rm liuzza s broadview edition of beowulf was published at almost exactly the same time as seamus heaney s in reviewing the two together in july 2000 for the new york review of books frank kermode concluded that both translations were superior to their predecessors and that it was impossible to choose between the two the less celebrated translator can be matched with the famous one he wrote and liuzza s book is in some respects more useful than heaney s ever since the liuzza beowulf has remained among the top sellers on the broadview list with this volume readers will now be able to enjoy a much broader selection of old english poetry in translations by liuzza as the collection demonstrates the range and diversity of the works that have survived is extraordinary from heartbreaking sorrow to wide eyed wonder from the wisdom of old age to the hot blood of battle and to the deepest and most poignant loneliness there is breathless storytelling and ponderous cataloguing there is fervent religious devotion and playful teasing the poems translated here are meant to provide a sense of some of this range and diversity in doing so they also offer significant portions of three of the important manuscripts of old english poetry the vercelli book the junius manuscript and the exeter book

love life loss and longing is a poetry anthology separating poems about the philosophies of the world or main aspects of reality into four categories each of these categories serves in the text as a chapter herein called books the first section love talks about the good the second section life discusses what is the third section loss deals with the bad the fourth section longing touches on what isn't together all four make up what our emotions tap into when we experience things the good the bad what is and what isn't the order of the poems starts with the two most positive renditions of philosophy namely the good and what is the second half of the text leads us into more difficult hurdles such as the bad things and what doesn't really exist the poems are not written in sequential order by date nor alphabetical order and are assembled entirely at random this randomization reflects the way in which each of the four aspects come at us in the world we never know when we will be feeling good or bad or feeling a fulfillment vs an absence it is instinctive which of these categories a poem will fall into and where they should be placed in sequence this anthology uses words that all start with the letter l because of its special powers in terms of energy when it comes to language at the end of the book the reader should be able to relate to many of the poems and be able to have a more positive outlook on life overall knowing that even though sometimes things are bad they can also be really really good and if we didn't have the absence of things we wouldn't appreciate them when they are there
