

Pdf free The hippocratic oath and the ethics of medicine .pdf

wilfrid sellars s ethical theory was rich and deeply innovative on sellars s view moral judgments express a special kind of shared intention thus we should see sellars as an early advocate of an expressivism of plans and intentions and an early theorist of collective intentionality he supplemented this theory with a sophisticated logic of intentions a robust theory of the categorical validity of normative expressions a subtle way of reconciling the cognitive and motivating aspects of moral judgment and much more all within a strict nominalism that preserves sellars s commitment to naturalism the ethics of wilfrid sellars offers the first systematic treatment of this sadly neglected aspect of sellars s work and demonstrates that his ethical theory just like his more widely discussed epistemology has much to contribute to current debates are all of the commonly accepted aims of the use of law justifiable which kinds of behavior are justifiably prohibited which kinds justifiably required what uses of law are not defensible how can the legitimacy or the illegitimacy of various uses of law be explained or accounted for these are questions the answering of which involves one in many issues of moral principle for the answers require that one adopt positions even if only implicitly on further questions of what kinds of actions or policies are morally or ethically acceptable the present work aimed at questions of these kinds is thus a study in the ethical evaluation of major uses of legal coercion it is an attempt to provide a framework within which many questions about the proper uses of law may be fruitfully discussed the framework if successful can be used by anyone asking questions about the defensibility of particular or general uses of law whether from the perspective of someone considering whether to bring about some new legal provision from the perspective of someone concerned to evaluate an existing provision or from that of someone concerned more abstractly with questions about the appropriate substance of an ideal legal system in addressing these and associated issues i shall be exploring the extent to which an ethics based on respect for persons and their autonomy can handle satisfactorily the problems arising here the moments in christ s human life noted in the creeds his conception birth suffering death and burial are events which would likely appear in a syllabus for a course in social anthropology for they are of special interest and concern in human life and also sites of contention and controversy where what it is to be human is discovered constructed and contested in other words these are

the occasions for profound and continuing questioning regarding the meaning of human life as controversies to do with ivf abortion euthanasia and the use of bodies or body parts post mortem plainly indicate thus the following questions arise how do the instances in christ s life represent human life and how do these representations relate to present day cultural norms expectations and newly emerging modes of relationship themselves shaping and framing human life how does the christian imagination of human life which dwells on and draws from the life of christ not only articulate its own but also come into conversation with and engage other moral imaginaries of the human michael banner argues that consideration of these questions requires study of moral theology therefore he reconceives its nature and tasks and in particular its engagement with social anthropology drawing from social anthropology and christian thought and practice from many periods and influenced especially by his engagement in public policy matters including as a member of the uk s human tissue authority banner aims to develop the outlines of an everyday ethics stretching from before the cradle to after the grave w r sorley in this book on the ethics of naturalism describes four lectures delivered at the university of edinburgh on the topic of ethics and its problems this book showcases its connection with theoretical philosophy it also describes the scope of the present inquiry and how it influences human conduct can capitalism have moral foundations though this question may seem strange in today s world of vast economic disparities and widespread poverty discussions originating with the birth of capitalism add a critical perspective to the current debate on the efficacy and morality of capitalist economies authors daniel halliday and john thrasher use this question to introduce classical political philosophy as a framework by which to evaluate the ethics of capitalism today they revisit and reconstruct historical eighteenth and nineteenth century defenses of capitalism as written by key proponents such as adam smith and john stuart mill they ask what these early advocates of market order would say about contemporary economies and argue for the importance of connecting these foundational defenses to discussions of economic systems and the roles they play in economic justice and injustice today the textbook covers longstanding problems that are as old as the discussion of capitalism itself such as wage inequality global trade and the connection between paid labor and human flourishing it also addresses new challenges such as climate change the welfare state and competitive consumption and provides topical global case studies additionally it includes study questions at the end of each chapter and an author created companion website to help guide classroom discussion paul m minus overview the

