquity coming up with their own distinctive view of death this ground breaking work offers a unique apologetic argument for the validity of the gospel accounts of jesus death and resurrection dr bergeron s medical expertise allows him to examine the medical aspects of jesus death and as well as the hallucination hypothesis which attempts to discount jesus resurrection this book explores the following areas jesus claim to be the son of god and the messiah of hebrew prophetic literature evidence of the trustworthiness of the gospel as reliable eyewitness testimony the social and political context leading up to jesus execution roman crucifixion practices in public executions physiological mechanisms that ultimately led to jesus death a medical analysis of hallucination hypotheses for the disciples belief in jesus resurrection and the inability of hallucination to explain away the biblical accounts of jesus resurrection two thousand years ago god raised jesus christ from the dead but that isn t a mere historical event it isn t simply a theological doctrine it is rather a huge moment that reverberates powerfully and meaningfully throughout history experiencing the resurrection by the world renowned spiritual leader dr henry blackaby
