Critical Globalization Studies 2023-09-26

this book provides write in practice specially designed to support students aiming for grades 4 6 at gcse it has been carefully written to build students familiarity and confidence with the content and skills required for exam success a step by step on your marks approach hones students ability to answer different types of exam questions effectively and provides scaffolded support for tricky threshold topics and concepts from the aqa specification the book includes annotated sample answers and a full set of exam papers to practise exam technique and is suitable for both independent study and in class exam preparation written with reference to the 2019 examiner reports and latest aqa guidance you can be confident that this book reflects a real understanding of what is required for success at gcse level includes answer guidance to all activities mark schemes for exam papers will be provided online also available revision guide fieldwork student book kerboodle resources and assessment kerboodle book student access also available as printed book 9781382009553 7 9 version also available 9781382009621

Oswaal CBSE Sample Question Papers Class 12 Accountancy, Business Studies, Economics & English Core (Set of 4 Books) (For Board Exams 2024) | 2023-24 2014-08-11

the burning question reveals climate change to be the most fascinating scientific political and social puzzle in history it shows that carbon emissions are still accelerating upwards following an exponential curve that goes back centuries one reason is that saving energy is like squeezing a balloon reductions in one place lead to increases elsewhere another reason is that clean energy sources don t in themselves slow the rate of fossil fuel extraction tackling global warming will mean persuading the world to abandon oil coal and gas reserves worth many trillions of dollars at least until we have the means to put carbon back in the ground the burning question is whether that can be done what mix of politics psychology economics and technology might be required are the energy companies massively overvalued and how will carbon cuts affect the global economy will we wake up to the threat in time and who can do what to make it