papers gathered in this volume were first presented for reflection and discussion at a landmark event in march 1992 the international conference on the ethics of business in a global economy held in columbus ohio brought together over 300 participants from twenty two nations in six continents this was the most geographically diverse body of leaders ever assembled to consider issues of ethics in business approximately two thirds of them were business executives the others came mainly from the fields of education and religion knowing the context from which this book emerged will help readers understand its composition and content as can be quickly seen the fourteen authors who have contributed to it come from different areas of the world and from different fields of endeavor one finds first essays on the book s central theme by business leaders from four nations next there are analyses of three key topics by scholars active in the fields of economics and ethics then come statements by practitioners of four major world religions on the relevance of their respective traditions to the ethics of business finally there are six brief case studies prepared by two business ethicists about specific ethical issues arising in international business the authors address different facets of one of the most dramatic new facts of our time the globalization of business with many corporations now operating around the world and others planning a significant expansion of markets this development is destined to accelerate in coming decades this scarce antiquarian book is a facsimile reprint of the original due to its age it may contain imperfections such as marks notations marginalia and flawed pages because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work the ethics of war traces how different cultures involved in present conflicts have addressed problems over the centuries distinguished authors reflect how the greco roman world byzantium the christian just war tradition islam judaism hinduism and the geneva conventions have addressed recurrent ethical issues of war cutting edge essays by prominent modern theorists address vital contemporary issues including asymmetric war preventive war human rights and humanitarian intervention this is a book about the ethics of teaching in the context of higher education while many books focus on the broader socially ethical topics of widening participation and promoting equal opportunities this unique book concentrates specifically on the lecturer s professional responsibilities it covers the real life messy everyday moral dilemmas that confront university teachers when dealing with students and colleagues whether arising from facilitated discussion in the classroom deciding whether it is fair to extend a deadline

investigating suspected plagiarism or dealing with complaints bruce macfarlane analyses the pros and cons of prescriptive professional codes of practice employed by many universities and proposes the active development of professional virtues over bureaucratic recommendations the material is presented in a scholarly yet accessible style and case examples are used throughout to encourage a practical reflective approach teaching with integrity seeks to bridge the pedagogic gap currently separating the debate about teaching and learning in higher education from the broader social and ethical environment in which it takes place this scarce antiquarian book is a facsimile reprint of the original due to its age it may contain imperfections such as marks notations marginalia and flawed pages because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work □□□□□□□□□□ □□□□□□□□□□ this book brings together over thirty of the foremost contributions to environmental ethics from pioneering papers to recent work at the cutting edge of thought in this field it also unites them through an innovative introductory essay which appraises both strengths and weaknesses and presents a distinctive view of the subject areas covered include the land ethic deep ecology biocentric approaches environmental virtue ethics feminist contributions debates on equity and on the interests and representation of future generations preservation sustainability and sustainable development the importance of attempts to discover a comprehensive ethic relevant both to the environment and other key areas of ethical debate is highlighted robin attfield has been working in this field for thirty years and has published several related collections and monographs of which the latest is environmental ethics an overview for the twenty first century published by polity in 2003 the ethics of the environment complements that work from which it incorporates a significant extract about the considerable practical difference that environmental ethics is capable of making the ethics of husserl s phenomenology aims to relocate the question of ethics at the very heart of husserl s phenomenology this is based on the idea that husserl s phenomenology is an epistemological inquiry ultimately motivated by an ethical demand that pervades his writing from the publication of logical investigations 1900 1901 up to the crisis of european sciences and transcendental phenomenology 1935 joaquim siles borràs traces the ethical concepts apparent throughout husserl s main body of work and argues that husserl s phenomenology of consciousness experience and meaning is ultimately motivated by an ethical demand by means of which husserl aims to re define philosophy

