Hacking Raspberry Pi

2013-10-01

diy hardware hacking easy as pi raspberry pi is taking off like a rocket you can use this amazing dirt cheap credit card sized computer to learn powerful hardware hacking techniques as you build incredibly creative and useful projects this complete full color guide requires absolutely no experience with either hardware hacking or computer programming colorful photos guide you through

each project and the step by step instructions are stunningly clear and easy 1 start with the absolute basics discover why millions of people are so passionate about the pi tour the hardware including storage connections and networking install and run raspbian raspberry pi s linux based operating system manage devices and configuration files network raspberry pi and add wi fi program raspberry pi using python scratch xhtml php and mysql 2 next build all these great projects media center retro console video game station minecraft server server portable webcam security privacy device 3 then master all these cutting edge techniques overclock raspberry pi for better performance link raspberry pi to the arduino and arduino clones including the alamode and the gertboard use the pi to build electronics prototypes using a breadboard
