women into believing that they belonged in a beautiful environment it is here bowlby argues that the idea of the modern woman s passion for fashion and shopping took hold developed in the twentieth century supermarkets took an opposite tack they offered functionality standardization and cheapness however bowlby claims despite their differences the two institutions belong together as emblematic of their respective eras social developments the department store with the growth of cities the supermarket with the proliferation of suburbs with their dazzling lights and displays both supermarkets and department stores were thought to produce in females an enhanced or trance like state of mind for readers who regard shopping as a spectator or participatory sport and for those who wish to understand our culture and the psychology of women or those who simply enjoy a witty literate romp through the aisles carried away is the perfect purchase

Mineral Substances: being an explanatory text book of the minerals and metals used in the arts and manufactures, etc

2005-07-26