and re found science with the aim of making philosophy and science capable of dealing with the most pressing questions concerning the meaningfulness of human existence the ethics of need agency dignity and obligation argues for the philosophical importance of the notion of need and for an ethical framework through which we can determine which needs have moral significance in the volume sarah clark miller synthesizes insights from kantian and feminist care ethics to establish that our mutual and inevitable interdependence gives rise to a duty to care for the needs of others further she argues that we are obligated not merely to meet others needs but to do so in a manner that expresses dignifying care a concept that captures how human interactions can grant or deny equal moral standing and inclusion in a moral community she illuminates these theoretical developments by examining two cases where urgent needs require a caring and dignifying response the needs of the elderly and the needs of global strangers those working in the areas of feminist theory women s studies aging studies bioethics and global studies should find this volume of interest what is implied by ethics of history the authors of this volume internationally renowned philosophers and intellectual historians address this question in all its novelty and ambiguity and develop varied perspectives on the place and nature of ethics in the philosophy enterprise and practice of history is the whole historical process largely consisting of the actions and sufferings of persons and groups subject to ethical constraint and what of the ways in which historians present their subject matter are these methods subject to moral scrutiny although they approach these issues from different directions the contributors agree in their critique of the correspondence theory of history tin their acceptance of an unbridgeable gap between the past and the historian s present account and in their call for a revision of the popular appeal to historical objectivity reprint of the original first published in 1881 surgical ethics is the application of ethics to issues specific to surgery this volume provides a collection of clinical case studies representing a wide range of the ethical issues surgeons confront today it is an excellent text for teaching surgical ethics to surgical residents and medical students and a fascinating read for practicing surgeons it is intended to engage the reader into participating in evidence based ethical conflicts the authors escort us through 71 brief realistic and ethically complex problems offering a series of five possible resolutions to each and guiding us through the relative benefits and weaknesses of the options until a best ethical choice is defended the volume includes sections on consent and disclosure self regulation research and innovation conflicts of interest business dealings and end of life issues each with a brief introduction by the authors while the

importance of consent has been discussed widely over the last few decades interest in its study has received renewed attention in recent years particularly regarding medical treatment clinical research and sexual acts the routledge handbook of the ethics of consent is an outstanding reference source to this exciting subject and the first collection of its kind comprising over thirty chapters by a team of international contributors the handbook is divided into five main parts general questions normative ethics legal theory medical ethics political philosophy within these sections central issues debates and problems are examined including the nature and normative importance of consent paternalism exploitation and coercion privacy sexual consent consent and criminal law informed consent organ donation clinical research and consent theory of political obligation and authority the routledge handbook of the ethics of consent is essential reading for students and researchers in moral theory applied ethics medical ethics philosophy of law and political philosophy this volume will also be very useful for those in related fields such as political science law medicine and social science

slote provides care ethics with its first full scale account of moral education and shows that the often voiced suspicion that care ethics supports the status quo and is counterproductive to feminist goals is actually the very opposite of the truth excerpt from the ethics of freedom the following from the pen of rev john bur ton b a appeared in the scot in british north america editor w j rattray b a 1882 george paxton young m a professor of logic metaphysics and ethics in university college toronto was born at berwick on tweed on the 9 th of november 1818 after a preliminary training there he was sent to the high school edinburgh and thence to the university mr young was distinguished for his steady application especially to his favourite subjects of mathematics and philosophy after taking his degree he was for some time engaged as a teacher of mathematics at dollar academy when the disruption took place mr young as might have been expected from his liberal views espoused the cause of which the great dr chalmers was the leading champion entering the free church theological hall where he duly completed his course he was ordained and placed in charge of the martyrs church paisley in the course of a few months however mr young resolved to remove to canada he came hither in 1848 and at once accepted a call from knox church hamilton ont about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an

imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works the ethics of war is an indispensable collection of essays addressing issues both timely and age old about the nature and ethics of war features essays by great thinkers from ancient times through to the present day among them plato augustine aquinas machiavelli grotius kant russell and walzer examines timely questions such as when is recourse to arms morally justifiable what moral constraints should apply to military conduct how can a lasting peace be achieved will appeal to a broad range of readers interested in morality and ethics in war time includes informative introductions and helpful marginal notes by editors in the ethics of discernment patrick h byrne presents an approach to ethics that builds upon the cognitional theory and the philosophical method of self appropriation that bernard lonergan introduced in his book insight as well as upon lonergan s later writing on ethics and values extending lonergan s method into the realm of ethics byrne argues that we can use self appropriation to come to objective judgements of value the ethics of discernment is an introspective analysis of that process in which sustained ethical inquiry and attentiveness to feelings as intentions of value leads to a rich conception of the good written both for those with an interest in lonergan s philosophy and for those interested in theories of ethics who have only a limited knowledge of lonergan s work byrne s book is the first detailed exposition of an ethical theory based on lonergan s philosophical method we humans can enhance some of our mental and physical abilities above the normal upper limits for our species with the use of particular drug therapies and medical procedures we will be able to enhance many more of our abilities in more ways in the near future some commentators have welcomed the prospect of wide use of human enhancement technologies while others have viewed it with alarm and have made clear that they find human enhancement morally objectionable the ethics of human enhancement examines whether the reactions can be supported by articulated philosophical reasoning or perhaps explained in terms of psychological influences on moral reasoning an international team of ethicists refresh the debate with new ideas and arguments making connections with scientific research and with related issues in moral philosophy this book aims to contribute significantly to the understanding of issues of value including the ultimate value of space related activities which repeatedly emerge in interdisciplinary discussions on space and society although a recurring feature of discussions about space in the humanities the treatment of

value questions has tended to be patchy of uneven quality and even on occasion idiosyncratic rather than drawing upon a close familiarity with state of the art ethical theory one of the volume s aims is to promote a more robust and theoretically informed approach to the ethical dimension of discussions on space and society while the contributions are written in a manner which is accessible across disciplines the book still withstands scrutiny by those whose work is primarily on ethics at the same time it allows academics across a range of disciplines an insight into current approaches toward how the work of ethics gets done the issues of value raised could be used to inform debates about regulation space law and protocols for microbial discovery as well as longer range policy debates about funding in aristotle and menander on the ethics of understanding valeria cinaglia offers a parallel study of menander s new comedy and aristotle s philosophy focusing on subjects ranging from epistemology and psychology to ethics cinaglia does not aim to demonstrate the direct philosophical influence of aristotle on menander but explores the hypothesis that there are significant analogies between the two that disclose a shared thought world cinaglia shows that aristotle and menander offer analogous views of the way that perceptions and emotional responses to situations are linked with the presence or absence of ethical and cognitive understanding or the state of ethical character development the study of these analogies contributes to a deeper understanding of both frameworks involved war remains a grim fixture of the human landscape and because of its tremendous and ongoing impact on the lives of millions of people has always attracted the attention of careful rigorous and empathetic moral philosophers and while war is synonymous with death and ruin very few people are willing to surrender to moral nihilism about war the view that all really is fair at the center of debates about war remains the most important question that faces us during battle whom are we allowed to kill this volume collects in one place the most influential and groundbreaking philosophical work being done on the question of killing in war offering a who s who of contemporary scholars debating the foundational ethical questions surrounding liability to harm in ten essays it expands upon and provides new and updated analyses that have yet to be captured in a single work essays explore questions such as are some soldiers more deserving of death than others should states allow soldiers to conscientiously object to opt out of war on a case by case basis can a theory of rights best explain when it is permissible to kill in war when are we allowed to violently resist oppression that is itself nonviolent is there anything wrong with targeting people with autonomous weapons as a convenient and authoritative collection of such discussions this volume is

