in this provocative and groundbreaking book colin campbell shows that the civilization of the west is undergoing a revolutionary process of change one in which features that have characterized the west for two thousand years are in the process of being marginalized to be replaced by those more often associated with the civilizations of the east moving far beyond popular trends campbell assembles a powerful range of evidence to show how easternization has been building throughout the last century especially since the 1960s campbell demonstrates how it was largely in the 1960s that new interpretations in theology political thought and science were widely adopted by a new generation of young culture carriers this highly original and wide ranging book advances a thesis that will be of interest to scholars in many disciplines in the humanities and social sciences named npr best books of 2017 from the winner of the 2016 orwell prize and the european press prize for commentator of the year a provocative analysis of how a new era of global instability has begun as the flow of wealth and power turns from west to east easternization is the defining trend of our age the growing wealth of asian nations is transforming the international balance of power this shift to the east is shaping the lives of people all over the world the fate of nations and the great questions of war and peace a troubled but rising china is now challenging america s supremacy and the ambitions of other asian powers including japan north korea india and pakistan have the potential to shake the whole world meanwhile the west is struggling with economic malaise and political populism the arab world is in turmoil and russia longs to reclaim its status as a great power as it becomes clear that the west s historic power and influence is receding gideon rachman offers a road map to the turbulent process that will define the international politics of the twenty first century the decline of the christian churches in the west is undeniable but commentators differ in their understanding of what this represents for some it shows a decline in interest in religion as such for others religion has not declined it has only changed its shape possible candidates for christianity s replacement are the new religious movements of the late 1960s and what is variously called new age alternative or contemporary spirituality secular beats spiritual offers a detailed study of the religious and spiritual innovations of the last 50 years it assesses their popularity in the uk and concludes that the not decline just change view cannot be sustained serious interest in spirituality has grown far less quickly than has the number of us who have no religious or spiritual interest the most popular and enduring movements have been the least religious ones and those that have survived have done so by becoming more this worldly and less patently religious or spiritual yoga is popular but as a secular exercise programme transcendental meditation now markets its meditational technique as a purely secular therapy british buddhists now offer the secular mindfulness and the findhorn foundation europe s oldest new age centre is no longer the germ of a counter cultural communalism but sells its expertise to major corporations steve bruce also demonstrates that although eastern religious themes such as reincarnation and karma have become more popular as the power of the christian churches to stigmatise them has declined such themes have also been significantly altered so that what superficially looks like the easternization of the west might better be described as the westernization of the easternization of the west just over a decade ago a new paradigm emerged that challenged the conventional type of global development assistance by which the global north vertically supports the global south it became apparent that a shift was taking place to an approach built upon horizontal relationships between equal partners often seeking mutual benefits from development cooperation this book sets out how east asian aid donors and their innovative practices are central to this new paradigm author sanae ito maps the evolution of east asian development approaches against the background of the political and economic focus of the sustainable development goals sdgs while keeping in
