love is a choice that creates feelings not feelings that makes you choose dc this book is created from an account of how i experienced a time in my life were a woman knowing how to get along with a man it is not normal today for relationships to just work out without working it out most women are told even before their teenager to enjoy their singlehood focus on their career spend money travel and enjoy hanging out with their friends before getting serious with a man many women are told not to focus on a man just their 5 year plan this book is for the woman who choose to find her way back to her true femininity and self love thru her expression of self this type of journey is with the interaction with others showing yourself separate from a man as men and women we have an innate fundamental desire for connecting with one another by design my experience has awarded me the privilege to share with a woman in her natural state as she brought me to mine i experienced a proud woman embracing her femininity her softness and kind nature always expressing her feminine energy thru her words touch and environment she didn t find her feminine nature in things but in her enter self when she expressed i made her feel safe and secure she respected and accepted me i made her comfortable and feel cherished she was loyal and presented herself with kindness and grace among the public which made me want to carry myself to be responsible in my actions so she would have the emotional security she needed and she regularly expressed acts of service to show her appreciation and need for me while all the time never exchanging hurtful words or injuring one another s feeling i would naturally give to her and give to her this is when i knew a woman can get what she wants from a man darrell canty stands out with this surprising content with informative and impressionable information this dynamic content provides the emotional and intellectual influence to engage this target audience as an author he feels compelled to share this information with others many if not most people in their entire life will never experience one day of what he had for the most of nine years darrell canty says he will be forever grateful and honored for the rest of his life the

author can only hope to help one person find a true connection as he did the time we spend here on earth means very little without an experience such as this once you have experienced this type of experience it will become a lifelong yearning he can only imagine it to be like a drug attic experience that first high and forever chasing that high time and time again the author believes because of this experience he has become an author given a voice with something to say i say thank you if a woman is giving a man everything but respect she has given him nothing at all dc

## How to Get a Man Without Getting Played

2017-05-09

if you asked most women today what type of girl men adore and couldn't live without they would answer that she would have to be very beautiful and attractive blond blue eyed and have killer legs while this type of woman would definitely attract a lot of attention she actually isn't the type of woman that men adore while men are visual creatures and that first attraction is sparked from looks you would be surprised to find out how much more men actually want from women for example a team of sociologists conducted a study trying to understand if there was a common denominator that men found attractive in women that one thing that would get any guy to want to go over and talk to a girl you would never guess what the result was no it wasn't her breasts her legs or her bum in fact it wasn't any body part below her chin and it wasn't her features either it was her smile the majority of men stated that they found nothing as attractive as a woman's smile the point of this revelation is that you have to put your preconceived notions and the rules society has beaten into you all to one side you need to understand that fundamentally men and women are different and it's alright to be a woman there's nothing wrong with giving up control to your partner once in a while especially since it will make you feel better as well society may have placed men and women on equal footing in the workplace and perhaps some other areas of our lives while it is absolutely true that a woman can do almost anything a man can do and vice versa it is also true that we have fundamental differences that we are hardwired with the problem is that when we try to overlook those differences and pretend they don't exist as women we end up shutting ourselves away from the world in an attempt to be more like the men we feel a need to compete with