uniquely suited for university level teaching and as a reference for ethicists policymakers stakeholders and any student of the morality of killing in war the ethics of cultural appropriation undertakes a comprehensive and systematic investigation of the moral and aesthetic questions that arise from the practice of cultural appropriation explores cultural appropriation in a wide variety of contexts among them the arts and archaeology museums and religion questions whether cultural appropriation is always morally objectionable includes research that is equally informed by empirical knowledge and general normative theory provides a coherent and authoritative perspective gained by the collaboration of philosophers and specialists in the field who all participated in this unique research project study of one of the key philosophers in the post heideggerian field and an increasingly central presence in contemporary debates about identity and responsibility excerpt from the ethics of the greek philosophers socrates plato and aristotle a lecture given before the brooklyn ethical association season of 1896 1897 he present lecture on the ethics of the greek phi losophers is one of a course on the evolution of ethics delivered before the brooklyn ethical associa tion in the years 1896 and 1897 some of these lectures were also given at the cambridge conferences at the studio house of mrs ole bull in cambridge mass of which conferences the late dr lewis g janes was then director having been previously president of the brooklyn ethical association for several terms the full list of these lectures is as follows about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works in this book cees j hamelink proposes an answer to how should democratic societies organize cyberspace that puts human rights rather than profit at the top of the agenda he argues that conventional ethical approaches are all seriously flawed there is a growing volume of moral rules netiquettes and codes of conduct but they are of little help in solving the moral dilemmas raised by the new technologies in this book the author analyzes the inadeqacies of current global governance policies and structures that underpin them and argues for standards which put justice human security and freedom first the ethics of climate change an introduction systematically and comprehensively examines the ethical

issues surrounding arguably the greatest threat now facing humanity williston addresses important questions such as has humanity entered the anthropocene is climate change primarily an ethical issue does climate change represent a moral wrong what are the impacts of climate change what are the main causes of political inaction what is the argument for climate change denial what are intragenerational justice and intergenerational justice to what extent is climate change an economic problem is geoengineering an ethically appropriate response to climate change featuring case studies throughout this textbook provides a philosophical introduction to an immensely topical issue studied by students within the fields of applied ethics global justice sustainability geography and politics

The Ethics of Wilfrid Sellars 2018-12-07

wilfrid sellars s ethical theory was rich and deeply innovative on sellars s view moral judgments express a special kind of shared intention thus we should see sellars as an early advocate of an expressivism of plans and intentions and an early theorist of collective intentionality he supplemented this theory with a sophisticated logic of intentions a robust theory of the categorical validity of normative expressions a subtle way of reconciling the cognitive and motivating aspects of moral judgment and much more all within a strict nominalism that preserves sellars s commitment to naturalism the ethics of wilfrid sellars offers the first systematic treatment of this sadly neglected aspect of sellars s work and demonstrates that his ethical theory just like his more widely discussed epistemology has much to contribute to current debates

The Ethics of Legal Coercion 2012-12-06

are all of the commonly accepted aims of the use of law justifiable which kinds of behavior are justifiably prohibited which kinds justifiably required what uses of law are not defensible how can the legitimacy or the illegitimacy of various uses of law be explained or accounted for these are questions the answering of which involves one in many issues of moral principle for the answers require that one adopt positions even if only implicitly on further questions of what kinds of actions or policies are morally or ethically acceptable the present work aimed at questions of these kinds is thus a study in the ethical evaluation of major uses of legal coercion it is an attempt to provide a framework within which many questions about the proper uses of law may be fruitfully discussed the framework if successful can be used by anyone asking questions about the defensibility of particular or general uses of law whether from the perspective of someone considering whether to bring about some new legal provision from the perspective of someone concerned to evaluate an existing provision or from that of someone concerned more abstractly with questions about the appropriate substance of an ideal legal system in addressing these and associated issues i shall be exploring the extent to which an ethics based on respect for persons and their autonomy can handle satisfactorily the problems arising here

The Ethics of Everyday Life 2014

the moments in christ s human life noted in the creeds his conception

birth suffering death and burial are events which would likely appear in a syllabus for a course in social anthropology for they are of special interest and concern in human life and also sites of contention and controversy where what it is to be human is discovered constructed and contested in other words these are the occasions for profound and continuing questioning regarding the meaning of human life as controversies to do with ivf abortion euthanasia and the use of bodies or body parts post mortem plainly indicate thus the following questions arise how do the instances in christ s life represent human life and how do these representations relate to present day cultural norms expectations and newly emerging modes of relationship themselves shaping and framing human life how does the christian imagination of human life which dwells on and draws from the life of christ not only articulate its own but also come into conversation with and engage other moral imaginaries of the human michael banner argues that consideration of these questions requires study of moral theology therefore he reconceives its nature and tasks and in particular its engagement with social anthropology drawing from social anthropology and christian thought and practice from many periods and influenced especially by his engagement in public policy matters including as a member of the uk s human tissue authority banner aims to develop the outlines of an everyday ethics stretching from before the cradle to after the grave

