Adults and Their Parents in Family Therapy: A New Direction in Treatment

1977-12-01

when bowen was a student and practitioner of classical psychoanalysis at the menninger clinic he became engrossed in understanding the process of schizophrenia and its relationship to mother child symbiosis between the years 1950 and 1959 at menninger and later at the national institute of mental health as first chief of family studies he worked clinically with over 500 schizophrenic families this extensive experience was a time of fruition for his thinking as he began to conceptualize human behavior as emerging from within the context of a family system later at georgetown university medical school bowen worked to extend the application of his ideas to the neurotic family system initially he saw his work as an amplification and modification of freudian theory but later viewed it as an evolutionary step toward understanding human beings as functioning within their primary network their family one of the most renowned theorist and therapist in the field of family work this book encompasses the breadth and depth of bowen s contributions it presents the evolution of bowen s family theory from his earliest essays on schizophrenic families and their treatment through the development of his concepts of triangulation intergenerational conflict and societal regression and culminating in his brilliant exploration of the differentiation of one s self in one s family of origin

Family Therapy in Clinical Practice

1985

first published in 1981 routledge is an imprint of taylor francis an informa company

Handbook Of Family Therapy

2014-07-22

during the late 1970s and early 1980s there was a growing interest in family therapy as a potent tool for helping to bring about change and growth in many families whose lives had become stagnant joyless or self destructive as it became more popular as a method of social work intervention demands for training opportunities for professional workers increased despite this however there was very little writing on the subject produced in Britain at the time originally published in 1976 this practical text was aimed at the growing number of social workers who were anxious to add family therapy to their skills and would also have been of value to psychiatrists general practitioners psychologists and all those involved in the psychotherapeutic treatment of married couples and families who came to them for help using case illustrations Sue Walrond Skinner describes the theory behind family therapy and some of the techniques of treatment which the method uses by extensive use of verbatim transcripts of interviews she shows the minute by minute flow of a family therapy session and gives a clear idea of what can be and is achieved using this method of therapeutic intervention a major part of social work today this book shows where it all began

Family Therapy (Psychology Revivals)

2014-06-17

Family Therapy

2017-08-03

the relational systems model for family therapy presents a multi systems approach to family therapy that teaches the therapist important self differentiating capacities that set the tone for creating a powerful therapeutic atmosphere while the model demands no specific treatment procedures it does rely on the therapist's capacity to adhere to its basic ideas as she he is the most vital factor in the model's success in the relational systems model for family therapy author Donald R. Bardill encourages the therapist to be the learning vehicle for the integration of the four realities of life self other context spiritual and the differentiating process that is necessary for human survival safety and growth understanding this model allows therapists to lead clients to heightened self awareness and the realization of their human potential both important factors for intellectual growth emotional maturity and problem solving to this end readers learn about the self differentiating therapist the person of the therapist is the crucial variable in an effective family treatment process the facing process the client faces such issues as self identity life purpose thought and behavior patterns emotionalized fears and the future emotionalized right wrong focus is on consequences of actions rather than right wrong judgments in relationship issues life stances the uniqueness of the individual affects their connection to the life realities family grid a way for the therapist to organize and talk about important family systems dynamics the therapeutic paradox the client's worldview is

examined through the therapist's worldview and a new worldview is formed the relational systems model for family therapy is an important handbook for practitioners and students in the fields of clinical social work psychology marriage and family therapy mental health counseling counseling psychology pastoral counseling and psychiatric nursing the book is also useful as a supplemental text for advanced undergraduate classes and postgraduate seminars in family therapy and family counseling the self-differentiation nature of the content also lends this book useful to self-help readers

The Relational Systems Model for Family Therapy

2015-12-22

postmodernist ideas are widely used in family therapy however it is argued that these ideas have their limits in meeting the richness and complexity of human experience and therapy practice family therapy beyond postmodernism examines postmodernism and its expressions in family therapy raising questions about reality and realness the subjective process of truth the experience of self alongside identifying the difficulties in any sole reliance on narrative and constructionist ideas this book advocates the value of selected psychoanalytic ideas for family therapy practice in particular attachment and the unconscious transference projective identification and understandings of time psychoanalytic ideas about thinking and containment in the therapeutic relationship family therapy beyond postmodernism offers a sustained critical discussion of the possibilities and limits of contemporary family therapy knowledge and develops a place for psychoanalytic ideas in systemic thinking and practice it will be of great interest to family therapists psychotherapists and other mental health professionals

Family Therapy Beyond Postmodernism

2003-09-02

annotation the third edition of an introduction to family therapy provides an overview of the core concepts informing family therapy and systemic practice covering the development of this innovative field from the 1950s to the present day the book considers both British and international perspectives and includes the latest developments in current practice regulation and innovation looking at these developments within a wider political cultural and geographical context the third edition also contains a new chapter on couple therapy a new chapter on practice development up to 2009 sections highlighting the importance of multi-disciplinary practice in health and welfare lists of key texts and diagrams suggested reading organized by topic and practical examples and exercises are also used in order to encourage the reader to explore and experiment with the ideas in their own practice this book is key reading for students and practitioners of family therapy and systemic practice as well as those from the fields of counselling psychology social work and the helping professions who deal with family issues

Therapists Use of Self in Family Therapy

2000-06-01

first published in 1993 should be used as opposed to focusing on the techniques with theories attached approach of other books in the same genre the first volume in the basic principles into practice series this book provides an easy to understand basic approach that eschews the latest treatment trends and buzzwords in family therapy to focus on a new way of thinking about using family relationships in treating behavioral disorders throughout dr griffin stresses the importance of

learning to view and treat the family as a whole often requiring a difficult conceptual shift in one's view of aberrant behavior readers will be rewarded with a core rudimentary understanding of family therapy that will serve them well regardless of which family therapy models they later use in practice

Family Therapy

2013-10-28

this reader will serve as a supplemental resource for the text family therapy models skills and techniques a comprehensive introduction and the instructors manual the reader has two purposes to provide background reading material to assist the instructor in the preparation of class room lectures and to provide additional resources beyond the scope of an introductory family therapy textbook
