Rehabilitation R & D Progress Reports 1997 speech and language advances in basic research and practice volume 11 contains articles that discuss a wide range of topics on speech and language processes and pathologies this volume is comprised of six contributions on a wide variety of topics on speech and language the book begins with an examination of approaches to aphasia diagnostics from both a medical and nonmedical perspective subsequent chapters cover topics on acoustic phonetic descriptions of speech production in speakers with cleft palate and other velopharyngeal disorders the role of infant vocalizations as they relate to subsequent speech and language development pitch phenomena and applications in electrolarynx speech and practical applications of neuroanatomy the final chapter presents the employment of studies of temporal coordination to understand the development of motor control in speech and to provide a basis for testing theories on the development of speech as a motor skill linguists speech pathologists and researchers on language development will find the book very insightful and informative

Rehabilitation R & D progress reports 1987 1983 this major reference work fills a need long recognized in neurolinguistics a source for analyzable speech transcripts from agrammatic aphasic patients that provides detailed grammatical descriptions and distributional analyses this 3 volume set is unique in that it presents narrative speech from carefully selected clinically comparable patients speakers of 14 languages and parallel narratives by normal speakers for each of the 14 languages there is a case presentation chapter analyzing and discussing the language of agrammatic patients followed by primary data which are organized as follows running text of speech by two patients interlinear morphemic translations of those texts running text of speech elicited from two normal control subjects plus interlinear translations tables and figures analyzing distributional properties of the patients speech results of comprehension tests of the patients transcriptions of patients oral reading and writing samples neurological information is included with the case presentations and a short grammatical sketch of each language is added to make the work on all languages accessible even to those who only read english language findings are presented for english dutch german icelandic swedish french italian polish serbo croatian hindi finnish hebrew chinese and japanese the book is an indispensable reference work for all linguists psycholinguists and neurolinguists who wish to test their theories against a massive body of data

Rehabilitation R & D progress reports 1996 1983 first published in 1989 routledge is an imprint of taylor francis an informa company

Bulletin of Prosthetics Research 1981 first multi year cumulation covers six years 1965 70

Rehabilitation R & D progress reports 1994 1983 this volume combines in depth reviews of models of spoken word production and cognitive neuropsychological disorders of spoken word production the first section provides a detailed discussion of the development and structure of current models of language production using data from normal subjects it is these models that form the basis of the study and therefore the text attempts to explain their processing mechanisms and assumptions clearly the evidence used for the development of these models is described including experimental studies and observation of patterns in naturally occurring speech errors the second section focuses on studies of aphasic naming disorders and discusses these disorders in terms of the model described in the first section the emphasis is on single case studies these are reviewed in three chapters examining semantic errors and disorders the range of symptoms attributed to disorders of lexical retrieval and deficits of phonological encoding the text assumes that the reader has some familiarity with the linguistic and psychological terminology relevant to these areas and therefore is most suited to the graduate student or researcher lecturer

Rehabilitation R & D progress reports 1984 |MA 1983 neuropsycholinguistics the interaction between linguistics psycholinguistics and aphasiology has over the past two decades established itself as a multidisciplinary science worthy of its recent attention in drs nespoulos and villiard s morphology phonology and aphasia in this new volume in the springer series in neuropsychology the editors have most successfully developed a multidisciplinary team of research through the organization of two symposia one on morphology and aphasia the other focused on phonology and aphasia toward the goal of better understanding the aphasic patients verbal behavior the contributing authors of this important work offer their respective expertise continuing the recent evolution of developments in the fields of morphology and phonology

Rehabilitation R & D progress reports 1991 1983 this book surveys the history of aphasia from the earliest mentions of speech and language impairments in ancient times medieval attempts to understand aphasia through to the development of modern cognitive neuroscience

Rehabilitation R & D progress reports 1983 |DE 1983 this voice driven narrative non fiction book relays the stories of seven courageous women whose lives have been greatly impacted by a loved one s stroke resulting in loss of language ability to one degree or another aphasia leads to varying degrees of problems in speaking understanding reading writing gesturing and using numbers aphasia can be extremely stressful for both the individual who had the stroke and for their family and friends speech is such a significant part of human interaction and it s something that most people take for granted it s

hard to be able to communicate if you've been dependent upon verbal communication and yours is suddenly impaired fortunately some recovery from aphasia is possible and there are still ways to effectively communicate even with aphasia the stories contained in the book are intended to help others feel less alone as they navigate their loss and the confusing healthcare system the stories are told from the advent of a stroke of their loved ones and describe how these caretakers persevered to find quality medical services and to provide home care caring for a loved one with aphasia after stroke is written for people who are going through a similar crisis or for those in the medical and or speech language field who are interested to learn more about perseverance and hope that are critical to aphasia

Resources in Education 1990-07 identifies and describes specific government assistance opportunities such as loans grants counseling and procurement contracts available under many agencies and programs

Rehabilitation R & D progress reports 1988 1983 this special issue of aphasiology represents the papers accepted for publication which were among those presented at the 34th clinical aphasiology conference held in park city utah in 2004 they have been peer reviewed and selected by a distinguished group of ad hoc editorial consultants from among the considerably larger number of papers and posters presented at the meeting itself

Speech and Language 2014-06-28 the third edition of the bestselling speech language pathology assistants a resource manual is an essential practical and easy to use resource for slpas and slpa educators and their students the text defines the roles of slpas and their supervisors offering additional insight into the scope of practice of an slpa per current american speech language hearing association asha recommendations and includes discussions strategies and examples of real world issues such as using augmentative and alternative communication aac and working with individuals with autism spectrum disorder asd also included within the chapters are important factors and modifications that can enhance the effectiveness of treatment activities for example using behavioral principles and incorporating play literacy and speech sound remediation into treatment or modifying the clinical interface to enhance group therapy dynamics for children and adults initial chapters are devoted to specific aspects of an slpa's development such as chapters on ways slpas can enhance clinical service through understanding of goals lesson plans data collection and note writing likewise chapters on professional practice offer insight into ethical problem solving presenting a professional image developing mentoring relationships working with culturally and linguistically diverse populations and the use of self reflection for self improvement these chapters are followed by key principles for slpas to incorporate in clinical services provided to specific populations and disorders new to the third edition updated asha documents throughout including references to the new asha speech language pathology assistant scope of practice 2022 and speech language pathology code of conduct 2020 new co author margaret vento wilson brings years of experience in both professional and academic settings and adds a fresh perspective throughout significant updates to chapter 11 on using behavioral principles new contributing authors bringing relevant updates in the field of speech language pathology speech language pathology assistants a resource manual third edition is a key resource for enhancing skills and highlighting professional practice issues for clinical practicum training or future employment this is a text both slpas and slpa educators will want to have on their bookshelves

Rehabilitation R & D progress reports 1992/93 1983 this book covers topics in aphasia motor speech disorders and dementia organized by symptom rather than syndrome this text provides a foundation for understanding the disorders and learning how to apply basic theory to clinical practice in the development of rehabilitation objectives this text applies a clinical integration of the psychosocial with the neuropsychological approach in adult language rehabilitation written by international authorities in the field of aphasia and related communication disorders and based on the icf framework this unique text features diverse contribution covering global issues