On the Ethics of Naturalism 2021-05-19

w r sorley in this book on the ethics of naturalism describes four lectures delivered at the university of edinburgh on the topic of ethics and its problems this book showcases its connection with theoretical philosophy it also describes the scope of the present inquiry and how it influences human conduct

The Ethics of Aristotle 1858

can capitalism have moral foundations though this question may seem strange in today s world of vast economic disparities and widespread poverty discussions originating with the birth of capitalism add a critical perspective to the current debate on the efficacy and morality of capitalist economies authors daniel halliday and john thrasher use this question to introduce classical political philosophy as a framework by which to evaluate the ethics of capitalism today they revisit and

reconstruct historical eighteenth and nineteenth century defenses of capitalism as written by key proponents such as adam smith and john stuart mill they ask what these early advocates of market order would say about contemporary economies and argue for the importance of connecting these foundational defenses to discussions of economic systems and the roles they play in economic justice and injustice today the textbook covers longstanding problems that are as old as the discussion of capitalism itself such as wage inequality global trade and the connection between paid labor and human flourishing it also addresses new challenges such as climate change the welfare state and competitive consumption and provides topical global case studies additionally it includes study questions at the end of each chapter and an author created companion website to help guide classroom discussion

The Ethics of Capitalism 2020-06

paul m minus overview the papers gathered in this volume were first presented for reflection and discussion at a landmark event in march 1992 the international conference on the ethics of business in a global economy held in columbus ohio brought together over 300 participants from twenty two nations in six continents this was the most geographically diverse body of leaders ever assembled to consider issues of ethics in business approximately two thirds of them were business executives the others came mainly from the fields of education and religion knowing the context from which this book emerged will help readers understand its composition and content as can be quickly seen the fourteen authors who have contributed to it come from different areas of the world and from different fields of endeavor one finds first essays on the book s central theme by business leaders from four nations next there are analyses of three key topics by scholars active in the fields of economics and ethics then come statements by practitioners of four major world religions on the relevance of their respective traditions to the ethics of business finally there are six brief case studies prepared by two business ethicists about specific ethical issues arising in international business the authors address different facets of one of the most dramatic new facts of our time the globalization of business with many corporations now operating around the world and others planning a significant expansion of markets this development is destined to accelerate in coming decades

The Ethics of Hegel 1893

this book brings together over thirty of the foremost contributions to environmental ethics from pioneering papers to recent work at the cutting edge of thought in this field it also unites them through an innovative introductory essay which appraises both strengths and weaknesses and presents a distinctive view of the subject areas covered include the land ethic deep ecology biocentric approaches environmental virtue ethics feminist contributions debates on equity and on the interests and representation of future generations preservation sustainability and sustainable development the importance of attempts to discover a comprehensive ethic relevant both to the environment and other key areas of ethical debate is highlighted robin attfield has been working in this field for thirty years and has published several related collections and monographs of which the latest is environmental ethics an overview for the twenty first century published by polity in 2003 the ethics of the environment complements that work from which it incorporates a significant extract about the considerable practical difference that environmental ethics is capable of making

The Ethics of William Wollaston (1922) 2009-08

the ethics of husserl s phenomenology aims to relocate the question of ethics at the very heart of husserl s phenomenology this is based on the

idea that husserl s phenomenology is an epistemological inquiry ultimately motivated by an ethical demand that pervades his writing from the publication of logical investigations 1900 1901 up to the crisis of european sciences and transcendental phenomenology 1935 joaquim siles borràs traces the ethical concepts apparent throughout husserl s main body of work and argues that husserl s phenomenology of consciousness experience and meaning is ultimately motivated by an ethical demand by means of which husserl aims to re define philosophy and re found science with the aim of making philosophy and science capable of dealing with the most pressing questions concerning the meaningfulness of human existence

