plus easy to read comparison charts graphs and specifications every year global automakers introduce new or significantly re engineered passenger vehicles with increasingly advanced technology intended to exceed consumer expectations and satisfy increasingly stringent government regulations some of these technologies are firsts of their kind and start trends that other automakers soon follow with the innovations becoming adopted across the board the supply community is also increasingly playing a more significant role in helping the original equipment manufacturers research develop and introduce the latest engineering innovations that help bring competitive advantage for their automaker partners each year the editors of sae s automotive engineering magazine publish many articles focused on the technology and engineering innovations of new passenger and concept vehicles and these articles have been collected into this volume this 2015 passenger car and 2014 concept car yearbook is the fourth in an ongoing series of books that provide yearly snapshots of the latest and greatest technologies introduced by the automotive industry in this book we explore from an oem and supplier perspective the newest and most technically interesting production vehicles released for the 2015 model year in addition we also have included a technology focused recap of the concept cars revealed during 2014 readers will have in one publication a complete overview of the key advances that took place over the course of the year from around the world each new model is profiled in its own chapter with one or more articles by the award winning editors and contributors of automotive engineering in this exclusive compilation of print and online content the novel engineering aspects of each new vehicle are explored with exclusive interviews of key engineers and product developers providing insights you can only get from you can only get from automotive engineering this book is published for the most technically minded enthusiasts who are interested in new car technologies as well as practicing automotive engineers who are interested in new engineering trends engineering
