The Homeschool Choice 2011-12-13

the surprising reasons parents are opting out of the public school system and homeschooling their kids homeschooling has skyrocketed in popularity in the united states in 2019 a record breaking 2.5 million children were being homeschooled in the homeschool choice kate henley averett provides insight into this fascinating phenomenon exploring the perspectives of parents who have chosen to homeschool their children drawing on in depth interviews averett examines the reasons why these parents choose to homeschool from those who disagree with sex education and lgbt content in schools to others who want to protect their children's sexual and gender identities with eye opening detail she shows us how homeschooling is a trend being chosen by an increasingly diverse subset of american families at times in order to empower or constrain children's gender and sexuality

ultimately averett explores how homeschooling as a growing practice has changed the roles that families schools and the state play in children s lives as teachers parents and policymakers debate the future of public education the homeschool choice sheds light on the ongoing struggle over school choice

Becoming Homeschoolers 2014-01-01

as families are looking for better ways to educate their children more and more of them are becoming interested and engaged in alternative ways of schooling that are different separate or opposite of the traditional classroom homeschooling has become ever more creative and varied as families create custom tailored curricula assignments goals and strategies that are best for each unique child this presents a multitude of challenges and opportunities for information institutions including public academic school and special libraries the need for librarians to help homeschool families become information and media literate is more important than ever this collection of essays provides a range of approaches and strategies suggested by skilled professionals as well as veteran homeschool parents on how to best serve the diverse needs and learning experiences of homeschooled youth it includes information on needs assessments for special needs students gifted students and african american students advice on how to provide support for the families of homeschoolers case studies and information on new technologies that could benefit libraries and the homeschooler populations that they serve

Forthcoming Books 1997-12-25

money is not an isolated issue within marriage it infiltrates your life from the kitchen to the bedroom adding an air of negativity to the marriage as a whole learn how an attitude of

commitment obedience surrender and prayer can lead you to the god of hope waiting to show you the way out of debt and freedom

Homeschooling and Libraries 2012-05-24

more than one million american children are schooled by their parents as their ranks grow home schoolers are making headlines by winning national spelling bees and excelling at elite universities the few studies conducted suggest that homeschooled children are academically successful and remarkably well socialized yet we still know little about this alternative to one of society s most fundamental institutions beyond a vague notion of children reading around the kitchen table we don t know what home schooling looks like from the inside sociologist mitchell stevens goes behind the scenes of the homeschool movement and into the homes and meetings of home schoolers what he finds are two very different kinds of home education one rooted in the liberal alternative school movement of the 1960s and 1970s and one stemming from the christian day school movement of the same era stevens explains how this dual history shapes the meaning and practice of home schooling today in the process he introduces us to an unlikely mix of parents including fundamentalist protestants pagans naturalists and educational radicals and notes the core values on which they agree the sanctity of childhood and the primacy of family in the face of a highly competitive bureaucratized society kingdom of children aptly places home schoolers within longer traditions of american social activism it reveals that home schooling is not a random collection of individuals but an elaborate social movement with its own

celebrities networks and characteristic lifeways stevens shows how home schoolers have built their philosophical and religious convictions into the practical structure of the cause and documents the political consequences of their success at doing so ultimately the history of home schooling serves as a parable about the organizational strategies of the progressive left and the religious right since the 1960s kingdom of children shows what happens when progressive ideals meet conventional politics demonstrates the extraordinary political capacity of conservative protestantism and explains the subtle ways in which cultural sensibility shapes social movement outcomes more generally