A Study of the Ethics of Spinoza 1901

the ethics of need agency dignity and obligation argues for the philosophical importance of the notion of need and for an ethical framework through which we can determine which needs have moral significance in the volume sarah clark miller synthesizes insights from kantian and feminist care ethics to establish that our mutual and inevitable interdependence gives rise to a duty to care for the needs of others further she argues that we are obligated not merely to meet others needs but to do so in a manner that expresses dignifying care a concept that captures how human interactions can grant or deny equal moral standing and inclusion in a moral community she illuminates these theoretical developments by examining two cases where urgent needs require a caring and dignifying response the needs of the elderly and the needs of global strangers those working in the areas of feminist theory women s studies aging studies bioethics and global studies should find this volume of interest

□□□□□□□□□□ 2004-02

what is implied by ethics of history the authors of this volume internationally renowned philosophers and intellectual historians address this question in all its novelty and ambiguity and develop varied perspectives on the place and nature of ethics in the philosophy enterprise and practice of history is the whole historical process largely consisting of the actions and sufferings of persons and groups subject to ethical constraint and what of the ways in which historians present their subject matter are these methods subject to moral scrutiny although they approach these issues from different directions the contributors

agree in their critique of the correspondence theory of history in their acceptance of an unbridgeable gap between the past and the historian's present account and in their call for a revision of the popular appeal to historical objectivity

The Ethics of the Environment 2017-05-15

The Ethics of Surgical Practice 2008-06-23

in the ethics of discernment patrick h byrne presents an approach to ethics that builds upon the cognitional theory and the philosophical method of self appropriation that bernard lonergan introduced in his book insight as well as upon lonergan s later writing on ethics and values extending lonergan s method into the realm of ethics byrne argues that we can use self appropriation to come to objective judgements of value the ethics of discernment is an introspective analysis of that process in which sustained ethical inquiry and attentiveness to feelings as intentions of value leads to a rich conception of the good written both for those with an interest in lonergan s philosophy and for those interested in theories of ethics who have only a limited knowledge of lonergan s work byrne s book is the first detailed exposition of an ethical theory based on lonergan s philosophical method

The Routledge Handbook of the Ethics of Consent 2018-06-14

we humans can enhance some of our mental and physical abilities above the normal upper limits for our species with the use of particular drug therapies and medical procedures we will be able to enhance many more of our abilities in more ways in the near future some commentators have welcomed the prospect of wide use of human enhancement technologies while others have viewed it with alarm and have made clear that they find human enhancement morally objectionable the ethics of human enhancement examines whether the reactions can be supported by articulated philosophical reasoning or perhaps explained in terms of psychological influences on moral reasoning an international team of

ethicists refresh the debate with new ideas and arguments making connections with scientific research and with related issues in moral philosophy

The Ethics of Care and Empathy 2007-08-07

this book aims to contribute significantly to the understanding of issues of value including the ultimate value of space related activities which repeatedly emerge in interdisciplinary discussions on space and society although a recurring feature of discussions about space in the humanities the treatment of value questions has tended to be patchy of uneven quality and even on occasion idiosyncratic rather than drawing upon a close familiarity with state of the art ethical theory one of the volume s aims is to promote a more robust and theoretically informed approach to the ethical dimension of discussions on space and society while the contributions are written in a manner which is accessible across disciplines the book still withstands scrutiny by those whose work is primarily on ethics at the same time it allows academics across a range of disciplines an insight into current approaches toward how the work of ethics gets done the issues of value raised could be used to inform debates about regulation space law and protocols for microbial discovery as well as longer range policy debates about funding

