by model history that reveals how to pick a collector which are run of the mill and how to spot the difference sftbd 7 1 2 x 9 1 2 160 pgs 172 ill whether you are just beginning your collection or you have been collecting for years the complete u s automobile dealer literature checklist is an essential tool catalog your collection and identify the literature you need to make your collection complete keep a copy next to your computer for those on line searches and another copy to take to swap meets it s a catalog a checklist and a guide all in one the ideal way to organize and expand your collection perfect for starting your collection and perfect for completing your collection you can even use it to get an insurance appraisal no collector should be without at least one copy this comprehensive reference guide reviews the literature concerning the impact of the automobile on american social economic and political history covering the complete history of the automobile to date twelve chapters of bibliographic essays describe the important works in a series of related topics and provide broad thematic contexts this work includes general histories of the automobile the industry it spawned and labor management relations as well as biographies of famous automotive personalities focusing on books concerned with various social aspects chapters discuss such issues as the car s influence on family life youth women the elderly minorities literature and leisure and recreation berger has also included works that investigate the government s role in aiding and regulating the automobile with sections on roads and highways safety and pollution the guide concludes with an overview of reference works and periodicals in the field and a description of selected research collections the automobile in american history and culture provides a resource with which to examine the entire field and its structure popular culture scholars and enthusiasts involved in automotive research will appreciate the extensive scope of this reference cross referenced throughout it will serve as a valuable research tool this is the only book that completely lists accurate technical data for all cars imported into the u s market from 1946 2000 with many imports approaching the antique status this book will be a big seller across all generations of car enthusiasts from the grandiose european carriages of the late forties to the hot little asian imports of the nineties every car to grace american roadways from across the atlantic and pacific is carefully referenced in this book break break foreign car devotees will appreciate the attention given to capturing precise data on appearance and equipment vehicle i d numbers specification charts engine data chassis technical data options and historical information break break collectors restorers and car buffs will love this key book from noted automotive authors james flammang and mike covello from the resumption of automobile production at the close of world war ii through the 1950s the american auto industry would see the births and deaths of several manufacturers great technological advances and an era of dramatic styling as a prospering nation asserted its growing mobility cars of this period are among the most iconic vehicles ever built in the united states the 1949 ford the remarkable studebaker designs of 1950 and 1953 the 1955 1957 chevrolets the forward look chrysler products the ill fated edsel and many others this comprehensive reference book details every model from each of the major manufacturers including independents such as kaiser frazer and crosley but excluding very low volume marques such as tucker from model years 1946 through 1959 year by year it provides an overview of the industry and market followed by an individual report on each company its main news for the year introductions or cancellations of models new engines and transmissions advertising themes sales trends etc its production figures and market status and its powertrain offerings paint colors and major options the company s models are then detailed individually with such information as body styles prices dimensions and weights standard equipment and production figures nearly 1 000 photographs are included the two decades between 1945 and 1965 saw some remarkable motor cars emerge from the new rolls royce factory at crewe the mark vi bentley was the first model to be built entirely by rolls royce using a body supplied by pressed steel although coachbuilt cars were still available the rolls royce silver dawn version followed in 1949 this and its bentley sister both receiving big boot bodies in 1952 meanwhile the 120mph continental appeared the entirely new rolls royce silver cloud and bentley s series almost identical to each other arrived in 1955 and from 1959 a v8 was installed by their side coachbuilt s series continentals continued original rolls royce bentley 1946 65 is the essential companion to these cars the aim of this book is to reveal in words and color photographs how the various models altered through the course of production drawing on factory records parts lists catalogs and other data the author has provided a meticulous survey of the standard steel cars built at crewe over 250 specially commissioned color photographs showing the detail changes to these cars accompany the authoritative text previously published as part of a larger volume the world encyclopedia of armoured fighting vehicles t p verso this book provides a comprehensive history of american print automobile advertising over a half century span beginning with the entrenchment of the big three automakers during the depression and concluding with the fuel crises of the 1970s and early 1980s advances in general advertising layouts and graphics are discussed in part one together with the ways in which styling mechanical improvements and convenience features were highlighted part two explores ads that were concerned less with the attributes of the cars themselves

than with shaping the way consumers would perceive and identify with them part three addresses ads oriented toward the practical aspects of automobile ownership concluding with an account of how advertising responded to the advance of imported cars after world war ii illustrations include more than 250 automobile advertisements the majority of which have not been seen in print since their original publication the newly revised fourth edition of the standard catalogue of american cars 1946 1975 is the most complete post world war two automobile book ever assembled ron kowalke brings together the top minds in car collecting to deliver a one of a kind source for identifying buying selling or simply enjoying american cars from 1946 1975 by using this book you ll join auctioneers insurers hobbyists investors car dealers restorers and other collectors in the pursuit of some of the best cars america ever produced from the big automakers in detroit to the small one car wonders from new jersey to california more than a thousand listings of individual models help you to make critical restoration buying and selling decisions and help you to avoid making an expensive mistake
