India has been experiencing a significant transition as the new generation born after the economic reforms in 1991 has emerged as a main player in the Indian society now in their 20s and 30s. This generation has different attitudes and preferences toward religion, politics, and consumption from their parents. As a result, the country is also witnessing rapid changes. This book seeks to explore the great transition in India through interdisciplinary and multidisciplinary perspectives related to digital India, foreign policy, and social identity, including caste. It attempts to lay the foundation for understanding India and will be of great interest to students, researchers, and for anyone interested in India. What role have translations from Hindi literary works played in shaping and transforming our knowledge about India? In this book, renowned scholars, translators, and Hindi writers from India, Europe, and the United States offer their approaches to this question. Their articles deal with the political, cultural, and linguistic criteria germane to the selection and translation of Hindi works, the nature of the enduring links between India and Europe, and the reception of translated texts, particularly through the perspective of book history. More personal essays, both on the writing process itself or on the practice of translation, complete the volume and highlight the plurality of voices that are inherent to any translation. As the outcome of an international symposium held at the University of Lausanne, Switzerland, in 2008, *India in Translation* through Hindi literature engages in the building of critical histories of the encounter between India and the West. The use and impact of translations in this context and Hindi literature and culture in connection to English post-colonial power, literature, and culture in the early twentieth century, British imperialism in India, was at its peak, and anti-colonial sentiments were on the rise. The nationalist desire for cultural self-identification was gaining ground, and an important articulation of this was the demand for a national language and literature to represent a modern India. It was in this context that Mahavir Prasad Dwivedi, a novel, daring, and contentious litterateur, launched his multimedia campaign of constructing a new Hindi literary establishment. As the long-time editor of the Hindi journal *Sarasvatī*, Dwivedi's influence was so far-reaching that this period of modern literature in Hindi is known as the Dwivedi era. However, he had to face stiff opposition, as well. Sujata Mody's book sheds light on the interactions between Dwivedi and his supporters and detractors and shows how Dwivedi's responses to challenges were pragmatic and strategically varied. The making of modern Hindi presents Dwivedi as a dynamic and influential arbiter of literary modernity whose exchanges with competing authorities are an important piece in the history of Hindi literature. With globalization, English has become an economic necessity, and Indians have realized that they have the English advantage over many other countries like China and Japan. India has shed its colonial complexes towards English and has come to terms with the language. Indians have separated the English language from the English. The story of English in India presents historical facts in a socio-cultural framework. The book is a must for all teachers and students of English. It will be useful for all those interested in the politics of language and education in India. Key issues discussed are: we are indebted to the British for introducing English in India; what was the role of English during India's struggle for freedom; has English united India, has English divided India into two—the English-knowing classes who govern and the non-English-knowing masses who are governed; will English ever become an Indian tongue spoken in the great Indian language bazaar; what will be the future of major Indian languages in the wake of the English onslaught; will it end in linguistic imperialism and cultural colonialism. First published in 1970, *The Novel in India* traces the birth and development of prose fiction in Bengali, Marathi, Urdu, Hindi, Tamil, and Malayalam. It is addressed not only to academic students of Asian culture but to all who are interested in literary history. India and Pakistan have many great literatures, but they are almost unknown beyond their own boundaries. Language is a formidable barrier, and this book is offered in the hope that it can bridge the cultural divide that language has created. It has a fascinating story to tell of the endeavours, experiments, and achievements of writers who deserve to be better known outside their native land. This book contains both Hindi words and phrases which will be a useful asset for trips to India. The book also contains conversational Hindi, a tourist might find useful for instance when they are shopping, booking a ticket at the hotel, dealing with beggars at the restaurant, and so on. So if you are traveling to India, then this is the book to take with you. Or perhaps you are a student and planning a study trip to India, then this book will be useful too. Perhaps you are learning Hindi and you wish to add something extra to your existing resource, or just simply you want to polish up on your Hindi.
