as u s and canadian automakers and dealers face bankruptcy and toyota battles unprecedented quality control problems lemon aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car and truck books on the market phil edmonston canada s automotive dr phil for more than 40 years pulls no punches in this all new guide he says chrysler s days are numbered with the dubious help of fiat electric cars and ethanol power are pr gimmicks diesel and natural gas are the future be wary of zombie vehicles jaguar land rover saab and volvo mercedes benz rich cars poor quality there s only one saturn you should buy toyota enough apologies when you mess up fess up the bristol badge has sat proudly on a succession of fast reliable and expensive 6 8 and 10 cylinder cars since 1946 though it was initially revered by the

motoring press an air of mystery descended over the marque throughout the 1980s and 1990s now under new ownership bristol is to be reborn with new state of the art models proposed which aim to capture the excellence and exclusivity of the early models as a compliment to the revival this book celebrates the rich diversity of each model from bristol cars production catalogue bristol cars model by model provides a history of the development and production of each of the cars including coachbuilt and racing models with full specifications it is richly illustrated with over 400 photographs

the book is a comprehensive guide to the history of the bristol car company and its products. It covers the company's early days in the 1920s and 1930s, its decline in the 1940s and 1950s, and its resurgence in the 1960s and 1970s. The book also includes a detailed history of the company's products, from its early open-top cars to its more recent models. The book is a must-read for anyone interested in the history of the bristol car company and its products.

popular science gives our readers the information and tools to improve their technology and their world the core belief that popular science and our readers share the future is going to be better and science and technology are the driving forces that will help make it better