The Ethics of Freedom 2015-06-25

in aristotle and menander on the ethics of understanding valeria cinaglia offers a parallel study of menander s new comedy and aristotle s philosophy focusing on subjects ranging from epistemology and psychology to ethics cinaglia does not aim to demonstrate the direct philosophical influence of aristotle on menander but explores the hypothesis that there are significant analogies between the two that disclose a shared thought world cinaglia shows that aristotle and menander offer analogous views of the way that perceptions and emotional responses to situations are linked with the presence or absence of ethical and cognitive understanding or the state of ethical character development the study of these analogies contributes to a deeper understanding of both frameworks involved

The Ethics of War 2006-07-05

war remains a grim fixture of the human landscape and because of its

tremendous and ongoing impact on the lives of millions of people has always attracted the attention of careful rigorous and empathetic moral philosophers and while war is synonymous with death and ruin very few people are willing to surrender to moral nihilism about war the view that all really is fair at the center of debates about war remains the most important question that faces us during battle whom are we allowed to kill this volume collects in one place the most influential and groundbreaking philosophical work being done on the question of killing in war offering a who s who of contemporary scholars debating the foundational ethical questions surrounding liability to harm in ten essays it expands upon and provides new and updated analyses that have yet to be captured in a single work essays explore questions such as are some soldiers more deserving of death than others should states allow soldiers to conscientiously object to opt out of war on a case by case basis can a theory of rights best explain when it is permissible to kill in war when are we allowed to violently resist oppression that is itself nonviolent is there anything wrong with targeting people with autonomous weapons as a convenient and authoritative collection of such discussions this volume is uniquely suited for university level teaching and as a reference for ethicists policymakers stakeholders and any student of the morality of killing in war

The Ethics of Discernment 2016-01-01

the ethics of cultural appropriation undertakes a comprehensive and systematic investigation of the moral and aesthetic questions that arise from the practice of cultural appropriation explores cultural appropriation in a wide variety of contexts among them the arts and archaeology museums and religion questions whether cultural appropriation is always morally objectionable includes research that is equally informed by empirical knowledge and general normative theory provides a coherent and authoritative perspective gained by the collaboration of philosophers and specialists in the field who all participated in this unique research project

The Ethics of Human Enhancement 2016-10-13

study of one of the key philosophers in the post heideggerian field and an increasingly central presence in contemporary debates about identity and responsibility

The Ethics of Belief, and Other Essays 1947

excerpt from the ethics of the greek philosophers socrates plato and aristotle a lecture given before the brooklyn ethical association season of 1896 1897 he present lecture on the ethics of the greek phi losophers is one of a course on the evolution of ethics delivered before the brooklyn ethical associa tion in the years 1896 and 1897 some of these lectures were also given at the cambridge conferences at the studio house of mrs ole bull in cambridge mass of which conferences the late dr lewis g janes was then director having been previously president of the brooklyn ethical association for several terms the full list of these lectures is as follows about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The Ethics of Space Exploration 2016-07-25

in this book cees j hamelink proposes an answer to how should democratic societies organize cyberspace that puts human rights rather than profit at the top of the agenda he argues that conventional ethical approaches are all seriously flawed there is a growing volume of moral rules netiquettes and codes of conduct but they are of little help in solving the moral dilemmas raised by the new technologies in this book the author analyzes the inadeqacies of current global governance policies and structures that underpin them and argues for standards which put justice human security and freedom first

Aristotle and Menander on the Ethics of Understanding 2014-11-06

the ethics of climate change an introduction systematically and comprehensively examines the ethical issues surrounding arguably the greatest threat now facing humanity williston addresses important questions such as has humanity entered the anthropocene is climate

change primarily an ethical issue does climate change represent a moral wrong what are the impacts of climate change what are the main causes of political inaction what is the argument for climate change denial what are intragenerational justice and intergenerational justice to what extent is climate change an economic problem is geoengineering an ethically appropriate response to climate change featuring case studies throughout this textbook provides a philosophical introduction to an immensely topical issue studied by students within the fields of applied ethics global justice sustainability geography and politics
